Seventeen New Members Join College Faculty

Seventeen new members have been added to the Madison College faculty for the term 1947-48, announces Dr. Samuel P. Duke.

Three members have been appointed to the college physical education department. Miss Luellen Bowles, who received her M.A. degree from the State University of Iowa will serve as an associate professor. Miss Bowles was formerly health education director at the WVCA in Yonkers, New York.

Miss Janet M. Shaffer, from Ft. Pierce, Florida, who holds a M.A. degree from the University of Iowa, and Miss Adele Celeste Uhler, former assistant professor of biology at Duke University, announced that they plan to bring their scientific knowledge to the Madison College faculty. Miss Shaffer has a Ph.D. degree from Columbia University.

Also serving as an associate professor of biology will be Mr. Stephen C. Bosley, a graduate instructor from Teachers College, Columbia, who holds a M.S. degree from the University of Notre Dame.

Paint To Teach Bible

Rev. W. Conrad Blackwell, pastor of the Madison Methodist Church, and professor of Bible, from Ashby and Spotswood dormitories, announced that the work now being completed on the college has brought the Ashby and Spotswood dormitories into two-room, bath-equipped dormitories. By making the closets smaller and the rooms less deep, these rooms were converted into two-rooms, four-bed, connected suites. Each of the Jackson dormitories is painted a different shade, while the old dormitories have been left unpainted. Permanent steel and concrete fireproof fire escapes were constructed on each end of the building, and tile was laid on the corridors. Old and new students alike will note with interest the improvements made on the Madison campus. Dr. Samuel P. Duke, president.

Barter Theater To Give Play

Robert Porterfield's Barter Theater will present Shakespeare's "Twelfth Night" on Thursday evening, September 25, as the opening program for the year. The play is presented as a salute to Miss Helen Hayes, winner of the Drama League Award on Broadway. It introduces Jean Martzard, the State Theater of Virginia's leading lady. She comes from New York to portray Viola. The role of Sir Toby Belch will be played by Larry Gates, a former member of the distinguished New York company who revived the play in 1940.

"Twelfth Night" is the story of Viola as she is shipwrecked on the coast of Ellybia and, disguised as a boy, becomes a page to Duke Orsino. Even more complications result as Lady Olivia, also deceived by the disguise, falls in love with Viola.

The play is quite modern despite its 460th year, containing romance,repair, and "out" comedy and will be presented in two acts and eighteen scenes. Special music will be conducted by the Roanoke, Virginia Symphony Orchestra.

The Barter group will present two other plays "Importance of Being Earnest" and "Payment Deferred" on October 30 and March 11 respectively.

**Honesty—A Code We Cherish**

Established in the spring of 1946, the Honor Council has been an important part of our college life ever since. By pledging our loyalty to it, we have promised to make the three essentials of honesty—which are; refraining from lying, stealing and cheating—our basis for living.

One person cannot make the system fail, and neither can one person make it successful. It is the responsibility of each student at Madison to see that honesty becomes an integral part of college and community life. For students, faculty and our community will serve as a guide to direct us wisely in an ever-changing world.

**The Changing Scene**

Mincing daintily over a pot of fresh water greens, and tilting her long trailing skirts from contact with the builder's publish scattered over the floor, the Madison Girl of Long Ago (1913) was a bit of a puzzle. It is true that Madison women are often made to stand open-mouthed in amazement.

Cynthia, starring the lovely English actress, Elizabeth Taylor, will be shown Thursday and Friday, September 18-19. This is an amazing drama of an adolescent girl's first love affair and her first disappointment. Despite her doting parents (George Murphy and Mary Astor) she succeeds in all departments.

The remainder of the $100,000 spent on campus improvements can be found in work done in Ashby, Spotswood, the auditorium, sidewalks, and various painting jobs. The final touches must be added and the groundwork laid for an essential part of our college life ever since. Tree, the plans have been made and the groundwork laid for an important part of our college life ever since. Tree, the plans have been made and the groundwork laid for an essential part of our college life ever since.

Our rooms are homes for many of Madison's daughters for many years. Think of it in this light and there's no doubt in any of our minds but that you will be proud of and desire to keep them beautifully. Is this what you saw seen? It will be a beautiful question for years to come.—R. R.

---

**Let's Keep It This Way**

"Have you seen Jackson?" was the first question asked of old students when they arrived several days ago. This was the story of every man who watched lucky freshmen (the ones with applications dating at far back as two years) move into Jackson. The oldest dorm is now one of the very best.

With the purchase of the $100,000 spent on campus improvements can be found in work done in Ashby, Spotswood, the auditorium, sidewalks, and various painting jobs. The final touches must be added and the groundwork laid for an essential part of our college life ever since. **VIEWS OF THE NEWS**

*By Richard Cline*

Much news has developed on many national fronts since this column last reported. In fact, there are many battles just about to boil over, a number of which could scale this poop, beast- ing the glide through the atmosphere:

Perhaps the closest situation to us in the region of our pocketbook is the one in western Europe. Authorities report that the mother countries are far worse off than they were as last winter approached. The whole world is looking at communism and each nation has its own ideas about the right way to do things that they would not otherwise do. When communism offers a ball stomach and omnium-gatherum, we can't expect any of Western Europe to hold out to the sort of government we would approve if they knew the world were in sharp starvation.

These countries will collapse before the Marshall plan can ever get under way. We have a figure out some form of emergency aid and we're not talking about clothing and clothing now. This chaos seems to have sprung up suddenly, but it is due to the domestic incipient measures by the state Department as to the amount and type of aid needed to start putting Europe back on its feet. Moreover, the states may not need the money.

Trumbo Attends Y Conference

Eva Ann Trumbo, YWCA president, was Virginia’s sole representative at a national conference in Chicago for YW president. For five weeks she and 26 other students attended classes as a group at the University of Chicago’s Theological Seminary.

For their three courses personal, including one in Leadership Training, the representatives of 20 states received five credits. Included in discussion one of the most discussed main- themes—labor situation. At the latter discussion the noted Socialist,dry preacher, was a guest of YWCA’s Chicago office. The conference was the principal speaker.

Ann Young, one of the students included in the four settlement houses (of particular interest—Hill House), stock yards, and the Swift meat packing firm.

Taking off time from studies, the group attended seminars, concerts, lecture and music. Work also included living in a co-operative dormitory, where each person had a part in the work.

Freshman Named U S Radio Queen

In a ceremony held at the Hotel National in Washington, D.C., Friday, Mary Stuart Rhodes, a Madison student, was selected by United States Radio Queens for 1947. She was selected from a group of eight finalists, part of a larger group of radio Queens representing seven Southern cities entered in the competition.

The singing shamper represented the victory of Virginia and was the first time in VPI history that a female student had been selected as a radio queen.

Registration Helps

In selecting your courses for the year there are several things to remember:

Courses ending in the numbers 1, 2, 3 and 4, for example: Lat. 1-2, Sp. 1-2, P. E. 1-2, M.M. are year courses which one must complete before credit is given. Courses ending in the numbers 1, 6, 7, 8, are eight week courses, either semester of which may be taken either semester. For instance a student desiring S. S. 6 could take S. S. 1 one year and S. S. 6 the following year. Courses ending in the numbers 0 and 5, for example: H. E. 40 Ed., 60, B. E. 30) are semester courses only and are frequently repeated and given each semester.

Courses numbered F-34 are for freshmen; enrollments numbered 25-29 are for sophomores, 30-49 for juniors, 50-74 for seniors. See page 63 of the current college catalogue for information needed when student wishes to take courses more than one year removed from present classification.

Lists will be posted in Maury, Harrison and Reel Halls of the new courses in this year’s catalogue, and a comparison of them with the courses offered last year.

Students must have a rating of 155 to become a sophomore; 150 to be a junior; 140 to be a senior. Courses numbered 25-29 are semester courses only and are frequently repeated and given each semester.

Dr. John Russell To Talk At Convocation Exercises

Dr. John Dale Russell, Commissioner of Higher Education in the Office of Education will be the convocation speaker Wednesday, September 26, at noontimes Dr. S. F. Duke, president of Madison College.

Dr. Russell will also address the combined faculties of Madison, Bridge-
water, Shadyside and Eastern Mechan- ical colleges on Wednesday even- ing, after being entertained at a din- ner. The place of the meeting has not yet been decided.

The Athletic Association is looking forward to a big year—we hope to see everyone taking part. We do have one special request to make. Please take good care of your equipment. Like everything else, it is expensive and in addition to being expensive, it is easy to get lost. The equipment we buy lasts a long time if it is taken care of, so learn to use it correctly, handle it carefully, so when you return it to the proper place it will be in as good condition as when you took it out. Take pride in keeping it good—of your sports. Sports are much more fun when you have good equipment to play with—remember this—and our equipment will always be good.

This column is usually written for sports. But for this edition we just want to give you freshmen and transfer students our sincerest welcome. You're just waiting until everyone gets to feeling at home so we can begin making this new year one of fun and achievement that heretofore has never been equaled.

Right now, I imagine you are slightly confused, but all of us who have been here before know exactly how you feel. We went through it ourselves. And one special request to make. Please, please, please have FIVE-HUNDRED student writers, and sobbing because he does not have FIVE-HUNDRED tennis rackets be saved for the fateful day... Please, please, please. We all hope this will pass mighty fast and before you realize it, things are much better.

**Mademoiselle Plans Contest For Girls To Act On Board**

For the eleventh year Mademoiselle, The Magazine for Smart Young Women, has asked college women throughout the United States to try out for the magazine's College Board. The twenty outstanding members of the College Board, after submitting three assignments throughout the school year, become Guest Editors, work in Mill's New York offices for the months of June, 1948, and have the opportunity to contribute in many different fields to a professional magazine.

Last year, two Mademoiselles, Betty Blyden, then a Sophomore, and Ginni Wislow, then a Junior, were chosen for the College Board. The Madison girl this year is a Guest Editor—could she be yours?

Contest rules will be posted in several convenient locations over the campus, so that interested students are assured of correct applications.
