The newly elected Major officers are pictured above. They are (from top to bottom): Elwood Whitmore, President of the Student Court; Jacqueline Weeks, President of SGA; Karen Anderson, President of Honor Council; Lynne Harvell, President of WAA; and Emily Hardy, Editor of the Bluestone.

Rule Passed by Miller

A change in the alcoholic beverages regulation, passed by the Student-Faculty Relations Committee, has been approved by President G. Tyler Miller. The rule that "any first semester freshman student is prohibited from drinking at any time while under college jurisdiction" (page 49, Student Handbook), will be omitted from the Handbook, effective September, 1969.

The Administration Council, which is composed primarily of faculty members, reworked automobile regulations and sent them to the Student-Faculty Relations Committee for further suggestions. President Miller approved the suggestion for a car registration fee of $35 per session for boarding students who are eligible to have cars on campus. No major changes were made in dormitory regulations, though many rules were reworded for clarification.

Student Auditions Announced

Dr. G. Jean Shaw, Associate Professor of Music at Madison College, announces the second Valley District Student Auditions sponsored by the Virginia Music Teachers Association, to be held in Duke Hall, Saturday, March 9, from 9:30 A.M. to 12:30 P.M. Students from four age groups will be auditioned for the District and will be submitted for consideration.

The following persons were elected as the Major officers to serve for 1968-69. Primaries were held on February 20, and the final elections were conducted February 27. The officers assume the duties of their respective offices at the beginning of the fourth week period. Newly elected officers include: Karen Anderson, President of Honor Council; Lynne Harvell, President of WAA; and Emily Hardy, Editor of the Bluestone.

SGA President

Jacqueline Weeks, Jackie, a resident of Norfolk, Virginia, has behind her a long list of services to Madison College and before her is perhaps her most important job to date. Our new President of SGA is an elementary education major with a concentration in social science. In the past Jackie has worked on both the Senate and Judicial branches of SGA, is chairman of the Big Weekend Committee, and is a member of Kappa Delta Phi. Of her election she says, "I am extremely thrilled and excited that the school has honored me." But at the same time, Jackie realizes the great responsibility of holding the office of President of SGA.

Honor Council President

It was hard for Karen Anderson to describe her emotions as she received the news of her election. Karen says that she was "elated" and "really happy." However, she was somewhat "scared" during the election which placed her in office. Karen has served on the Honor Council for the past three years and was on the Elections Committee. She is a member of Alpha Sigma Alpha sorority. Her parents are stationed in Hawaii and Karen had the opportunity to visit the islands last summer.

Wake Forest Prof Named Chairman

A Wake Forest University professor of biology has recently been named chairman of the Biology Department at Madison College.

The professor is Dr. John E. Davis, Jr. who will assume his new duties at the college next September.

In announcing the appointment, President G. Tyler Miller said, "We feel we are extremely fortunate to get a man of Dr. Davis' calibre. He comes to us highly recommended by all of his associates. His experience at such an outstanding university as Wake Forest will prove valuable to our college."

Dr. Davis taught biology at Washington and Lee University upon receiving his B.A., M.A. and Ph.D. degrees from the University of Virginia. He joined the faculty of Wake Forest as an assistant and subsequently rose to associate professor and full professor of last year, full professor.

As an active member of several scientific societies, the doctor receives a researcher as well as teacher. Several of his research papers have been published on such subjects as chick embryos, the effects of low level radiation on chick coronary vessels, and the effect of certain drugs on organs.

Vol. XLIV Madison College, Harrisonburg, Virginia, Monday, March 4, 1968 No. 19

Edwards Named Editor

Beginning with the fourth week period, Ellen Edwards will assume the important position of Editor of the BREEZE. The new editor, daughter of Mr. and Mrs. G. E. Newland of McLean, Virginia, is majoring in social work with a minor in psychology. Ellen was appointed to her post by the Board of Publications for the BREEZE. She has had experience as an associate editor of the News and has worked on the paper since her freshman year. "I feel that THE BREEZE can and should be a more vital part of the campus. This will only be accomplished through the continued cooperation and support of the student body," Ellen said.
EDITORIAL COMMENT

Rule Change Advocated

In view of the many rules that have recently been under revision by the SGA and the Student-Faculty Relations Committee, it seems necessary to mention the inadequate facilities set aside for guest hours of the dating center on campus. As the rules stand now, if a woman student at Madison should have a date visit her in the middle of the week during the day, they would have little, if any place to go on campus.

According to the STUDENT HANDBOOK, the same pattern is characteristic of all the dormitories Monday through Thursday — not one of them is available as a dating center before 6 p.m. This presents an embarrassing situation for both parties involved considering that Madison College is presently regarded as a coeducational institution. It appears unfair to the students that such rules remain intact in view of the many changes that have been taking place on campus. Something must also be done about this problem.

Is it really necessary to keep all the dormitories closed until 6 p.m., Monday through Thursday? Would it not be possible to open at least one so that women students would have a place available on campus to entertain their dates? These are questions which the students should become familiar with and talk up among themselves. If anything is to be done about these rules in the future, it is the students themselves must take the first steps toward successful revision and updating.

REVERBERATIONS

Girl Finds No Dating Facilities Open During Day

Dear Editor:

I recently found out that there are no dating facilities (other than Alumnae Hall) available to students during the daytime hours of the week. A date brought me back to school, following a weekend break. Since he had his class meeting until noon on Thursday and I did not have classes that morning, we decided to go to a dating center. After one frustrating hour of searching for a place in a warm building (it was absolutely ridiculous to even consider staying in the cold, windy, and dark, we were forced to go to Alumnae Hall. Alumnae’s “facilities” include one TV set, one piano, two tables, and about twenty chairs. It is not fair to the students or their dates that we should be deprived of ping pong tables, stereo, Coke machines, and other less formal means of entertainment. Technically, Madison is coeducational. Why, then, can the students not enjoy coeducational privileges? Certainly, provisions can be made for other students who find themselves in the same predicament and if only one dorm a day was opened, as a compromise.

BREEZE BRIEFS

The Dating Center in Alumnae Hall will be open until 12:00 every Friday and Saturday night beginning March 1.

Lawrence Bryan, local fireman, and his associate William Homme conducted three demonstrations on our campus in the use of two types of extinguishers. Forty-five girls representing each dormitory received instruction in the use of two of those types of extinguishers found in our dormitories. The demonstrations involved using water pressure type extinguishers on electrical or grease fires. The girls were divided in groups of two and were using the extinguishers on kettles in various parts of campus.

The Dean’s Office wishes to report that the Faculty Council is presently reviewing our attendance policies.

The sub-committee had a recent meeting of students from all classes to express their views. Continued study is being given to this matter by the sub-committee.

The Placement Office has announced the following interviews: March 4 — Herkimer County Public Schools (New York) 9:45-10:45; March 5 — Fairfax County Public Schools (Virginia) 9:45-10:45; March 6 — Fairfay County Public Schools (Virginia) 9:45-10:45; March 7 — Charles County Public Schools (Virginia) 9:45-10:45; March 8 — Queen Anne’s County Public Schools (Maryland) 1:30-2:30.

BAA Tips

by Diane Hillman

The women’s basketball first team won its last two games. The first was a victory over Hollins College, 57-25 and the second was over Longwood College, 45-38. High scorers for the game against Hollins were Betty H. Reppen and the University of Virginia Press. High scorers for the game against Longwood were Betty H. Reppen and Cynthia K. Shelton. The second team beat Hollins College 21-10 and lost to Longwood 22-21. The high scorer in the game against Hollins College was Sandy Mitchell and Carolyn Cook. The high scorer in the game against Longwood College was Sandy Mitchell.

Student Awarded Fellowship at Rice

A Madison College senior has been awarded a fellowship to work toward a master’s degree in German at Rice University, in Houston, Texas.

He is Robert Lantz of Rt. 1, Broadway, who will begin his work at the university in the fall. While growing up in German at Madison, he has been in charge of laboratory observations in the German department under a student scholarship.

Lantz will teach one class and have one language laboratory observation at Rice. He is also an alternate to receive a National Defense Education Association fellowship.

In informing Lantz of his award, a Rice official described it as “one of the finest.”

At Madison, he has been named to the Dean’s List three times and is president of Kappa Delta Pi, an education honor society.

Censorship is Way of Control

by K. Jones

One of the most detected political aspects of life is censorship. Other Communist countries is censorship. It goes against the American doctrine of freedom. What about young Soviet intellectuals? They are sent to work on farms. They are controlled by the administration. Maybe the Republicans have something to be proud of, and not the party their. We have been caught in the Gulf of Tonkin. We were not the ones who started the war, and the Gulf of Tonkin affair. It is quite a problem, and no one can find it.

How do you decide whether a government is democratic or not? The American public today is trying to decide how to find out the true facts about things such as the war, and the Gulf of Tonkin affair. It is a simple enough statement, but how much censorship can we allow at the source of the control? Security demands certain restrictions on information, which we can see against the American way of life, but security demands is guarding America’s security, isn’t it? However, it seems that is being given to this matter by the sub-committee.

What about the thousands of North Koreans into a war? We have been caught in a war against the American way of life, but security demands is guarding America’s security, isn’t it? However, it seems that is being given to this matter by the sub-committee.

Honor Society Elects Officers

Phi Omicron Tau, the honorary economics honor society, has selected new officers for the 1968-69 session. The new officers are: President — Linda Snyder; Vice President — Carol Ann Harris; Secretary — Gayle Aydelotte; Treasurer — Roseanne Coiny.

The new officers will be installed on February 22nd at the home of Dr. Dorothy Row, head of the home economics department.
Theodore on Floating Campus

by A. D. Norton

One of the newest innovations for American colleges is the floating campus. A complete liberal arts college is contained on board a ship, which tours the world while holding classes. On board such a vessel was a unique ship: The Theodore, headed by Dr. Theodore, a professor at Madison College, Orange, New York, and the only such a unique vessel was Dr. Theodore. The stop made in Hong Kong, Honolulu, and Los Angeles.

One of the most fascinating places on the tour, says Dr. Theodore, was the stop made in Singapore, although each port promised interesting and varied for both professors and students alike.

Students who wish additional information about the floating campus are urged to contact Dr. Theodore.
The Dukes defeated EMC 90-89

by J. Heerlein

The Dukes basketball team ended their season on February 23 with an away game at Eastern Mennonite College. They lost the game, 90-89, in overtime, which seemed to be characteristic of the hard luck which has plagued them throughout the second half of the year. Before semester break, they were playing better than .500 with a 1-3 record. Unfortunately, over the second half of the season, they dropped off to a 1-6 record, losing their last four games by a combined total of 16 points. (Bluefield by 7, Wytheville by 2, George Mason by 6, and EMC by 1 in overtime.)

Although the Dukes were defeated by EMC in their final game, this appeared to be their best effort of the year. After losing to them earlier in the season, 75-55, the Dukes managed to stay with their opponents throughout the opening of the first half. Gradually, Madison gained control of the game midway through the first half, and held, a slight advantage at the half, 41-36, mainly through the efforts of Bob Hummer, Randy Rudolph, and Emmett Hanger.

The second half brought a turn of events that put EMC ahead in the lead as they broke loose for seven straight points before Madison could surpass the scoreboard. The Dukes managed to remain within reach of their opponents through the lead with less than a minute remaining in the game. However, EMC managed to score the final basket in the regulation game to tie the score at 81-81.

In the overtime period, EMC jumped into a strong lead and held it by seven points with less than a minute remaining in the overtime. The Dukes managed to struggle back to within one point with Bob Hummer tapping in a last second shot, but it wasn't enough. Time had run out for the team, and they found themselves on the losing end of a dramatic cliff-hanger.

The entire starting team ended up scoring in double figures. Randy Rudolph led the scorers with 22 points, while Bob Hummer and Emmett Hanger chipped in with 17 and 19 points respectively, to round out the scoring. Madison was especially effective from the foul line, hitting on 15-20 attempts. Emmett Hanger had more than half of those, making good on 8-11 shots, many of which came at crucial points in the waning minutes of the game. Bob Hummer played another superb defensive game holding EMC's scoring star Rick Yoder to 16 points, most of which were tap-ins under the basket. Both Dickenson and Toohey kept Madison in the game by making key baskets and ball thefts which enabled the Dukes to pull within reach of EMC, but it was not enough to pull out a victory for them.

All in all, this season proved to be one of much success, considering Madison's showing in the past years. With no member of the team graduating this year, prospects are looking up for next year with hopes of another successful and hopefully winning season.
