Quick! Silence! Library is for Study

Of all places on campus, the library should be one where "silence is golden." Soft footsteps are necessary, of course, but sticky-toe-clacks, heavy clumping, and reckless running are not. Neither are incessant giggling, whistling, or exaggerated whispering at all welcome. Your progeny should be taken care of in the proper libraries. It is the librarian's job to see that silence is observed at all times. She has every right to call down anyone who is talking or creating a disturbance in any way. for in her duty, too, to do so. If a student know not that the librarian possesses only two eyes and an amazing ear, has never been found in two places at exactly the same time, and, therefore, cannot squawk at all of the noise all of the time.

No shouting should ring in the halls. Neither should books be dropped or thrown with a resounding whack. Such conduct is inexcusable, and any such offender should be immediately ejected. Students should go there with all intentions of reading and studying for scholarship, and research, and to write and work undisturbed.

It would be indeed embarrassing to be asked to leave. If you are a noisy offender, either stay away from the library or bungle your manners, but quick!

been overlooked, and we'd like to 

know about them.

engaged and how many plans to be 

married before the next fall. A list will be made of the P. D. O. club

and results will be printed as soon as possible.

Archery equipment is fun to play with but not so much fun to repair. So make sure these next few weeks you give all the proper handling, expeditious equipment deserves.

Experienced archers may lure the equipment only when they are experienced and familiar with it.
