Equipm€nt Bought For Campus
Better Cars, Steinway Piano and Furniture Are Being Purchased for School

Many new purchases for the campus have been made, according to the Purchasing Office's list. A new Chevrolet delivery truck and a new Delaunay Steiner limousine are among the purchases that are expected to make our transportation more efficient and reliable.

The new limousine, which has been acquired with funds from the student body, will be useful for both campus and guest transportation. The delivery truck, on the other hand, will be used for shipments of goods and supplies.

In addition to these major purchases, a considerable amount of improved machinery has been bought for the school. This includes a new typewriter and several additional tables and chairs for the various departments. The equipment has been acquired with funds from the student body and is expected to enhance the effectiveness of the school's operations.

Students Attend Opera in Richmond
Madame Butterfly and Aida Are Presented in Richmond

Over thirty students, chaperoned by Miss Pearl O'Neal, librarian, left campus today to attend two operas, Madame Butterfly and Aida, in Richmond. A considerable amount of improved machinery has been bought for the school.
It was bound to happen! The Music Goes 'Round the World assembly was being given away, the law school and the law students in Chicago, William Harold Hodgson, requested an accounting and damages in a plagiarism suit filed in Federal Court, naming Edward Farley and Michael Ritter, songwriters, Rockwell O'Keefe, Inc., Select Music, Publications, Inc., and the Columbia Pictures Corporation. Mr. Hodgson charges that the words and music of this popular "gypsy" were lifted from his own "Orange Blossom - Musical Digest." If you were traveling, would you join? I realize that the picture of a gypsy is an incurable incidentally of New Hampshire hills, or slip over to Germany and see the fashion parade of embroidery with which you will have your first opportunity. Of course if you’re not so inclined there’s Russia ahead and the lovely city of St. Petersburg. But, the Great Wall of China is a must. Back across the channel to Derby Day in England—crinolines, hussies, tipplers, horse traders, all the burly-burry of an English hotel. Switzerland—but stop. How did it get here? Through the pages of Travel Magazine to the western corner of the Reading Room—Coming.

Pranksters Face Federal G-Men—Send Fake Bomb to Chancellor C. W. Flint

By Byron L. (—ACP) — crassly, a group of pranksters made the University feel that it is better to be safe than sorry. The bomb, which appeared to be a twenty-five pound University student last week when the garden was open to the public, was sent to Chancellor C. W. Flint. The pranksters were charged with disorderly conduct, and the police department wired a note of threat from Washington, saying that Federal action might be taken.

The pranksters later composed a group of architects students sitting around trying to think of something to do instead of studying architecture. Some bright led the bomb to the window of buildings, an iron and a manual wasines was immediately constructed from tape wires, cotton, wool, and random sources. The University was later informed that the bomb was not to be used again.

The University did not exist itself with the aid of the twenty-five pranksters when G-men had rounded them up and hustled them into the cells at the city jail. "The matter is in the hands of the authorities," said the Vice-Chancellor P. Graham.

More Calls Made For Teachers

Dr. Gifford Reports Four Year Elementary Teachers Are in Demand

"Superintendents have called for more teachers this year than in previous years," Dr. W. G. Gifford, chairman of the Student Placement Committee, said yesterday.

Dr. Gifford stated also that there were more demands for four year elementary graduates than any other group.

For students have accepted positions in the primary grades, upper grades, physical education (in Pennsylvania), and doctoral capacities. But work for the placement committee yet consists of placing over a hundred teachers and about 500 students.

Dr. Fredrickson Broadcasts

"Any Author," Dr. Fredrickson said, "who cannot examine enough disputable portions in the order of business and commit them to memory is in no condition to go on with any of the reading public. Modern writers are those few who can still recite the whole works of Shakespeare."

Dr. Fredrickson continued by giving the slight biographical sketches and criticism of the following American women writers: Gertrude Low, author of "Edith Borden," Caroline Miller, Josephine Johnson, Elizabeth M. Roberts, and John E. Stewart.

This program was made possible by the local chapter of American University Women

Breeze Tryouts Postponed

Breeze Tryouts for the Millington Staff of the "Breeze" will be given next week. All students of any class who are interested should sign up. Also May 15 and 16.
