Danforth Foundation Offers Graduate Fellowships

The Danforth Foundation recently announced the requirements for the Danforth Graduate Fellowship program for college teaching careers, 1969-70. The Fellowship program was established in 1951 with the purpose of giving encouragement and financial support to qualified college seniors and recent graduates planning to become college teachers.

The Fellowships are open to students who have a serious interest in college teaching as a career, and who plan to study for a M.F.A. or Ph.D. degree. In considering candidates for fellowships the following other qualifications apply: 1) Intelligence of a wide range of interests which carries seriously with which religious expressions attempt to deal.

The award is made for the academic or calendar year and is usually renewable for a total of four years. Individual needs are taken into consideration but may not exceed $1,800 (single), $2,200 (married) for the academic year; or $2,400 (single), $2,800 (married) for the calendar year. The candidate must plan to enter an accredited U.S. graduate school in the fall of 1969, and may not hold a teaching or research assistantship or a job other than a teaching assistantship or research assistantship. The candidate must have at least one year of academic study behind him. The candidate must have at least 16 credits, in math or science, from accredited institutions approved by the Danforth Foundation.

Applications for the fellowships must be submitted on the form furnished by the college, and must include a letter of recommendation from the Dean or other college official and the statement of the candidate's interest in and plan to pursue a teaching career. Applications must be received by November 1, 1968, in order for the candidate to be considered for the Fellowship.

Model House Seeks Delegates

College students today are more interested and more involved in current national and international problems than ever before. However, with this increase in awareness has come the frustration of being unable to effectively express these interests. It is the desire of the National Model House of Representatives to provide an exciting and interesting forum for this unconstrained yet important opinion.

The National Model House of Representatives will meet in a five-day conference held in one of New York City's largest hotels, on October 23-27, 1968. Students from across the country will be selected in the same proportion as these states are represented in the U.S. House of Representa-
EDITORIAL COMMENT

Breeze Ends Publication

There are approximately 8000 words in each 4-page issue of the BREEZE. You have probably never counted them. We do—all of them. We have to be sure we have enough words to cover each page.

Eight thousand words a week isn't bad. It would only equal two or three research papers. With a staff of thirty (including headline writers, advertising salesmen, circulation people, reporters and editors each working ten hours a week) eight thousand words is no trouble. A staff of twenty might even find it easy. Fifteen workers would have to put in more than ten hours a week, but they could do it. But a staff of eight finds this a difficult task.

College students wish to be treated as mature adults with responsibilities. This abbreviated newspaper is the result of a lack of maturity and responsibility on the part of the students. Although most students show an interest in reading the BREEZE, we can not enlist 28 students on this campus who are willing to work for it. For those who are not math majors, 28 is less than 1/100th of the full time student body. In other words, we can not find one student in 100 who is willing to put in the time to publish this newspaper.

Tuesday, April 30, forty-eight students received notices of a meeting for BREEZE staff members. Eight students attended this meeting.

Due to this lack of interest and support within the student body, the editors have reached the decision to cease publication for the duration of the year. There are not enough hours in the day for eight students to cover each department on campus, to write the stories, to edit and type stories, to layout the newspaper and to write headlines.

Next year, with monetary aid from the administration and support from the students we WILL publish each week. However, during the next weeks the question, "Why are there no BREEZES?" will be asked. Those of you who have taken the time to read this last issue will have to answer "STUDENTS LIKE MYSELF DO NOT HAVE THE TIME OR INTEREST."

Students Uphold D-hall Music

Dear Editor:

It must be admitted, that there is no need to authorize recreation at this college. One thing many of us have enjoyed is the popular music being played in the dining hall. Tonight, April 23, some of the housemothers complained that the music was "horrible" and that it disturbed their "ears." We do not feel that it is unsuitable for the students to listen to the music of their choice.

For the past two years, we have uncomplainingly had our ears and minds tortured by their choice of music which included such tests as "The Wedding March" and the music of Selected String Quartets. If we allow the music in the dining hall, it should be dominated by some of the more outspoken housemothers, not only because it is disturbing our radio, but because there will be a run on Rahul Malhotra and "You and I." While perhaps this is an extreme statement, the point being made is that the majority of those diners who have nothing more than a few minutes to spend at dinner, some of the dining hall. Tonight, their choice.

Wedding March" and the outspoken housemothers, not only because it is disturbing our radios, but there is a real danger that there will not be enough for them to enjoy it. While we sympathize with the housemothers, we do not feel that they should "tax" the "taxpayers" who did not pay for the dining hall for their benefit side, and housemother insistently insinuated. The dining hall staff has been aggression on this issue. We feel that taking a stand on a small issue will perhaps be incentive to the students to listen to more important matters.

Sincerely,

Elaine Thompson

**GREEK NOTES**

The newly elected officers for Phi Mu are as follows: Holly Crockett, President; Larry Crotcher, Vice President; Kitty Yeatts, Recording Secretary; Carolyn Gugler, Corresponding Secretary; Billy Koup, Treasurer; Carol Burke, Pledge Director; Barbara Ann, Director of Publicity; and Nan Pettigrew, Membership Chairman.

Several of the Afl students repeated a protest this fad.

One question — why protest the war? The most recent protest is a call for a lay day of classes. This was a protest? These students are indeed concerned, but we are concerned about the guys dying in Viet Nam that they desire to protest. Does this save one life? Does this end a war? What does a protest do? Most protestors demand withdrawal. 'That's a nice way of saying let's surrender. If surrendering would save lives, perhaps, it would be not too bad. If surrendering would not save lives, Ask the concerned people who supported capitalism in the Middle East or in Berliana at Munich, if surrender saves lives. Not! It cost lives to the people of Vietnam and the people of Viet Nam, in Germany, in the Atlantic and in the Pacific. Ask the United States, who dominates under the waters of Pearl Harbor and whose sons died in Viet Nam's battlefields, whether protest is the answer.

Who is protesting going to save lives? They forget that even though democracy is not the best form of government, others are so many worse. If these concerned students continue to song away at democracy they will find it and their rights to protest have vanished.

There are American boys dying in Viet Nam. I challenge any concerned American to come forward for a surrender that will lead to more war, more swamps, more disease, and the bane of the South, and more War. They die for an honorable people, a people that will insist all of these concerned students right to negate the very cause that is fought for. There are some — not a few concerned American young people. They carry a flag that is torn and die and they do not have meetings or call off battles to protest. Any power that will insist on a protest to destroy is being destroyed. The few soldiers that I am acquainted with would rather go on dying than see their dead buddies sacrifice to sell our so-called victory.

Then, let us not protest for peace but pray for it, let us not destroy our democracy but strengthen it, let us not encourage the enemy but support our friends and the known people who are concerned enough not to protest, but to serve.

— Topsy Miller
