Three different classes in having the largest number of votes, the year before, were disqualified because of improper marking.

In percentages, Roosevelt won 63 per cent of the votes, Landon, 20 per cent, and Thomas one and one-half per cent. The other five and one-half per cent were disqualified.

Thirty-three Vote Students of thirtteen states besides Virginia appeared at the polls and 41 of their votes Roosevelt also scored.

Freshmen Lead In Annual Representation

Freshman leads again the chases in having pictures of persons in the annual this year, with 149 of their number to be represented. The fresher class is not yet, 185, than the junior class, followed by the Sophomores with 99. The pictures were made by the Morris-Baillie-Balham Company of Philadelphia, Pa. Engraving and printing will be done by the J. B. Oller Co., of Chicago, and the J. P. Boll Company of Lynchburg, Va., respectively.

Ethel Cooper, the editor-in-chief of the SCHOOLLAND, states that besides having the pictures made, the art lab, led by Yervilla Pollard and others, in order to render this freshman class, have also begun their work in the new annual.

Date Of Play Is Settled

STRAFFORD TRIP IS POSTPONED

The Stratford Dramatic Club of Thomas A. Shank, dormitory head, has postponed the trip to Washington to see "Ethel Preme." which had been planned for this week-end. So few people signed up to go that it was impossible to take the school bus.

Can you imagine peeling 200 pounds of onions, or cleaning 400 pounds of fish, or picking 140 chicken eggs for one meal? It would appear to us to be a job without end, but it is actually done by H. T. C. kitchen workers, according to an estimate of food made by Miss Clara G. Turner, dietician.

And do we (especially freshmen) wonder why it is hard to keep a trim figure? One glance at the collegiate figure? One glance at the "H. T. C. kitchen" kitchen, 54; meat, 140 pounds of fish, or picking 140 chicken eggs per meal? It would appear that the H. T. C. kitchen is actually doing.

A Book Fair, to be held in Rockefeller Center, New York, from November 9 to 25, will be only a unique attraction, but one which will inform the visitors on the entire field of modern letters and book publishing.

The fair will be sponsored jointly by "The New York Times" and the National Association of Book Publishers.

While some exhibits will be historical in character, other will be presented upon the part which current book-making plays in the life and culture of the nation.

Students, editors, publishers will have individual exhibits of great variety.

More than sixty leading authors will share in the program of educational talks.

A special exhibit of machinery in operation will let visitors see the actual process of paper-making and setting of toilet types, proof-reading, printing and binding.

The progress of recording information from the earliest times to modern times, will be exhibited by the New York Times.

Quinn Elected Jr. Council President

Purpose of Council is Enforcement of Rules

See Quinn, Richmond, was elected president of football during a meeting at Juniper Hall Tuesday night, and Margaret Vierck was elected president of the academic junior council.

The purpose of the Juniper Hall council is to be sure that all dormitory rules are observed. The council does not want to become a vigilante group or be in danger of becoming disciplinarian.

The Juniper Hall council is not connected with the Student Council, but is a separate organization.

The council has few members including president of council, vice president, representative at large, president of class, and the faculty chaplain, Mrs. Varvare.

As an official hostess for each week appointed by the Juniper Hall council and the hostess chooses her own assistants, subject to the approval of the council. It is the duty of the hostess to receive all guests and callers, armies of flowers, and pet flowers on the mantles, answer first floor telephone, arrange furniture in the parlor if furniture has been previously arranged by an accommodating group.

It is also the duty of the council to check of campus rules and restrictions of the Juniors in Juniper Hall.

"Strict labor legislation is completely banned by the U.S. Government," he declared, "such legislation as we have in the past, and they now have learned that it is that such labor should only be available in the United States and in the future.

Other Red Cross programs which are particularly interesting are First Aid and Life-Saving training, which, while need exists, how to help others less skilled.

Disaster relief, the Red Cross safety services, and all other work of the organization are supported by the membership dues of citizens who join the annual Roll Call.

The interest and support of American college students is needed to carry on the traditions of the Red Cross and to keep it in a strong and vigorous condition, ready to act when needed is needed.

"EASTERN HAS ROSEHOUND PREMIERE"

"Easter," the film that was originally banned by the U.S. Government, has been admitted into the U.S.

This motion picture was produced in Czecho-Slovakia, and is English language.

This motion picture is coming to the New Strand Theatre, beginning November third.

This film has been a hectic career throughout the entire world. It is Frank and to the point. After completing a controversial hearing before the U.S. Customs admitted its entrance.

Buddy Kessler, the star of "Easter," has received praise from Max Fleischer, who labels her as "the brightest star in Europe." "Easter" is her first motion picture, and from present indications it will be her last, for her husband, Fritz Mandel, is president of a company which owns the picture. He has written to the American Legion asking the American Legion to buy the picture. It is a fine picture and one that should be seen at once.

Delegates to the convention will be guests of the state, the Louisiana Courier-Journal and Times at luncheon on Friday. At this luncheon there will be a special panel discussion on the subject of "If I Were a College Editor." This, one of the most important meetings, will feature the men representing all cross sections of professional newspaper opinion and a representative of the Associated Press.

The New College, a brainchild of the University of Richmond, has developed with less militarizing effect on the university system. "The University of Richmond," said Mr. Morrison, "is an example of the new type of college, a college that is not only educational but also social and cultural." The university, he said, is the focal point of the community, and it is the responsibility of the university to serve the community as a whole.

In the field of education, the university has made a significant contribution. The university has developed a program of continuing education for the university. The program is designed to provide opportunities for students to continue their education in a variety of fields.
