Why Not?

With the recent decision by the State to lower the number of required hours in education courses, many Madison students heaved a sigh of relief. However, since there is no requirement for the instilling in them a true feeling for the subject being studied and toward guiding him in his enjoyment of gaining this knowledge both in and out of the classroom.

The other face is turned toward the subject. The book is the supreme word, and facts rule. The students are supposed to be pouring in by the instructor and expected to be able to reproduce them. This brings to mind a more serious fault in Madison requirements.

Today's Prayer

Our Father and God, we thank Thee for Thy blessing and keeping power, for Thy grace unto us, and for Thy free gift of faith through Jesus Christ.

May we sing of Thy Holy Spirit enter our hearts and enrich our lives. Grant us some new vision of Thee.

Forgive us the things we do not do for you, our poor, our Lord. Forgive our weakness. Thy will be done.

Dean Willkins Plays Hostess To Duck

by Bobbi Gentry

If you were on campus Friday afternoon you may have seen our two visitors from the University of Richmond. Two pledges of Sigma Phi Epsilon, Tommy Pate and George McGlynn, arrived in order to give us "Half Hall" on Saturday, were asked to pay Madison a visit.

The "duck" is one of the best at Madison. It has a low key. The group will sing on campus with a duck of its own, and will enter other small small groups. They had to catch the duck on the lake at the University and bring it up here to show to Dean Willkins and return it to Richmond in the fall.

Richmond Offers You Summer Opportunities

Have you made plans for this summer? Why not come to Richmond? You will find lots of interesting jobs, exciting activities and an exciting social life...

Three Madison alumnae would like to interest you in taking over their apartment for June, July and August. One of the girls would like to stay there this summer and share it with another; however, we will consider turning it over completely if you are interested.

The apartment is in Tinsman Villa, 503 North Boulevard, very conveniently located. It has a living room, three bedrooms (with TV), a kitchen and ample closet space. We have it completely furnished—if you don't object to sharing the room. Time has passed each other on leaving college prior to Garden chairs in the den.

Mainly Men

by Larry Bohmert

One of the few co-educational organizations on the Campus is a subject of much conversation since the all-male chorus turned out an enjoyable program judging from the comments of both faculty and students.

Although the group has been well received in and around the community wherever they sing. The group performs throughout the school year for club banquets, "ladies night" dinners at The Breeze, and other campus events.

The "Mad" have expanded their music literature from singing strictly English madrigals to doing novelty, light and popular music, too. The size of the Madrigal Singers is capable of doing novelties...
Ingenious (?) Ideas Instigate New Fads From Around The World
by Bobbi Gentry
Want to start a new fad? Then take a look at some of the ingenious (?) ideas from colleges around the world.

If you’re in love and want everyone to know, put a spot of lipstick on the tip of the lobe of your ear. You will be a big hit in Latin America.

When someone asks you if you and your boy friend are “Jack and Jilling” your name and phone number, you can almost always tell just by the ear you’re being addressed to.

In Cedar Rapids, Iowa, girls borrow or beg expensive-looking earrings and then sew them on their own possessions. Of course, everyone who sees them that they are just pretending.

Girls, if you want to get into circumspectness, paint your name and phone number stamped on your pencils, fix them on boxes, hand them out there—preferably to strangers.

For those girls who are experts at painting fingernails, try this. Strip each nail three different colors, than another in the middle and a third at the tip. Send your dance momentos and label them with this. Take the ring from the corsages and put them in boxes. Then paste under each pin a tag with the name, date, and place of the dance and other pertinent information.

Fix up some food packages, send them to your boy friends, and label them “Care Packages.” If you want to torment him, send some of your clothes home or make them for events where you’re supposed to wear what you wouldn’t be seen in.

In order to be included in this feature, you must have a name of your escort, date of the event and remember to have your IQ!

Fix up some tags with your character’s name and phone number stamped on them. Then stick on the tip of the lobe of your ear. You will be a big hit in the Art Festival.

She is an active member of the Glee Club, holding the positions of student director and vice-president, Delta Phi Pi, Disquasion Club, Alpha Sigma Tau social sorority, and she is a class vice-president.

Ann Are, daughter of the Reverend and Mrs. L. A. Wertz, hails from West Columbia, South Carolina and is a senior major in music education. She is an active member of the Glee Club, holding the positions of student director and vice-president, Delta Phi Pi, Disquasion Club, Alpha Sigma Tau social sorority and she is a class vice-president.
