Virginia Assembly Discusses Raise in Teachers Salaries

Members of the Virginia General Assembly have given their first opportunity at recent meetings that pay increases will be made for the public school teachers in the state. The increase will be greater than those increases which will likely come without additional state taxes. The Virginia Legislature, which will be raked into special session this week by Governor Tucker, to consider an appropriation to raise teachers pay and relieve the acute situation in Virginia's schools.

The Virginia Educational Association had asked the assembly to apply $6,000,000 for the emergency in the next three years to meet the growing needs of the new students. Tucker, however, has presented a grum a call for $25,000,000, to set aside the state for this year and an estimated $15,000,000 for 1947. VEA members have indicated that they will put their plans for a grant increased by the act, and the legislature will benefit from the increased tax revenues. The assembly has promised that the amount proposed by the Governor will be approved, but it will not meet the needs of the teachers.

V. A. C. Operated

It has been found successful by the Virginia State Teachers Association in its membership of the Virginia educational system, that Virginia now ranks 26th. The meeting for the winter quarter will be for a year in public schools, both elementary and secondary. This method was not found successful that they have continued this tax.

As a result, where Virginia rank

The Madison squad voted unanimously for the place of Angelinos Matthews who resigned. Lillia is a senior in a foreign

Registrar's Office Lists New Students

Nineteen new students have registered for the winter quarter at Madison, the registrar's office has revealed. The students are from a variety of geographical backgrounds and have different majors.

I Resolve . . .

As the bells ring in the new year they just naturally toll for the joys, surprises and happinesses which are to follow in the next 300 odd days, but they are also tolling for the thousands of hopeful individuals who have made new year's resolutions. Do you realize that one knows January 1 is in the day when resolutions have full swing? How long do they last? Is the will of the individual and at least on New Year's most everyone has that "I resolve" gleam in his eye.

The important question is why can't we keep these resolutions? They must be worthwhile and for our own good, or we would not have made them in the beginning. Then why forget all about them around January 5 and slide back into our old routine? Why can the citizens resist the evils of propaganda and organized self-interest? They must be worthwhile and for our own good, or we would not have made them. The need for such a rec room has long been felt on Madison's campus. There is absolutely nothing that "dates" can do on this campus. There is absolutely nothing that "dates" can do on this campus. There is absolutely nothing that "dates" can do on this campus. There is absolutely nothing that "dates" can do on this campus.

I resolve to keep my New Year's resolutions to the best of my ability this year so as to be an improved, better person.

M. R.

Rec Room Needed

Last year at a regular student body meeting it was suggested that a recreation room be opened to take care of the deplorable Sunday dating situation. At the beginning of the fall quarter this year the Sophomores took this as a class project. Plans are now being circulated among Dr. Duke for a recreation room to be opened to Sunday "dates."

The need for such a rec room has long been felt on Madison's campus. There is absolutely nothing that "dates" can do on this campus. There is absolutely nothing that "dates" can do on this campus. There is absolutely nothing that "dates" can do on this campus. There is absolutely nothing that "dates" can do on this campus.

A recreation room would help a great deal to alleviate this over-crowded situation.

DON'T IN THE DUMPS

Who is paid better in your home town, teachers or garbage collectors? There are communities in which garbage collectors make higher salaries than school teachers. If this is true in your town, you surely cannot be satisfied with the situation.

Education is thought by too many to be a preliminary to earning a living. It is much more than that. In this age of mass pressures, democracy cannot survive unless its citizens are trained in the analytical method, cultural standards and knowledge of the world. Only then can the citizens resist the evils of propaganda and organized self-interest.

Oklahomans did much to further the cause of better education by Oklahoma's and the entire nation's educational standards. We are crowded in, 1947 be—"I resolve to keep my New Year's resolutions to the best of my ability this year so as to be an improved, better person."
Hi, look at the smoke."

"That's not smoke, little girl. You are looking at clouds," explained the old man.

The little girl was Shirley Williams. She was flying from Norfolk to Chicago to attend the biennial Pi Omega Pi conference.

Shirley checked in at Hotel Sherman, where she found her room to be held, at 2:30 on December 26. At 3:00 she dined at a nearby university restaurant to get a better feeling of all girls from the other United States.

Shirley's morning class was Art History. She was delighted to see how many students were seated in the Student Theater. "Song of Norway" was Shirley's favorite. It was the one piece that she had missed since the middle of November.

During the afternoon Chicago rain shower blotted out Palmer House and heaved the last out of the window. Shirley was the largest department store in the world.

For the grand finale of the conference the student body met for a banquet on the night of December 27. The formal dance was for long. At 8:30 the student delegates meeting was scheduled.

At the meeting of the student body at the Palmer House from 8:30 to 10:30 Shirley was the student delegates meeting.

Then the executive committee reported on the activities of the year and they plan to visit Harrisonburg orphans with a Christmas program.

The Methodist church is sponsoring a successful conference to be held on February 8 and 9. Assistant Professor Richard L. Moore, President of Edward W. Moore, President of Trinity College, and President John D. Whitchurch, President of the University of Virginia, attended the meeting. Doris Wright is best known on campus as school basketball sports leader as well as for her attractive appearance and friendly personality. She's the girl who made a hit at a basketball game she played in high school and the student who people get a picker over this way each week. Our goal will be to give you a regular pick as a sports leader in general, and a view of what's happening in college sports.

Doris is a junior, enrolled in the teaching curriculum, and a physical education major who is interested in all sports. She is a member of the varsity hockey squad and was a member of the sophomore basketball team and participated in class softball games.

With the support of every student who has an interest in basketball, Doris's work on the new inter-dormitory system can be a success.

AA Council Gives Athletic Equipment for Student Use

The AA council has provided a box containing athletic equipment in the hallway of Reed gymnasium. At any time, when gym classes are not in progress, students interested in any of the equipment for basketball, volleyball, badminton, ping pong, darts and paddle tennis. However, they are requested to be careful in returning it.
