State College Promotes Thinking

Thinking (Page Four Page One) is spreading, mainly because the problems of business have become more complex, and more and more before there is a demand for head- ers.

"The problems of government have also become exceedingly complex." The administration of government, which was not contested by the makers of the Constitution, now issues as a great problem.

Fifty-seven varsity hockey players will begin practice on Monday, Miss Helen McMillan, Harrisonburg, varsity hockey coach, announced yesterday.

About fifteen members of last year's team have returned and are continuing to play this year, the others being from various teams of local schools and the State School of Physical Education.

The team will feel the loss of many valuable players who graduated last year, Miss VanLandingham said. These are Lotes Wadsworth, R. E. Gerlach, Margaret Bennett, Catherine Greenman, William Clark, Sylvia Kaminsky, Leaf Clark, and Margaret Thompson.

The first game of the year is scheduled for October 21 against Sweet Briar, Virginia. Last year Sweet Briar defeated the S. T. C. team 6-2-0. However, the local team will stand a better chance against them this year according to the manager.

Miss Margaret Shank explains the team for the second successive year in the comment reads more expert scientists and specialists in every field.

And this true to our modern govern- ment it to more so among nations. The interdependence calls for a statesmanship of the highest order, which must be supplied by the schools.

The thinking at this institution, the speaker indicated, "is more than that of the State of Virginia. It is painting, sculpture, architecture, music, literature, art all, in life, in fact, all society, thinking."
