

teachers of the Harrisonburg Normal School. This work is supervised by the instructors in the departments of the Normal School under which it comes—Miss Shaeffer, Mrs. Johnston, and Mr. Johnston—and by Miss Anthony, the director of the Training School. The music is taught in the regular classroom. The patrons have bought a victrola for the school. The physical training class is conducted in the assembly room, a large airy room, well suited to the work. The general science laboratory has been equipped with the required apparatus, laboratory tables, a reagent case, etc.

As Pleasant Hill is two miles from the Normal School the problem of transportation had to be met. The practise teachers walked the fall quarter and were not required to take physical education. As this was out of the question during the winter quarter, it was arranged to have them go on the train. But this was not satisfactory, as the train was seldom on time, and often as much as forty minutes late. The problem has finally been solved here by the practise teachers' using the school Ford.

The authorities hope to bring this school up to the requirements of a junior high school within another year. This means there must be more laboratory equipment, a larger library, more teachers, and a longer term. They expect to have a resident critic teacher, and to use this school for observation, as well as for practise teaching, on the part of the students of the Normal School.

The response that THE VIRGINIA TEACHER has received from former students and other friends of the school has been exceedingly gratifying. Its ambition is to reach eventually every person who has been in attendance at this institution. It is hoped, therefore, that a full measure of subscriptions may be had at once in order that the complete file may be secured by every subscriber. The magazine can be sent only to those who have signified their wishes to this effect.
