Sixteenth Meeting of the States Parties to the Anti-Personnel Mine Ban Convention
18–21 December 2017, Vienna, Austria
The Sixteenth Meeting of the States Parties (16MSP) is the third formal meeting since the Third Review Conference adopted the Maputo Action Plan 2014–2019, containing 31 actions aimed at ensuring significant and sustainable progress towards the objectives of the Convention.

As such, the 16MSP provides a platform for States Parties to review progress in implementing the Maputo Action Plan, and take stock of their efforts to meet the Convention’s goals to the fullest extent possible by 2025.

7. TEXT OF THE CONVENTION ON THE PROHIBITION OF THE USE, STOCKPILING, PRODUCTION AND TRANSFER OF ANTI-PERSONNEL MINES AND ON THEIR DESTRUCTION 22

WHAT IS THE ANTI-PERSONNEL MINE BAN CONVENTION?

The Anti-Personnel Mine Ban Convention is a short reference to the 1997 Convention on the Prohibition of the Use, Stockpiling, Production and Transfer of Anti-Personnel Mines and on Their Destruction, also known as the Ottawa Convention.

The Convention was born from the human tragedy caused by mines in a number of countries throughout the world. In the early 1990s, non-governmental organisations working in war-torn countries brought the suffering and casualties caused by anti-personnel mines to the world’s attention.

The Convention is the international community’s comprehensive response to the humanitarian problems caused by anti-personnel mines, weapons that are indiscriminate and that last for decades after conflicts have ended.

The Convention was adopted in Oslo on 18 September 1997 and opened for signature in Ottawa on 3 and 4 December 1997 at a ceremony that featured the participation of dozens of world leaders.

For their determination in calling for the Convention, the International Campaign to Ban Landmines and its co-ordinator Jody Williams were awarded the 1997 Nobel Peace Prize.

At their Third Review Conference in 2014, the States Parties adopted at a high political level the Maputo +15 Declaration, committing to intensify efforts to promote universal adherence and observance of the Convention’s norms, destroy stockpiled anti-personnel mines, address mined areas, and assist mine victims expressing their aspiration to meet these goals to the fullest extent possible by 2025. At the same conference, States Parties adopted the Maputo Action Plan 2014–2019 to guide their efforts.
In 2017, the Convention is presided over by H.E. Thomas Hajnoczi, Ambassador of Austria. Austria was part of a core group of States which in the late 1990s was fully committed to a global ban on anti-personnel mines and was instrumental in drafting the text of the Convention.

This year, the Convention’s President has encouraged cooperation and partnerships amongst all States Parties as well as with civil society to achieve tangible results in the implementation of the Convention. Austria has also worked in addressing victim assistance in the wider contexts of disability and human rights and promoted universalization of the Convention.

**WHAT IS THE PURPOSE OF THE CONVENTION?**

The purpose of the Convention is “to put an end to the suffering and casualties caused by anti-personnel mines” through the pursuit of four core aims:

* universal acceptance of a ban on anti-personnel mines;
* destruction of stockpiled anti-personnel mines;
* clearance of mined areas; and,
* assistance to mine victims.

**HOW MANY COUNTRIES HAVE JOINED?**

162 States have ratified or have acceded to the Convention. They include:

- most of the States that at one time used, stockpiled, produced or transferred anti-personnel mines;
- the vast majority of States that are or have been affected by anti-personnel mines;
- every State in the Americas, except Cuba and the United States;
- every State in Sub-Saharan Africa;
- every Member State of the European Union; and,
- the majority of ASEAN Member States.

There are 35 States not party to the Convention, including one signatory State*:

**WHAT HAS BEEN THE IMPACT OF THE CONVENTION?**

*Use of anti-personnel mines has decreased dramatically* – 162 countries have agreed to not use anti-personnel mines by ratifying or acceding to the Convention. Most States not party adhere to the Convention’s norms.

*Production has decreased significantly* – 34 States of 50 that previously manufactured anti-personnel mines are now bound by the Convention’s ban on production. Most States not party have placed moratoria on production and / or transfers of mines.
The number of stockpiled mines has been significantly reduced – destruction of stockpiled mines is one of the Convention’s great success stories – more than 51 million mines have been destroyed by the States Parties; and, 159 States Parties now no longer have stockpile destruction obligations under the Convention.

Millions of square metres of once dangerous land have been released for normal human activity – 30 of 61 States Parties that reported mined areas have completed the task of clearing all such areas. Annual casualty rates have fallen significantly in many countries.

The Convention has served as a catalyst for drawing attention to the plight of landmine survivors – and hence the challenges of all persons with disabilities – in some of the world’s poorest countries. The Convention is the first arms control / disarmament instrument to take the needs of survivors into account. States Parties have agreed that victim assistance should be integrated into broader national policies, plans and legal frameworks, including those related to the rights of persons with disabilities.

WHAT ARE THE CONVENTION’S REMAINING CHALLENGES?

Destroying stockpiled anti-personnel mines (Article 4)

A State Party has four years after entry-into-force of the Convention to destroy all stockpiled anti-personnel mines it owns or possesses, or that are under its jurisdiction or control.

Together three States Parties still have approximately 5.5 million stockpiled anti-personnel mines to destroy.

Belarus completed the destruction of 3.4 million anti-personnel mines, with the last 78 mines being destroyed in April 2017, during a symbolic ceremony in the Gomel region. Meeting its Article 4 obligation was possible thanks to support provided by the European Union.
Retaining anti-personnel mines for permitted purposes (Article 3)

There are 76 States Parties which have reported 164,268 anti-personnel mines retained for the development of and training in mine detection, mine clearance, or mine destruction techniques as permitted by Article 3 of the Convention.

A number of States Parties have not reported on the use or plans for the use of retained anti-personnel mines in accordance with the purposes permitted by Article 3, and/or have retained the same number of anti-personnel mines for a number of years.

Destroying anti-personnel mines in mined areas (Article 5)

A State Party shall make every effort to identify all areas under its jurisdiction or control in which anti-personnel mines are known or suspected to be emplaced. Each State Party has ten years to destroy all anti-personnel mines in mined areas and return these areas to a state for normal human activity. If a State Party is unable to do so in ten years, it may ask for an extension of its mine clearance deadline.

To date, 31 States Parties are still in the process of fulfilling their mine clearance obligations. In addition, Mozambique, which declared completion in 2015, has reported that it has identified previously unknown mined areas and is acting in accordance with the decision of the Twelfth Meeting of the States Parties to address such situations.

*Subject to a decision of the 16MSP.

Colonel Abcène Gherabi, Director of Algeria’s National Demining Programme announces that after decades of work, Algeria has fulfilled its mine clearance obligation.
Assisting the victims (Article 6.3)

Each State Party in a position to do so shall provide assistance for the care and rehabilitation, and social and economic reintegration of mine victims and mine awareness programs.

29 States Parties have indicated having a significant number – hundreds or thousands – of landmine survivors for which they must provide care.

| STATES PARTIES HAVING INDICATED A SIGNIFICANT NUMBER OF LANDMINE SURVIVORS |
|-------------------------------------------------|------------------|-----------------|-------------------|-----------------|-----------------|
| Afghanistan                                     | Cambodia         | El Salvador     | Jordan            | Serbia           | Thailand        |
| Albania                                         | Chad             | Eritrea         | Mozambique        | Somalia          | Uganda          |
| Angola                                          | Colombia         | Ethiopia        | Nicaragua         | South Sudan      | Yemen           |
| Bosnia and Herzegovina                          | Croatia          | Guinea-Bissau   | Peru              | Sudan            | Zimbabwe        |
| Burundi                                         | Democratic Republic of the Congo | Iraq | Senegal | Tajikistan |

Efforts continue towards ensuring that victim assistance is integrated into broader national policies, plans and legal frameworks related to the rights of persons with disabilities, health, education, employment, development and poverty reduction, while ensuring that landmine victims receive the urgent support they require.

National implementation measures (Article 9)

Each State Party shall take all appropriate legal, administrative and other measures, including the imposition of penal sanctions, to prevent and suppress any activity prohibited to a State Party under this Convention undertaken by persons or on territory under its jurisdiction or control.

59 States Parties have not yet reported having either adopted legislation or whether they consider existing laws to be sufficient. Some of these 59 States Parties have reported having drafted specific legislation which is pending adoption, while others have reported that legislation is being considered but have not provided updated information on the status of legislation for a number of years.
WHAT IS THE SIXTEENTH MEETING OF THE STATES PARTIES (16MSP)?

The 16MSP is a formal, diplomatic meeting of the 162 States which have accepted the Convention. They include most of the States that at one time used, stockpiled, produced or transferred anti-personnel mines and the vast majority of States that are or have been affected by anti-personnel mines. Several States that are not party to the Convention are expected to attend as Observers.

The 16MSP is being hosted and presided over by Austria at the United Nations Office at Vienna (UNOV) from 18 to 21 December 2017.

The 16MSP takes place on the year of the 20th anniversary of the adoption and signing of the Convention. The 16MSP is key to assess progress in implementing the Convention’s obligations and to ensure that the purpose of the Convention to put an end to the suffering and casualties caused by anti-personnel mines is fulfilled.

Photo left: participation of civil society has been an integral part of the Convention’s work, particularly that of the International Campaign to Ban Landmines and the International Committee of the Red Cross.

Photo right: three presidencies recently gathered in Santiago, Chile: H.E. Thomas Hajnoczi of Austria (16MSP), H.E. Marta Maurás of Chile (15MSP), HRH Prince Mired of Jordan (8MSP), who is also a Special Envoy of the Convention.
WHAT IS THE PROGRAMME OF THE SIXTEENTH MEETING OF THE STATES PARTIES?

MONDAY 18 DECEMBER, 10:00 – 13:00

1 High-level opening ceremony
A special ceremony featuring Ministers of Foreign Affairs, representative of the International Committee of the Red Cross, the UN Secretary General, the 1997 Nobel Peace Prize Co-Laureate, the Convention’s Special Envoy, and the GICHD amongst others, will commemorate the 20th anniversary of the adoption and signing of the Convention.

2 Official opening of the meeting
The President of the Sixteenth Meeting of the States Parties, H.E. Thomas Hajnoczi, Ambassador of Austria opens the meeting.

3 Adoption of the agenda
The meeting will be asked to adopt its agenda presented to delegations on 9 June at the intersessional meetings.

4 Election of the Vice-Presidents of the meeting and of other officers
The meeting will be asked to elect the eight outgoing members of the Committees as Vice-Presidents of the 16MSP: Belgium, Colombia, Costa Rica, the Netherlands, Peru, Sweden, Uganda and Zambia.

5 Confirmation of the Secretary-General of the meeting
The meeting will be asked to confirm H.E. Wolfgang Angerholzer, Ambassador of Austria, as Secretary-General of the 16MSP.

6 Organisation of work
The meeting will be asked to adopt its programme as contained in the document presented to delegations on 9 June at the intersessional meetings.

7 General exchange of views
Delegations will be given the opportunity to deliver brief general statements. Interested delegations should contact the Implementation Support Unit to be inscribed in the speakers list. For those delegations that do not wish to deliver oral statements, written statements can be submitted and will be made available on the Convention’s website.

1 Given the volume of work that must be dealt with at the Sixteenth Meeting, States Parties and observers are encouraged to refrain from making general statements but rather provide updates on implementation on thematic matters indicated in agenda item 11. In addition, if they wish, delegations can distribute written statements rather than deliver oral statements.
MONDAY 18 DECEMBER, 15:00 – 16:00

8 Panel: “20 Years of Success: Fulfilling the Promise of the Convention by 2025”
Moderated by the President of the 16MSP, the panel aims at drawing lessons from the past, taking stock of 20 years of accomplishments, looking back at the government-civil society partnership that has made the Convention a success, identifying key challenges and possible strategies to tackle them and fulfil the aspiration of a mine-free world by 2025.

Since its adoption, the Anti-Personnel Mine Ban Convention has become a global success story, a trail-blazer for humanitarian disarmament. Its achievements have positively impacted thousands of lives around the globe, with 162 States Parties to the Convention representing more than 80% of the world’s countries, more than 51 million stockpiled landmines having been destroyed and large areas of previously contaminated land having been addressed and returned to the population for safe and productive use.

MONDAY 18 DECEMBER, 16:00 – 18:00

9 Informal presentation of requests submitted under Article 5 and of the analysis of these requests
The meeting will consider requests for extensions on mine clearance deadlines that have been or are due to be submitted by Angola, Ecuador, Iraq, Thailand, Ukraine and Zimbabwe. In keeping with past practice, there will be an opportunity for informal presentations of and discussions on extension requests with the States Parties returning to formal consideration of these requests later in the week.

MONDAY 18 DECEMBER, 19:00

Opening reception hosted by the 16MSP President
Buses will transport participants from the Vienna International Centre to the Hofburg Zeremoniensaal. Conference badges are required to enter the reception venue.

TUESDAY 19 DECEMBER, 10:00 – 11:00

10 Panel, “Keeping People at the Heart of the Convention: Effective Victim Assistance”
The panel will be opened by HRH Princess Astrid of Belgium, Special Envoy of the Convention, and moderated by H.E. Beatriz Londoño Soto Ambassador of Colombia to the UN in Geneva, and Chair of the Committee on Victim Assistance. The panel will look back at early victim assistance efforts, progress made and challenges that remain.

20 years ago, “putting an end to the suffering and casualties caused by anti-personnel mines that kill or maim hundreds of people, mostly innocent civilians and especially children, obstruct economic development and reconstruction, inhibit the repatriation of refugees and internally displaced persons, and have other severe

HRH Princess Astrid of Belgium, a long-time advocate of landmine survivors’ rights, and Special Envoy of the Convention, has been part of the landmine movement for nearly two decades.
consequences for years after emplacement”, was a key driving force to negotiate and adopt the Convention. The logic conclusion was a conceptual novelty and major breakthrough for humanitarian disarmament: the first recognition of the rights of victims in a multilateral disarmament instrument. In 20 years much expertise has been developed to effectively implement victim assistance, an obligation that will continue to require substantial sustained commitment by States Parties in the long term.

TUESDAY 19 DECEMBER, 11:00 – 13:00

11 Consideration of the general status and operation of the Convention

a) Assisting the victims: Conclusions and recommendations related to the mandate of the Committee on Victim Assistance

The Committee on Victim Assistance will present its conclusions and recommendations.

States Parties having reported significant numbers of mine victims2 are invited to provide brief updates on their efforts to fulfil their obligations, and the steps undertaken to implement the victim assistance actions (Actions #12 through #18) of the Maputo Action Plan. In addition, these States Parties are welcome to comment on the conclusions of the Committee on Victim Assistance. Other delegations are welcome to remark on these updates and to share their views on victim assistance.

TUESDAY 19 DECEMBER, 15:00 – 18:00

11 Consideration of the general status and operation of the Convention

b) Clearing mined areas: Conclusions and recommendations related to the mandate of the Committee on Article 5 Implementation

The Committee on Article 5 Implementation will present its conclusions and recommendations.

States Parties which have recently completed3 or are still in the process of clearing mined areas4 are invited to provide brief updates on their efforts to fulfil their obligations and on steps they have taken to implement the mine clearance actions of the Maputo Action Plan (Actions #8 through #11). In addition, these States

---

2: The following 29 States Parties have reported significant numbers of landmine survivors: Afghanistan, Albania, Angola, Bosnia and Herzegovina, Burundi, Cambodia, Chad, Colombia, Croatia, Democratic Republic of the Congo, El Salvador, Eritrea, Ethiopia, Guinea-Bissau, Iraq, Jordan, Mozambique, Nicaragua, Peru, Senegal, Serbia, Somalia, South Sudan, Sudan, Tajikistan, Thailand, Uganda, Yemen and Zimbabwe.

3: Algeria.

4: 31 States Parties are still in the process of clearing mined areas in accordance with Article 5: Afghanistan, Angola, Argentina, Bosnia and Herzegovina, Cambodia, Chad, Chile, Colombia, Croatia, Cyprus, Democratic Republic of the Congo, Ecuador, Eritrea, Ethiopia, Iraq, Mauritania, Niger, Oman, Peru, Senegal, Serbia, Somalia, South Sudan, Sudan, Tajikistan, Thailand, Turkey, Ukraine, United Kingdom, Yemen and Zimbabwe.
Parties are welcome to comment on the conclusions of the Committee on Article 5 Implementation. Other delegations are welcome to remark on these updates and to share their views on Article 5.

WEDNESDAY 20 DECEMBER, 10:00 – 13:00

11 Consideration of the general status and operation of the Convention

c) Cooperation and Assistance: Conclusions and recommendations related to the mandate of the Committee on the Enhancement of Cooperation and Assistance

The Committee on the Enhancement of Cooperation and Assistance will present its conclusions and recommendations.

In particular, the Committee will present its efforts to strengthen cooperation and assistance and implementation of the relevant actions of the Maputo Action Plan (Actions #19 to #24) through the individualised approach, cooperation with other Committees to map needs and challenges faced by States Parties and efforts to improve the functioning of the Platform for Partnerships. Delegations will be given the opportunity to provide updates and share their views on cooperation and assistance and on the conclusions of the Committee on the Enhancement of Cooperation and Assistance.

d) Preventing and suppressing prohibited activities and facilitating compliance: Conclusions and recommendations related to the mandate of the Committee on Cooperative Compliance

The Committee on Cooperative Compliance will present its conclusions and recommendations.

States Parties which have been mentioned in the conclusions of the Committee on Cooperative Compliance are invited to provide an update on ongoing investigations or activities undertaken to ensure compliance in accordance with Article 9 of the Convention and Action #29 of the Maputo Action Plan. In addition, these States Parties are welcome to comment on the conclusions of the Committee. Other delegations are welcome to remark on these updates and to share their views on compliance issues.
WEDNESDAY 20 DECEMBER, 15:00 – 18:00

11 Consideration of the general status and operation of the Convention

e) Destroying stockpiled anti-personnel mines
   The President will present its conclusions and recommendations on stockpile
destruction.

States Parties responsible for destroying stockpiled anti-personnel mines\(^5\) as well
States Parties that have discovered previously unknown stockpiles are invited to
provide brief updates on their efforts to fulfill their obligations. These updates should
contain only new information with efforts made to avoid duplication with respect
to updates provided in June at the intersessional meetings. Other delegations will
be given the opportunity to remark on these updates and to share their views on
stockpile destruction.

f) Universalizing the Convention
   The President will give an overview of the status of universalization.

States not party to the Convention are invited to share views on the Convention and
to provide updates on steps that are being taken or considered to accede to the
Convention. Other delegations will be given the opportunity to provide updates on
their efforts to encourage universal acceptance of the Convention and to share their
views on universalization.

g) Transparency and the exchange of information
   The President will give an overview of the status of transparency.

Delegations are welcome to provide updates and share views on transparency and
the exchange of information, including transparency as concerns mines retained for
permitted purposes. Delegations may also want to remark on the use of the Guide
to Reporting adopted at the Fourteenth Meeting of the States Parties (14MSP).

THURSDAY 21 DECEMBER, 10:00 – 13:00

11 Consideration of the general status and operation of the Convention

h) Implementation Support

i. Report on the activities, functioning and finances of the ISU and presentation of a
   work plan and a budget for the 2018 activities of the ISU
   Further to the “Directive from the States Parties to the ISU” adopted by the 10MSP
   and further to decisions of the 14MSP on strengthening financial governance and
   transparency, the ISU is to propose and present every year to the Coordinating
   Committee for endorsement and subsequently to the Meeting of the States Parties
   for approval, a detailed yearly budget and work plan for the ensuing year within
   the range and limits of the applicable multi-year work plan, both in terms of
   expenditures related to core support and expenditures related to enhanced support
   contained therein.
The Director of the ISU will present the work plan and budget of the ISU for 2018. The meeting will be asked to approve work plan and budget of the ISU for 2018.

The Director of the ISU will report on 2017 ISU activities, functioning and finances, present the 2016 ISU audit report, and 2017 ISU preliminary financial report. The meeting will be asked to approve the 2017 report on activities and finances, and 2016 audited financial statement.

Delegations will be given the opportunity to provide comments and/or share their views on the 2018 ISU work plan and budget, 2016 audit report, and 2017 preliminary financial report.

ii. Mid-term review of the ISU four-year work plan 2016–2019
When the ISU four-year work plan 2016–2019 was adopted at the 14MSP, the States Parties agreed to hold a mid-term review of this work plan during their 16MSP. To this end, the 16MSP President circulated a review of the ISU four-year work plan to the Coordinating Committee for endorsement before the official presentation to the 16MSP.

Delegations will be given the opportunity to provide comments and/or share views on the mid-term review.

iii. Cooperation of the ISU with other relevant instruments
In 2015, the 14MSP requested the Presidency to conduct informal administrative consultations with the Presidents of other relevant instruments and with the Heads of other relevant ISU’s. The Presidency was requested to report on opportunities for cost-savings through cooperation as soon as practical but not later than at the Sixteenth Meeting of the States Parties. The President will report on the outcome of these consultations.

iv. Other matters concerning implementation support
The meeting will be asked to agree that the 2018 intersessional meetings take place on 7–8 June 2018.

In keeping with its mandate, the 16MSP President undertook the task in 2017 of consulting with States Parties to identify a list of nominees to serve as new Committee members following the 16MSP. On 11 May 2017, the President wrote to all States Parties to indicate that the Presidency was seeking two new States Parties for each of the four Committees for two-year terms. On the basis of interest expressed, the President developed a proposal listing those States Parties that would serve as new Committee members from the end of the 16MSP for a two-year term.

6: The ISU is tasked to report in written form as well as orally on the activities, functioning and finances of the ISU to each Meeting of the States Parties and to submit an audited annual financial report for the previous year and a preliminary financial report for the present year to the Coordinating Committee and subsequently to the Meeting of the States Parties for approval.

Representatives of the Algerian government, civil society, ISU and ICBL participate in a ceremony marking the destruction of the last stockpiled anti-personnel mines in Algeria.

#### 15:00 – 18:00

- Financial status of assessed contributions to the Meetings of the States Parties
- Consideration of requests submitted under Article 5
- Consideration of matters arising from/in the context of reports submitted under Article 7
- Consideration of requests submitted under Article 8
- Date, duration, location and Presidency of the Seventeenth Meeting of the States Parties, and matters pertaining to the preparations for the Seventeenth Meeting
- Any other business
- Consideration and adoption of the final document
- Closure of the Sixteenth Meeting of the States Parties
If this proposal is agreed to by the 16MSP, the following eight States Parties would start their new two-year membership term at the end of the 16MSP:

- Committee on Victim Assistance: Belgium and Mozambique
- Committee on Article 5 Implementation: Colombia and the Netherlands
- Committee on the Enhancement of Cooperation and Assistance: Sweden and Thailand
- Committee on Cooperative Compliance: Poland and Zambia

**12 Financial status of assessed contributions to the Meetings of the States Parties**

The status of assessed contributions to the Meetings of the States Parties will be presented and delegations will be given the opportunity to provide comments and views on the assessed contributions.

**THURSDAY 21 DECEMBER, 15:00 – 18:00**

**13 Consideration of requests submitted under Article 5**

The meeting will take decisions on the request for extended mine clearance deadlines which have been or may be submitted by Angola, Ecuador, Iraq, Thailand, Ukraine and Zimbabwe.

**14 Consideration of matters arising from/in the context of reports submitted under Article 7**

**15 Consideration of requests submitted under Article 8**

**16 Date, duration, location and Presidency of the Seventeenth Meeting of the States Parties, and matters pertaining to the preparations for the Seventeenth Meeting**

The meeting will be asked to agree that the Seventeenth Meeting of the States Parties (17MSP) takes place on 26-30 November 2018 in Geneva and that H.E. Suraya Dalil Ambassador of Afghanistan to Switzerland and the United Nations in Geneva, be elected to preside over the 17MSP.

**17 Any other business**

Delegations are welcome to take the floor on matters that have not been covered otherwise by the meeting.

**18 Consideration and adoption of the final document**

The meeting will be asked to consider and adopt its final report.

**19 Closure of the Sixteenth Meeting of the States Parties**

The meeting will be closed by the 16MSP President.
**MONDAY 18 DEC 13:00 – 15:00**

**Landmine Monitor: 2017 Briefing**  
HOST: International Campaign to Ban Landmines  
Civil society experts will discuss recent developments in landmine ban policy, survey and the clearance of landmines and other explosive remnants of war, casualties, and efforts to guarantee rights and meet the needs of landmine victims  
ROOM: M4  
CONTACT: elea@icblcmc.org

**The Impact of International Cooperation in Iraq’s implementation of the Anti-Personnel Landmine Convention**  
HOST: Mission of the Republic of Iraq-Geneva  
This event will review the economic, social and environmental impact of land mines on Iraqi society. It will share the current challenges that confront the mine action programme in Iraq and highlight the impact of International Cooperation and technical assistance in Iraq’s implementation of the Anti-Personnel Landmine Convention.

6  IMPORTANT DATES | 2018

1 MARCH  Nineteenth anniversary of the entry into force of the Convention.

DATE TO BE CONFIRMED  Third International Pledging Conference for the Implementation of the Anti-Personnel Mine Ban Convention, Geneva.

31 MARCH  Deadline for States Parties with Article 5 deadlines in 2019 – Bosnia and Herzegovina, Chad, Croatia, Cyprus, Serbia, Sudan and the United Kingdom – to submit requests for extensions, if necessary.

30 APRIL  Deadlines for States Parties to submit Article 7 transparency reports covering calendar year 2017.

7–8 JUNE 2018 intersessional meetings, Geneva.7

18 SEPTEMBER  Twenty-first anniversary of the adoption of the Convention.

26–30 NOVEMBER  Seventeenth Meeting of the States Parties, Geneva.8

3 DECEMBER  International Day of Persons with Disabilities.

3–4 DECEMBER  Twenty-first anniversary of the signing of the Convention.

7: Subject to approval of the 16MSP.
8: Ibid.
CONVENTION ON THE PROHIBITION OF THE USE, STOCKPILING, PRODUCTION AND TRANSFER OF ANTI-PERSONNEL MINES AND ON THEIR DESTRUCTION
THE STATES PARTIES,

Determined to put an end to the suffering and casualties caused by anti-personnel mines, that kill or maim hundreds of people every week, mostly innocent and defenceless civilians and especially children, obstruct economic development and reconstruction, inhibit the repatriation of refugees and internally displaced persons, and have other severe consequences for years after emplacement,

Believing it necessary to do their utmost to contribute in an efficient and coordinated manner to face the challenge of removing anti-personnel mines placed throughout the world, and to assure their destruction,

Wishing to do their utmost in providing assistance for the care and rehabilitation, including the social and economic reintegration of mine victims,

Recognizing that a total ban of anti-personnel mines would also be an important confidence-building measure,

Welcoming the adoption of the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices, as amended on 3 May 1996, annexed to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects, and calling for the early ratification of this Protocol by all States which have not yet done so,

Welcoming also United Nations General Assembly Resolution 51/45 S of 10 December 1996 urging all States to pursue vigorously an effective, legally-binding international agreement to ban the use, stockpiling, production and transfer of anti-personnel landmines,

Welcoming furthermore the measures taken over the past years, both unilaterally and multilaterally, aiming at prohibiting, restricting or suspending the use, stockpiling, production and transfer of anti-personnel mines,

Stressing the role of public conscience in furthering the principles of humanity as evidenced by the call for a total ban of anti-personnel mines and recognizing the efforts to that end undertaken by the International Red Cross and Red Crescent Movement, the International Campaign to Ban Landmines and numerous other nongovernmental organisations around the world,

Recalling the Ottawa Declaration of 5 October 1996 and the Brussels Declaration of 27 June 1997 urging the international community to negotiate an international and legally binding agreement prohibiting the use, stockpiling, production and transfer of anti-personnel mines,

Emphasizing the desirability of attracting the adherence of all States to this Convention, and determined to work strenuously towards the promotion of its universalization in all relevant fora including, inter alia, the United Nations, the Conference on Disarmament, regional organisations, and groupings, and review conferences of the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects,

Basing themselves on the principle of international humanitarian law that the right of the parties to an armed conflict to choose methods or means of warfare is not unlimited, on the principle that prohibits the employment in armed conflicts of weapons, projectiles and materials and methods of warfare of a nature to cause superfluous injury or unnecessary suffering and on the principle that a distinction must be made between civilians and combatants,
HAVE AGREED AS FOLLOWS:

ARTICLE 1
General obligations
1. Each State Party undertakes never under any circumstances:
   a) To use anti-personnel mines;
   b) To develop, produce, otherwise acquire, stockpile, retain or transfer to anyone, directly or indirectly, anti-personnel mines;
   c) To assist, encourage or induce, in any way, anyone to engage in any activity prohibited to a State Party under this Convention.
2. Each State Party undertakes to destroy or ensure the destruction of all anti-personnel mines in accordance with the provisions of this Convention.

ARTICLE 2
Definitions
1. “Anti-personnel mine” means a mine designed to be exploded by the presence, proximity or contact of a person and that will incapacitate, injure or kill one or more persons. Mines designed to be detonated by the presence, proximity or contact of a vehicle as opposed to a person, that are equipped with anti-handling devices, are not considered anti-personnel mines as a result of being so equipped.
2. “Mine” means a munition designed to be placed under, on or near the ground or other surface area and to be exploded by the presence, proximity or contact of a person or a vehicle.
3. “Anti-handling device” means a device intended to protect a mine and which is part of, linked to, attached to or placed under the mine and which activates when an attempt is made to tamper with or otherwise intentionally disturb the mine.
4. “Transfer” involves, in addition to the physical movement of anti-personnel mines into or from national territory, the transfer of title to and control over the mines, but does not involve the transfer of territory containing emplaced anti-personnel mines.
5. “Mined area” means an area which is dangerous due to the presence or suspected presence of mines.

ARTICLE 3
Exceptions
1. Notwithstanding the general obligations under Article 1, the retention or transfer of a number of anti-personnel mines for the development of and training in mine detection, mine clearance, or mine destruction techniques is permitted. The amount of such mines shall not exceed the minimum number absolutely necessary for the above-mentioned purposes.
2. The transfer of anti-personnel mines for the purpose of destruction is permitted.

ARTICLE 4
Destruction of stockpiled anti-personnel mines
Except as provided for in Article 3, each State Party undertakes to destroy or ensure the destruction of all stockpiled anti-personnel mines it owns or possesses, or that are under its jurisdiction or control, as soon as possible but not later than four years after the entry into force of this Convention for that State Party.

ARTICLE 5
Destruction of anti-personnel mines in mined areas
1. Each State Party undertakes to destroy or ensure the destruction of all anti-personnel mines in mined areas under its jurisdiction or control, as soon as possible but not later than ten years after the entry into force of this Convention for that State Party.
2. Each State Party shall make every effort to identify all areas under its jurisdiction or control in which anti-personnel mines are known or suspected to be emplaced and shall ensure as soon as possible that all anti-personnel mines in mined areas under its jurisdiction or control are perimeter-marked, monitored and protected by fencing or other means, to ensure the effective exclusion of civilians, until all anti-personnel mines contained therein have been destroyed. The marking shall at least be to the standards set out in the Protocol on Prohibitions or Restrictions on the Use of Mines, Booby-Traps and Other Devices, as amended on 3 May 1996, annexed to the Convention on Prohibitions or Restrictions on the Use of Certain Conventional Weapons Which May Be Deemed to Be Excessively Injurious or to Have Indiscriminate Effects.
3. If a State Party believes that it will be unable to destroy or ensure the destruction of all anti-personnel mines referred to in paragraph 1 within that time period, it may submit a request to a Meeting of the States Parties or a Review Conference for an extension of the deadline for completing the destruction of such anti-personnel mines, for a period of up to ten years.
4. Each request shall contain:
   a) The duration of the proposed extension;
   b) A detailed explanation of the reasons for the proposed extension, including:
      i) The preparation and status of work conducted under national demining programs;
      ii) The financial and technical means available to the State Party for the destruction of all the anti-personnel mines; and
      iii) Circumstances which impede the ability of the State Party to destroy all the anti-personnel mines in mined areas;
   c) The humanitarian, social, economic, and environmental implications of the extension; and
   d) Any other information relevant to the request for the proposed extension.
5. The Meeting of the States Parties or the Review Conference shall, taking into consideration the factors contained in paragraph 4, assess the request and decide by a majority of votes of States Parties present and voting whether to grant the request for an extension period.
6. Such an extension may be renewed upon the submission of a new request in accordance with paragraphs 3, 4 and 5 of this Article. In requesting a further extension period a State Party shall submit relevant additional information on what has been undertaken in the previous extension period pursuant to this Article.

ARTICLE 6
International cooperation and assistance
1. In fulfilling its obligations under this Convention each State Party has the right to seek and receive assistance, where feasible, from other States Parties to the extent possible.
2. Each State Party undertakes to facilitate and shall have the right to participate in the fullest possible exchange of equipment, material and scientific and technological information concerning the implementation of this Convention. The States Parties shall not impose undue restrictions on the provision of mine clearance equipment and related technological information for humanitarian purposes.
3. Each State Party in a position to do so shall provide assistance for the care and rehabilitation, and social and economic reintegration, of mine victims and for mine awareness programs. Such assistance may be provided, inter alia, through the United Nations system, international, regional or national organisations or institutions, the International Committee of the Red Cross, national Red Cross and Red Crescent societies and their International Federation, non-governmental organisations, or on a bilateral basis.
4. Each State Party in a position to do so shall provide assistance for mine clearance and related activities. Such assistance may be provided, inter alia, through the United Nations system, international or regional organisations or institutions, non-governmental organisations or institutions, or on a bilateral basis, or by contributing to the United Nations Voluntary Trust Fund for Assistance in Mine Clearance, or other regional funds that deal with demining.
5. Each State Party in a position to do so shall provide assistance for the destruction of stockpiled antipersonnel mines.
6. Each State Party undertakes to provide information to the database on mine clearance established within the United Nations system, especially information concerning various means and technologies of mine clearance, and lists of ex-
7. States Parties may request the United Nations, regional organisations, other States Parties or other competent inter-governmental or non-governmental fora to assist the authorities in the elaboration of a national demining program to determine, inter alia:
   a) The extent and scope of the anti-personnel mine problem;
   b) The financial, technological and human resources that are required for the implementation of the program;
   c) The estimated number of years necessary to destroy all anti-personnel mines in mined areas under the jurisdiction or control of the concerned State Party;
   d) Mine awareness activities to reduce the incidence of mine-related injuries or deaths;
   e) Assistance to mine victims;
   f) The relationship between the Government of the concerned State Party and the relevant governmental, inter-governmental or non-governmental entities that will work in the implementation of the program.

8. Each State Party giving and receiving assistance under the provisions of this Article shall cooperate with a view to ensuring the full and prompt implementation of agreed assistance programs.

ARTICLE 7

Transparency measures

1. Each State Party shall report to the Secretary-General of the United Nations as soon as practicable, and in any event not later than 180 days after the entry into force of this Convention for that State Party on:
   a) The national implementation measures referred to in Article 9;
   b) The total of all stockpiled anti-personnel mines owned or possessed by it, or under its jurisdiction or control, to include a breakdown of the type, quantity and, if possible, lot numbers of each type of anti-personnel mine stockpiled;
   c) To the extent possible, the location of all mined areas that contain, or are suspected to contain, antipersonnel mines under its jurisdiction or control, to include as much detail as possible regarding the type and quantity of each type of antipersonnel mine in each mined area and when they were emplaced;
   d) The types, quantities and, if possible, lot numbers of all anti-personnel mines retained or transferred for the development of and training in mine detection, mine clearance or mine destruction techniques, or transferred for the purpose of destruction, as well as the institutions authorized by a State Party to retain or transfer anti-personnel mines, in accordance with Article 3;
   e) The status of programs for the conversion or de-commissioning of anti-personnel mine production facilities;
   f) The status of programs for the destruction of anti-personnel mines in accordance with Articles 4 and 5, including details of the methods which will be used in destruction, the location of all destruction sites and the applicable safety and environmental standards to be observed;
   g) The types and quantities of all anti-personnel mines destroyed after the entry into force of this Convention for that State Party, to include a breakdown of the quantity of each type of anti-personnel mine destroyed, in accordance with Articles 4 and 5, respectively, along with, if possible, the lot numbers of each type of antipersonnel mine in the case of destruction in accordance with Article 4;
   h) The technical characteristics of each type of anti-personnel mine produced, to the extent known, and those currently owned or possessed by a State Party, giving, where reasonably possible, such categories of information as may facilitate identification and clearance of anti-personnel mines; at a minimum, this information shall include the dimensions, fusing, explosive content, metallic content, colour photographs and other information which may facilitate mine clearance; and
   i) The measures taken to provide an immediate and effective warning to the population in relation to all areas identified under paragraph 2 of Article 5.

2. The information provided in accordance with this Article shall be updated by the States Parties annually, covering the last calendar year, and reported to the Secretary-General of the United Nations not later than 30 April of each year.

3. The Secretary-General of the United Nations shall transmit all such reports received to the States Parties.

ARTICLE 8

Facilitation and clarification of compliance

1. The States Parties agree to consult and cooperate with each other regarding the implementation of the provisions of this Convention, and to work together in a spirit of cooperation to facilitate compliance by States Parties with their obligations under this Convention.

2. If one or more States Parties wish to clarify and seek to resolve questions relating to compliance with the provisions of this Convention by another State Party, it may submit, through the Secretary-General of the United Nations, a Request for Clarification of that matter to that State Party. Such a request shall be accompanied by all appropriate information. Each State Party shall refrain from unfounded Requests for Clarification, care being taken to avoid abuse. A State Party that receives a Request for Clarification shall provide, through the Secretary-General of the United Nations, within 28 days to the requesting State Party all information which would assist in clarifying this matter.

3. If the requesting State Party does not receive a response through the Secretary-General of the United Nations within that time period, or deems the response to the Request for Clarification to be unsatisfactory, it may submit the matter through the Secretary-General of the United Nations to the next Meeting of the States Parties. The Secretary-General of the United Nations shall transmit the submission, accompanied by all appropriate information pertaining to the Request for Clarification, to all States Parties. All such information shall be presented to the requested State Party which shall have the right to respond.

4. Pending the convening of any meeting of the States Parties, any of the States Parties concerned may request the Secretary-General of the United Nations to exercise his or her good offices to facilitate the clarification requested.

5. The requesting State Party may propose through the Secretary-General of the United Nations the convening of a Special Meeting of the States Parties to consider the matter. The Secretary-General of the United Nations shall thereupon communicate this proposal and all information submitted by the States Parties concerned, to all States Parties with a request that they indicate whether they favour a Special Meeting of the States Parties, for the purpose of considering the matter. In the event that within 14 days from the date of such communication, at least one-third of the States Parties favours such a Special Meeting, the Secretary-General of the United Nations shall convene this Special Meeting of the States Parties within a further 14 days. A quorum for this Meeting shall consist of a majority of States Parties.

6. The Meeting of the States Parties or the Special Meeting of the States Parties, as the case may be, shall first determine whether to consider the matter further, taking into account all information submitted by the States Parties concerned. The Meeting of the States Parties or the Special Meeting of the States Parties shall make every effort to reach a decision by consensus. If despite all efforts to that end no agreement has been reached, it shall take this decision by a majority of States Parties present and voting.

7. All States Parties shall cooperate fully with the Meeting of the States Parties or the Special Meeting of the States Parties in the fulfilment of its review of the matter, including any fact-finding missions that are authorized in accordance with paragraph 8.

8. If further clarification is required, the Meeting of the States Parties or the Special Meeting of the States Parties shall authorize a fact-finding mission and decide on its mandate by a majority of States Parties present and voting. At any time the requested State Party may invite
a fact-finding mission to its territory. Such a mission shall take place without a decision by a Meeting of the States Parties or a Special Meeting of the States Parties to authorize such a mission. The mission, consisting of up to 9 experts, designated and approved in accordance with paragraphs 9 and 10, may collect additional information on the spot or in other places directly related to the alleged compliance issue under the jurisdiction or control of the requested State Party.  

9. The Secretary-General of the United Nations shall prepare and update a list of the names, nationalities and other relevant data of qualified experts provided by States Parties and communicate it to all States Parties. Any expert included on this list shall be regarded as designated for all fact-finding missions unless a State Party declares its non-acceptance in writing. In the event of non-acceptance, the expert shall not participate in fact-finding missions on the territory or any other place under the jurisdiction or control of the objecting State Party, if the non-acceptance was declared prior to the appointment of the expert to such missions.  

10. Upon receiving a request from the Meeting of the States Parties or a Special Meeting of the States Parties, the Secretary-General of the United Nations shall, after consultations with the requested State Party, appoint the members of the mission, including its leader. Nationals of States Parties requesting the fact-finding mission or directly affected by it shall be given the opportunity to participate in the fact-finding mission.  

11. Upon at least 72 hours notice, the members of the fact-finding mission shall arrive in the territory of the requested State Party at the earliest opportunity. The requested State Party shall take the necessary administrative measures to receive, transport and accommodate the mission, and shall be responsible for ensuring the security of the mission to the maximum extent possible while they are on territory under its control.  

12. Without prejudice to the sovereignty of the requested State Party, the fact-finding mission may bring into the territory of the requested State Party the necessary equipment which shall be used exclusively for gathering information on the alleged compliance issue. Prior to its arrival, the mission will advise the requested State Party of the equipment that it intends to utilize in the course of its fact-finding mission.  

13. The requested State Party shall make all efforts to ensure that the fact-finding mission is given the opportunity to speak with all relevant persons who may be able to provide information related to the alleged compliance issue.  

14. The requested State Party shall grant access for the fact-finding mission to all areas and installations under its control where facts relevant to the compliance issue could be expected to be collected. This shall be subject to any arrangements that the requested State Party considers necessary for:  

a) The protection of sensitive equipment, information and areas;  

b) The protection of any constitutional obligations the requested State Party may have with regard to proprietary rights, searches and seizures, or other constitutional rights; or  

c) The physical protection and safety of the members of the fact-finding mission. In the event that the requested State Party makes such arrangements, it shall make every reasonable effort to demonstrate through alternative means its compliance with this Convention.  

15. The fact-finding mission may remain in the territory of the State Party concerned for no more than 14 days, and at any particular site no more than 7 days, unless otherwise agreed.  

16. All information provided in confidence and not related to the subject matter of the fact-finding mission shall be treated on a confidential basis.  

17. The fact-finding mission shall report, through the Secretary-General of the United Nations, to the Meeting of the States Parties or the Special Meeting of the States Parties the results of its findings.  

18. The Meeting of the States Parties or the Special Meeting of the States Parties shall consider all relevant information, including the report submitted by the fact-finding mission, and may request the requested State Party to take measures to address the compliance issue within a specified period of time. The requested State Party shall report on all measures taken in response to this request.  

19. The Meeting of the States Parties or the Special Meeting of the States Parties may suggest to the States Parties concerned ways and means to further clarify or resolve the matter under consideration, including the initiation of appropriate procedures in conformity with international law. In circumstances where the issue at hand is determined to be due to circumstances beyond the control of the requested State Party, the Meeting of the States Parties or the Special Meeting of the States Parties may recommend appropriate measures, including the use of cooperative measures referred to in Article 6.  

20. The Meeting of the States Parties or the Special Meeting of the States Parties shall make every effort to reach its decisions referred to in paragraphs 18 and 19 by consensus, otherwise by a two-thirds majority of States Parties present and voting.

**ARTICLE 9**  
National implementation measures  
Each State Party shall take all appropriate legal, administrative and other measures, including the imposition of penal sanctions, to prevent and suppress any activity prohibited to a State Party under this Convention undertaken by persons or on territory under its jurisdiction or control.  

**ARTICLE 10**  
Settlement of disputes  
1. The States Parties shall consult and cooperate with each other to settle any dispute that may arise with regard to the application or the interpretation of this Convention. Each State Party may bring any such dispute before the Meeting of the States Parties.  

2. The Meeting of the States Parties may contribute to the settlement of the dispute by whatever means it deems appropriate, including offering its good offices, calling upon the States parties to a dispute to start the settlement procedure of their choice and recommending a time-limit for any agreed procedure.  

3. This Article is without prejudice to the provisions of this Convention on facilitation and clarification of compliance.

**ARTICLE 11**  
Meetings of the States Parties  
1. The States Parties shall meet regularly in order to consider any matter with regard to the application or implementation of this Convention, including:  

a) The operation and status of this Convention;  

b) Matters arising from the reports submitted under the provisions of this Convention;  

c) International cooperation and assistance in accordance with Article 6;  

d) The development of technologies to clear anti-personnel mines;  

e) Submissions of States Parties under Article 8; and  

f) Decisions relating to submissions of States Parties as provided for in Article 5.  

2. The First Meeting of the States Parties shall be convened by the Secretary-General of the United Nations within one year after the entry into force of this Convention. The subsequent meetings shall be convened by the Secretary-General of the United Nations annually until the first Review Conference.  

3. Under the conditions set out in Article 8, the Secretary-General of the United Nations shall convene a Special Meeting of the States Parties.  

4. States not parties to this Convention, as well as the United Nations, other relevant international organisations and institutions, regional organisations, the International Committee of the Red Cross and relevant non-governmental organisations may be invited to attend these meetings as observers in accordance with the agreed Rules of Procedure.
ARTICLE 12
Review Conferences
1. A Review Conference shall be convened by the Secretary-General of the United Nations five years after the entry into force of this Convention. Further Review Conferences shall be convened by the Secretary-General of the United Nations if so requested by one or more States Parties, provided that the interval between Review Conferences shall in no case be less than five years. All States Parties to this Convention shall be invited to each Review Conference.
2. The purpose of the Review Conference shall be:
   a) To consider the operation and status of this Convention;
   b) To consider the need for and the interval between further Meetings of the States Parties referred to in paragraph 2 of Article 11;
   c) To take decisions on submissions of States Parties as provided for in Article 5; and
   d) To adopt, if necessary, in its final report conclusions related to the implementation of this Convention.
3. States not parties to this Convention, as well as the United Nations, other relevant international organisations or institutions, regional organisations, the International Committee of the Red Cross and relevant non-governmental organisations may be invited to attend each Review Conference as observers in accordance with the agreed Rules of Procedure.

ARTICLE 13
Amendments
1. At any time after the entry into force of this Convention any State Party may propose amendments to this Convention. Any proposal for an amendment shall be communicated to the Depositary, who shall circulate it to all States Parties and shall seek their views on whether an Amendment Conference should be convened to consider the proposal. If a majority of the States Parties notify the Depositary no later than 30 days after its circulation that they support further consideration of the proposal, the Depositary shall convene an Amendment Conference to which all States Parties shall be invited.
2. States not parties to this Convention, as well as the United Nations, other relevant international organisations or institutions, regional organisations, the International Committee of the Red Cross and relevant non-governmental organisations may be invited to attend each Amendment Conference as observers in accordance with the agreed Rules of Procedure.
3. The Amendment Conference shall be held immediately following a Meeting of the States Parties or a Review Conference unless a majority of the States Parties request that it be held earlier.
4. Any amendment to this Convention shall be adopted by a majority of two-thirds of the States Parties present and voting at the Amendment Conference. The Depositary shall communicate any amendment so adopted to the States Parties.
5. An amendment to this Convention shall enter into force for all States Parties to this Convention which have accepted it, upon the deposit with the Depositary of instruments of acceptance by a majority of States Parties. Thereafter it shall enter into force for any remaining State Party on the date of deposit of its instrument of acceptance.

ARTICLE 14
Costs
1. The costs of the Meetings of the States Parties, the Special Meetings of the States Parties, the Review Conferences and the Amendment Conferences shall be borne by the States Parties and States not parties to this Convention participating therein, in accordance with the United Nations scale of assessment adjusted appropriately.
2. The costs incurred by the Secretary-General of the United Nations under Articles 7 and 8 and the costs of any fact-finding mission shall be borne by the States Parties in accordance with the United Nations scale of assessment adjusted appropriately.

ARTICLE 15
Signature
This Convention, done at Oslo, Norway, on 18 September 1997, shall be open for signature at Ottawa, Canada, by all States from 3 December 1997 until 4 December 1997, and at the United Nations Headquarters in New York from 5 December 1997 until its entry into force.

ARTICLE 16
Ratification, acceptance, approval or accession
1. This Convention is subject to ratification, acceptance or approval of the Signatories.
2. It shall be open for accession by any State which has not signed the Convention.
3. The instruments of ratification, acceptance, approval or accession shall be deposited with the Depositary.

ARTICLE 17
Entry into force
1. This Convention shall enter into force on the first day of the sixth month after the month in which the 40th instrument of ratification, acceptance, approval or accession has been deposited.
2. For any State which deposits its instrument of ratification, acceptance, approval or accession after the date of the deposit of the 40th instrument of ratification, acceptance, approval or accession, this Convention shall enter into force on the first day of the sixth month after the date on which that State has deposited its instrument of ratification, acceptance, approval or accession.

ARTICLE 18
Provisional application
Any State may at the time of its ratification, acceptance, approval or accession, declare that it will apply provisionally paragraph 1 of Article 1 of this Convention pending its entry into force.

ARTICLE 19
Reservations
The Articles of this Convention shall not be subject to reservations.

ARTICLE 20
Duration and withdrawal
1. This Convention shall be of unlimited duration.
2. Each State Party shall, in exercising its national sovereignty, have the right to withdraw from this Convention. It shall give notice of such withdrawal to all other States Parties, to the Depositary and to the United Nations Security Council. Such instrument of withdrawal shall include a full explanation of the reasons motivating this withdrawal.
3. Such withdrawal shall only take effect six months after the receipt of the instrument of withdrawal by the Depositary. If, however, on the expiry of that six-month period, the withdrawing State Party is engaged in an armed conflict, the withdrawal shall not take effect before the end of the armed conflict.
4. The withdrawal of a State Party from this Convention shall not in any way affect the duty of States to continue fulfilling the obligations assumed under any relevant rules of international law.

ARTICLE 21
Depository
The Secretary-General of the United Nations is hereby designated as the Depository of this Convention.

ARTICLE 22
Authentic texts
The original of this Convention, of which the Arabic, Chinese, English, French, Russian and Spanish texts are equally authentic, shall be deposited with the Secretary-General of the United Nations.
MAPUTO ACTION PLAN
2014–2019
INTRODUCTION

The States Parties reaffirm their unqualified commitment to ending the suffering and casualties caused by anti-personnel mines for all people for all time, and aspire to end the era of anti-personnel mines. These States Parties strive to:

- maintain strict observance of the Convention’s norms;
- ensure that there are no new mine victims in areas under their jurisdiction or control;
- see that survivors participate in their societies on an equal basis to others; and,
- commit to intensify their efforts to complete their respective time-bound obligations with the urgency that the completion work requires.

The Maputo Action Plan aims for significant and sustainable progress towards the achievement of this ambition during the period 2014 to 2019, building on the achievements made under the Nairobi and Cartagena Action Plans, while acknowledging local, national and regional circumstances in its practical implementation. The States Parties will implement the Maputo Action Plan in a cooperative, inclusive, age-appropriate and gender-sensitive manner and, in doing so, endeavour for a high degree of coherence, coordination and cost effectiveness. In addition, they will continue to recognise the special partnerships in the universalization and implementation of the Convention with the United Nations, the International Committee of the Red Cross, the International Campaign to Ban Landmines and the Geneva International Centre for Humanitarian Demining.

I. UNIVERSALIZATION

While recognising the tremendous progress already achieved, and in order to continue pursuing universal adherence to the Convention and acceptance of its norms, the States Parties will take the following actions:

**Action 1:** The States Parties will promote formal adherence to the Convention by States not party to the Convention, regularly inviting them to participate in the Convention’s meetings and inform States Parties of practical steps taken, such as formalised commitments not to use, produce or transfer anti-personnel mines, or to destroy stockpiles.

**Action 2:** The States Parties will continue to promote universal observance of the Convention’s norms and objectives, condemn violations of these norms and take appropriate steps to end the use, stockpiling, production and transfer of anti-personnel mines by any actor, including by armed non-State actors.

**Action 3:** The States Parties will coordinate their actions to promote the Convention, including actions taken at a high level, through bilateral contacts and in multilateral fora, and request the Secretary-General of the United Nations, as Depositary, to continue promoting universalization by inviting States not party to join the Convention as soon as possible.

**Action 4:** Recalling that in Maputo in 1999, the States Parties formally declared that “as a community dedicated to seeing an end to the use of anti-personnel mines, our assistance and cooperation will flow primarily to those who have forewarned the use of these weapons forever through adherence to and implementation of the Convention,” State Parties in promoting the Convention will communicate that they will give specific consideration to those States that have committed to these principles, when considering giving assistance to States not party to the Convention, taking into account that each country will provide assistance on the basis of its own priorities and principles, including in emergency situations.

II. STOCKPILE DESTRUCTION

The elimination of all stockpiled anti-personnel mines will contribute greatly to preventing additional suffering and casualties caused by these weapons. With a view to overcoming persistent challenges to achieving this aim as soon as possible and preventing additional challenges as well as new cases of non-compliance, the States Parties will take the following actions:

**Action 5:** Each State Party that has missed its deadline for the completion of its Article 4 obligations will provide to the States Parties, through the President, by 31 December 2014, a plan for the destruction of all stockpiled anti-personnel mines under its control or jurisdiction as soon as possible, and thereafter keep the States Parties apprised of efforts to implement its plan through annual transparency reports and other means.

**Action 6:** Each State Party in the process of destroying its stockpiled anti-personnel mines will regularly communicate to the States Parties, through annual transparency reports and other means, plans to fulfil its obligations and progress achieved, highlighting as early as possible any issues of concern.

**Action 7:** Each State Party which discovers previously unknown stockpiles after stockpile destruction deadlines have passed will inform the States Parties as soon as possible, report pertinent information as required by the Convention,
and destroy these anti-personnel mines as a matter of urgent priority and no later than six months after the report of their discovery.

III. MINE CLEARANCE

Considerable progress has been achieved in mine clearance, with almost 30 States Parties having completed implementation of their obligations. However, almost an equal number of States Parties are still in the process of meeting mine clearance deadlines, most of which are extended deadlines. The methods and means of identifying, clearing or releasing areas known or suspected to contain anti-personnel mines in the most efficient manner have improved greatly. In order to achieve completion by all States Parties as soon as possible and no later than by their respective clearance deadlines, the States Parties will take the following actions:

Action 8: Each State Party with ongoing mine clearance obligations will undertake all reasonable efforts to quantify and qualify its remaining implementation challenge as soon as possible, and undertake all reasonable efforts to quantify and qualify its remaining implementation challenge as soon as possible, and report this information through its Article 7 transparency report by 30 April 2015 and annually thereafter. This information should identify the precise perimeter locations and the extent of all areas under its jurisdiction or control that contain anti-personnel mines and therefore require clearance, and that are suspected to contain anti-personnel mines and therefore require further survey. This information is to be incorporated into national demining plans and relevant broader development and reconstruction plans.

Action 9: Each State Party with ongoing mine clearance obligations will ensure as soon as possible that the most relevant land-release standards, policies and methodologies, in line with the United Nations’ International Mine Action Standards, are in place and applied for the full and expedient implementation of this aspect of the Convention. These land release methodologies will be evidence-based, accountable and acceptable to local communities, including through the participation of affected communities, including women, girls, boys and men, in the process.9

Action 10: Each State Party that has reported mined areas under its jurisdiction or control will provide mine risk reduction and education programmes, as part of broader risk assessment and reduction activities targeting the most at-risk populations. These programmes shall be age-appropriate and gender-sensitive, coherent with applicable national and international standards, tailored to the needs of mine-affected communities and integrated into ongoing mine action activities, namely data gathering, clearance and victim assistance as appropriate.

Action 11: All States Parties will apply the recommendations endorsed by the Twelfth Meeting of the States Parties as contained in the paper “Reflections on the Article 5 Extension Process” on ensuring that high-quality requests for extended mine clearance deadlines continue to be submitted, that high-quality analyses of these requests continue to be prepared, and that cooperative engagement of Article 5 implementing States Parties continues after requests have been granted.

IV. VICTIM ASSISTANCE

States Parties are committed to the full, equal and effective participation of mine victims in society. Actions taken under this Convention to fulfill the solemn promise to mine victims have proven vital and commitments under the Cartagena Action Plan and remain valid and should be acted upon. Engagement in other domains is also necessary in view of the States Parties’ understanding that victim assistance should be integrated into broader national policies, plans and legal frameworks related to the rights of persons with disabilities, health, education, employment, development and poverty reduction. In this context and in order to address victim assistance with the same precision and intensity as for other aims of the Convention and to ensure that broader frameworks are reaching mine victims, the States Parties will take the following actions:

Action 12: Each State Party with mine victims in areas under its jurisdiction or control, in a manner that takes into account sex- and age-disaggregated data, will do its utmost to assess the needs of mine victims, the availability and gaps in services and support, and existing or new requirements for disability, health, education, employment, development and poverty reduction activities needed to meet the needs of mine victims, and to refer victims to existing services where possible.

Action 13: Based on its assessments, each State Party with mine victims in areas under its jurisdiction or control will do its utmost to communicate to the States Parties, including through its annual transparency report, as applicable, by 30 April 2015, enhancements that have been made or will be made to disability, health, social welfare, education, employment, development and poverty reduction plans, policies and legal frameworks needed to meet the needs of mine victims, and on budgets allocated for their implementation. Every year, efforts to implement these plans, policies and legal frameworks and their enhancements should be communicated to the States Parties.

Action 14: Based on its assessments, each State Party with mine victims in areas under its jurisdiction or control will do its utmost to communicate to the States Parties, including through its annual transparency report, as applicable, by 30 April 2015, enhancements that have been made or will be made to disability, health, social welfare, education, employment, development and poverty reduction plans, policies and legal frameworks needed to meet the needs of mine victims, and on budgets allocated for their implementation. Every year, efforts to implement these plans, policies and legal frameworks and their enhancements should be communicated to the States Parties.

Action 15: Each State Party with mine victims in areas under its jurisdiction or control, taking into account its own local, national and regional circumstances, will do its utmost to strengthen local capacities, enhance coordination with subnational entities as relevant and appropriate, and increase availability of and accessibility to appropriate comprehensive rehabilitation services, economic inclusion opportunities and social protection measures for all mine victims, regardless of their gender and age. This entails removing physical, social, cultural, economic, political and other barriers, including expanding quality services in rural and remote areas and paying particular attention to vulnerable groups.

Action 16: Each State Party, and particularly each with mine victims in areas under its jurisdiction or control, will do its utmost to enhance the capacity and ensure the inclusion and full and active participation of mine victims and their representative organisations in all matters that affect them, particularly as concerns national action plans, legal frameworks, policies, implementation mechanisms, monitoring and evaluation.

Action 17: All States Parties will seize every opportunity to raise awareness of the imperative to address the needs and guarantee the rights of mine victims, in an age- and gender-sensitive manner, including by engaging in the work of international, regional and national human rights, health care, labour and other fora, instruments and domains.

Action 18: Each State Party with mine victims in areas under its jurisdiction or control will do its utmost to report in advance of the next Review Conference on measurable improvements made in the wellbeing and the guarantee of the rights of mine victims, challenges that remain and priorities for assistance as relevant.

9. Recommendations on applying all available methods for the full and expedient implementation of Article 5 were endorsed by the Ninth Meeting of the States Parties.
V. INTERNATIONAL COOPERATION AND ASSISTANCE

While each State Party is responsible for implementing the Convention in areas under its jurisdiction or control, the Convention’s shared goals can be advanced through enhanced cooperation. With a view to significantly improving cooperation between those seeking assistance and those in a position to provide assistance, the States Parties will take the following actions:

Action 19: Each State Party seeking assistance will do its utmost to demonstrate high-level national ownership in fulfilling Convention obligations, including by: maintaining interest at a high level in fulfilling Convention obligations; empowering and providing relevant State entities with the human, financial and material capacity to carry out their obligations under the Convention; articulating the measures its State entities will undertake to implement relevant aspects of Convention in the most inclusive, efficient and expedient manner possible and plans to overcome any challenges that need to be addressed; and making a regular significant national financial commitment to the State’s programmes to implement the Convention.

Action 20: All States Parties in a position to do so will effectively use all possible avenues to support States Parties seeking to receive assistance in mine clearance; mine risk education; stockpile destruction; adopting appropriate national implementation measures; as well as meeting victims’ needs and guaranteeing their rights. As concerns victim assistance, this includes providing targeted assistance and supporting broader efforts to enhance frameworks related to the rights of persons with disabilities, health, education, employment, development and poverty reduction.

Action 21: States Parties in a position to provide assistance and those seeking to receive assistance, where relevant and to the extent possible, will enter into partnerships for completion, with partners specifying their responsibilities to each other, articulating age- and gender-sensitive time-bound objectives and targets, making financial or other commitments, if possible on a multi-year basis, and engaging regularly in a dialogue on progress and challenges in meeting goals.

Action 22: States Parties in a position to provide assistance will support plans and programmes that are informed by relevant and accurate information on contamination and the socio-economic impact of anti-personnel mines – including information which is collected from affected women, girls, boys and men, and is analysed from a gender perspective – and that promote and encourage gender mainstreaming.

Action 23: All States Parties will develop and promote bilateral, regional and international cooperation, including through South-South cooperation and by sharing national experiences and good practices, resources, technology and expertise to implement the Convention.

Action 24: All States Parties will contribute, as they deem useful, to the information exchange tool ‘Platform for Partnerships’ and will provide new or updated information on their needs for assistance or on assistance which they are in a position to offer, when feasible, with a view to further enhancing partnerships and to supporting the full implementation of the Convention.

VI. TRANSPARENCY AND THE EXCHANGE OF INFORMATION

The States Parties recognise that transparency and the open exchange of information, through both formal mechanisms under the Convention and other informal means, are essential to achieving the Convention’s aims. The States Parties also recognise that dialogue informed by accurate and high quality information can support cooperation and assistance and accelerate the Convention’s implementation. To this end, the States Parties will take the following actions:

Action 25: All States Parties will provide high quality and updated information annually, as required by the Convention, and provide additional information in a voluntary manner. Where applicable, those States Parties without implementation obligations will make use of the simplified tools for fulfilling their Article 7 obligations.

Action 26: The States Parties will draw on information provided as required and on a voluntary basis to engage in cooperative dialogue with a view to enhancing cooperation and assistance efforts, as well as the overall implementation of the Convention. This will contribute to making the exchange of information an effective management tool in support of the implementation of all the Convention’s obligations.

Action 27: Each State Party that has retained anti-personnel mines for reasons permitted by the Convention will regularly review the number of retained anti-personnel mines to ensure that they constitute the minimum number absolutely necessary for permitted purposes, destroy all those exceeding that number, where appropriate explore available alternatives to using live anti-personnel mines for training and research activities. States Parties will annually report, on a voluntary basis, on the plans for and actual use of retained anti-personnel mines explaining any increase or decrease in the number of retained anti-personnel mines.

VII. MEASURES TO ENSURE COMPLIANCE

During the period 2014-2019, States Parties will continue to be guided by the knowledge that collective cooperation will help facilitate and assist each State Party’s ongoing compliance with the Convention. To this end, the States Parties will take the following actions:

Action 28: In case of alleged or known non-compliance with the Convention’s prohibitions, the State Party concerned will provide information on the situation to all States Parties in the most expeditious, comprehensive and transparent manner possible and work together with other States Parties in a spirit of cooperation to resolve the matter in an expeditious and effective manner, in accordance with Article 8.

Action 29: Each State Party that has not yet done so, will, as soon as possible and no later than by the Fourth Review Conference, take all appropriate legal, administrative and other measures to prevent and suppress any activity that is prohibited the Convention undertaken by persons or on territory under its jurisdiction or control. States Parties will report on such measures as required by the Convention and thereafter inform the States Parties of the use of such measures to respond to cases of alleged or known non-compliance with the Convention’s prohibitions.

VIII. IMPLEMENTATION SUPPORT

The States Parties have developed innovative mechanisms for the implementation of the Convention and have shown great flexibility in adjusting this machinery to ensure that it matches evolving needs. The States Parties have made it clear that they retain full ownership over the mechanisms they have established, including by remaining committed to oversee and finance this machinery. To this end, the States Parties will take the following actions:

Action 30: All States Parties in a position to do so will provide necessary financial resources for the effective operation of the Implementation Support Unit and take responsibility for the mechanisms they have established.

Action 31: The States Parties will make use of synergies with other relevant instruments of international humanitarian and human rights law.

Adopted 27 June 2014
