Sighnt Procedure, Class Attendance, Hours and Dining Hall Rules Stated

The following is a clarification of recent rule changes:

- Refer to Rule Six of December 3rd noting that special hours of dormitories. The phrase "when not in use" should be deleted. The revised rule should read: "All students must be in their dormitories by 10:00 p.m. each week day, excluding Sunday."

- Refer to Rule Ten, p. 74 of the Handbook, should read in part: "Each freshman may have three nights per week off campus until midnight or without a card...

- Refer to Procedures for Signing In and Signing Out (effective Friday, February 1st, when marks are installed), the question has been raised whether Rule Four, p. 74 in the Handbook is necessary. Under these circumstances, those freshmen who live in dormitories without dating centers will meet their dates in Albermarle.

- Refer to Rule Two (latest rule changes) which reads, "For exceptional situations, late permissions may be approved by the dormitory Head..."

- The following sentence should be added: "Should the hostess, to whom the overnight permission be secured be from the Social Director, Albermarle Hall..."

The following rule concerning class attendance was approved by President Miller on November 23.

- "No food shall be removed from the dining hall except fruit, wrapped ice cream, and wrapped sandwiches at 10:30 p.m.iled items should be taken back to dormitories for consumption."

This rule means only prepackaged foods may be taken from the dining hall. Food wrapped in paper is not considered packaged and will not be taken from the dining hall. Removal of more than one package of cereal is a violation of procedure.

Other campuses have reported CIA campus operations. Among them was the Center for International Studies at Massachusetts Institute of Technology. The NSA disclosure was not the first reported link between the CIA and the University. CIAs covert activities have infiltrated a government-financed institute of technology. The CIA campus operations. Among them was the Center for International Studies at Massachusetts Institute of Technology.

The exhibit includes work done by young artists from Virginia college art departments.

Critique To Be Published By Prof.

Dr. William McMurry of the Madison English Department has just completed a book, "The Literary Radix of William Dean Howells," which is a critical study of twelve novels by Howells. The book will be published by the Southern Illinois University Press as a part of their Connoisseur Modern Critiques Series.

The book grew out of McMurry's doctoral dissertation. Dr. he close Howells because he is one of the three major American literary realists and receives less attention than Twain or James. He also felt that his work is "an opportunity to do something new in a new way..."

The study begins with Howells' A Farseen Conception of the World. The book will go on sale in March.

McMurry received his Ph.D. from the University of New Mexico and his M.A. was earned at the University of Illinois. His B.A. is from Middlebury College in Vermont.

This is his second year at Madi-
Fires Cannot Tell Time

At least once each month Madison students evacuate the warmth of their dormitories and file into the night air. Glad in pajamas, rollers, and coats you answer roll call and the clang of a bell, return to your rooms. Not until there were fires, students would become disoriented, but in general, the set procedure would be followed.

Have you ever stopped to consider exactly what you would do if you were caught in a fire, and if so, would you know that confusion would reign if all the students in Burruss Hall exited from the door at the west end of the building as is the usual procedure. Of course, there is no need for anyone to concern himself with Madison's fire problem, because such occurrences have never happened. As most of you know, an exout from Maury is extremely difficult even in a calm, sober, and collected state of mind. Students threatened by fire would escape, but perhaps at the cost of life itself.

According to several professors, there are no fire drill instructions for the academic buildings on campus. It seems inconsistent that while dormitory fire drills are required there are no procedures for evacuation of the buildings in which students spend much of their day. It is fine to prepare for fires that may occur after 7:00 p.m., but what about emergencies between this hour?

Students "Crash" Mixer

Peering over the balcony in Keezle Gym one could see many "swinging upperclassmen" at an A.L.L. freshman mixer held in the gym. The A.L.L.新鲜men and women were good music (by the Top Hats) and a lot of boys wishing to dance.

The poll were taken by some of the "intruders" of Saturday night, February 11, were at the open dance of February 4, it would probably show a definite lack of interest in the open dance. Again the question—why so many upperclassmen at the mixer?

There is no written rule in Madison's handbook covering "dance crashing," but the Honor Code would probably cover this "emergency" situation. The A.L.L. freshmen had no problems—were not uninvited in unnoticed without paying or showing their identification cards or lie when questioned about their classification.

If a mixer is designed to give uninformed people, why not give a sophomore or junior an opportunity? This would certainly solve the problem of what to do on a Saturday night and it would give the freshmen a chance to have the illustrious title of "dance freshman" and the upperclassmen a chance to learn to the point where I can casually sit back and watch this school degenerate into a gawky.

Congratulations freshmen for having a successful mixer—one that even drove some students to disguise themselves as freshmen!

Gilman and Mahoney Run for Pres. of Men's Student Government Organization

The S.G.O. at Madison in past years has been a weak organization. This basically has been the outcome of two major factors: the presence of a large majority of girls on the campus and the scarcity of male students. The number of men in the last four years has been below the average and the last four years has been double and triple. This will begin to change with the advent of one of the closest elections in more years has been below the average in Madison's usual years, and the organization has been rather weak.

Within the next five years I feel the College, will have a strong, active, and respected Student Council. This will occur, however, only if a vast predominance of members from both the government and the student body desire it and work for it. (Continued on Page 3)

Smith and Wilkins Run for Pres. of Women's Student Government Organization

Next year will be a personal year here at Madison. It is the year before the first time there will be men students in Madison's class of '68. It has been said that there will be a necessity for growth here at Madison. In previous years the college has been relatively inactive because of the small number of students who, on campus, are active in the Student Government Organization. As a result, there are few rules now that become binding upon fewer students than the Student Government Organization. Now there are enough students to size up the situation and to act upon it. The Government Organization is in line to become active. There were not enough students to give the proper amount of support to the Student Government Organization, but now it seems there are enough students to support the organization.

As a candidate for President of the Women's Student Government Organization I am in favor of working for growth Pampering and for support of activities, for a movement toward gradual growth of the Student Government Organization and the Student Government Association by active participation of both groups in the same activities, and for some Student Government Organization in the summer. I am in favor of the Student Government Association of work and growth of the Student Government Organization. If you wish to measure qualitites for the positions for which I stand, I would like to tell you that I have been a member of the Student Government Association of the Student Government Organization for two years, and I have stood on the Student Council for part of a year. I am a member of the Student Government Association at the junior college form which I transferred, vice-president of S.G.O. and executive vice-president of Ms. Smith was the organizer of the Student Government Association for two years that I have been in Madison. (Continued on Page 3)

The W.A.A.

One of the most popular groups in the W.A.A. is for everyone. It is up to us to see that it is available at all times and to see that it is a better instrument on this campus. The W.A.A. can be our Student Government Organization, it can be a stronger student governed organization. For years the students have been petitioning for a stronger student government organization and they have been petitioning for a stronger student government organization to be the strength of its spokes; the strength of its spokes in the open dance. As the president you as the person you know how I was interested in the open dance. As a matter of fact that my past experience in working with the W.A.A. supplies me with the necessary qualifications to fulfill the duties of this office.

This year I present the held office of the W.A.A. Vice-President, and I am a candidate for President while the President was President what I had in mind. I feel for a movement toward gradual growth of the Student Government Organization, I am in favor of the W.A.A. idea. I feel for a movement toward gradual growth of the Student Government Organization, I am in favor of the W.A.A. idea.

The W.A.A. will reign if all the students in Burruss Hall exit from the W.A.A. Because the President is YOUR backbone, assert yourselves, your mind, and your vote. Back the point where I can casually sit back and watch this school degenerate into a gawky. (Continued on Page 3)

The Student Government Association (S.G.A.) is planning a "Student Volunteer" bus service to the University of Virginia for the spring and summer breaks. The bus will leave campus at 5:15 every evening Monday through Friday. Renewal buses will depart from the Rotunda at 6:00 p.m. Only round trip tickets will be available and the cost will include transportation only. Buses are reserved for all Madison College students. The performances will be March 11 at Bridgewater College, and April 1 at Libby Hill High School. The performances will be March 11 at Bridgewater College, and April 1 at Libby Hill High School. The performances will be March 11 at Bridgewater College, and April 1 at Libby Hill High School.

2 Bulletin Board Placed in Wilson

Two new bulletin boards have been constructed for use by students. They contain the current announcements and the latest. They are to be used for posting notices of various times, especially for non-college events, notice of jobs, information and anything that should not be in a pliable alternative. This is an idea that prevails, and is not just another way of getting people to do things without communicating. It is fine to prepare for fires that may occur after 7:00 p.m., but what about emergencies between this hour?

The answer lies in our willingness to challenge tradition. I cannot see myself as an organization working together with the student body. There is no reason. It is time to take some action for change.

Many of the present activities of the Y, such as the Big Sister-Little Sister program and the bingo-sponsorship I plan to continue, however, some revisions in other programs such as the Christmas program and Religious Emphasis Week are necessary.

Although I am running unopposed, I still need a vote of confidence from the student body, and I sincerely hope that you will take the time and interest in this upcoming election to vote for the candidates of your choice.

Caroline Carin

Braithwaite, Carden Seek Votes

YWCA Presidency

Sought By Cartin

The central theme of my campaign has been the utilization of the Young Women's Christian Association and the student body. One of the main problems of the Y this year is the lack of communication due to lack of student involvement in the areas of planning and carrying out the programs of the Y. I hope to work on this problem in the fall during the YWCA membership drives by a new sign-up procedure for Y committees.

In keeping with national aims, I hope to broaden our social service theme by initiating a tutorial program with one of the area schools, whereby Madison College students would tutor children having difficulty in their subject areas.
