Can you see a website to the right?

Before we get started, look to the right. Is there a blank white space or do you see a website? If you see white space, look for a notification about blocking or loading scripts. The below images are examples of what you may see in different browsers.
Once you locate this feature, remove the block and load all scripts so you can see the webpages in the right-hand frame. Now, by clicking on the right arrow below, you will advance in this tutorial. Go ahead and click on the arrow now. If you have any problems, contact me at vssds@jmu.edu.
What's the learning outcome?

Recall when I mentioned learning outcomes before? Each exercise I've given you has an outcome. It's a kind of contract I have with you stating, "This is what you will get out of this experience."

The outcome for this exercise is:

After this exercise, students will review a collection of open access social work journals and report out on their quality and topics covered. (note that another group will explore and describe what open access journals are).

Exploring Open Access Social Work Journals

First, begin by opening this list of quality indicators for open access journal home pages. Use the list to answer a few questions below. You'll hear more about open access journals from other groups. (As always, if a link won't open in the panel to the right, try right clicking the link and opening it in another tab.)

[Panel in Guide on the Side would display a PDF document saved with this document called Outcome-14-Open Access SOWK Journals-LIST.pdf  This resource is FOR ALL THE BELOW QUESTIONS.]
