Hello! Glad You’ve Come

Madison Adds Faculty Members Filling Vacancies in Departments

"Many new faces will be seen on the Madison College faculty when the fiftieth session formally begins September 26," said Dr. G. Tyler Miller, President. There will be eleven replacements and fifteen new positions, including ten on the faculty in the Art Department and acting chairman of the Art Department. He was born in Albany, Texas and is married.

Miss Nancy Margaret Warlow joins the Madison College faculty as an exchange teacher from England. She will replace Miss Frances Grove at the Madison College Art Department who will serve as an exchange teacher in England next session. Miss Warlow is a Graduate of Cardiff College and was awarded the National Diploma in Design. She has been serving as teacher at the

Mr. Kenneth Williams, Assistant Professor of Mathematics, received the degree of Bachelor of Arts and Master of Arts at the University of Virginia.

Mr. Jack L. Hardr, Assistant Professor of Mathematics, received the degree of Bachelor of Arts at George-town College and Master of Science at the University of Kentucky.

Miss Marilyn Crawford, Assistant Professor of Physical Education, was awarded the degree of Bachelor of Arts at the Woman's College of the State University of North Carolina, and Master of Arts at the University of the State at Buffalo.

Miss Patricia Jones, instructor in physical education, received a Bachelor of Science degree at Bowling Green State University and is presently doing graduate work.

Mr. Henry L. Bellady, A.B., A.M., Associate Professor of Philosophy, received the degree of Bachelor of Arts, American Civilization and Eastern Hemisphere Studies at the University of Illinois.

Mr. Charles M. Blair will be Assistant Professor, Supervising Teacher in the Sixth Grade.

Assembly System Features Changes

by Pat Davies

In the past, the assembly system has been a source of misunderstanding for both freshmen and upperclassmen. Previously, all students, with the exception of waitresses and student teachers with teaching experience, have been required to attend assemblies on every first and third Monday and every Wednesday. However, all students were allowed two absences on a Monday and two on a Wednesday assemblies. All students were required to attend the ‘compulsory’ assemblies on both Monday and Wednesday. Those who were not present at the assembly were marked absent.

This year the assembly system has been revised and greatly improved. Monday assemblies have been deleted. Now we are required to attend an assembly on only one day of the week. There will be no roll call as in previous years. Each visiting instructor will be on his honor to attend these assemblies and the source of his absence is discussed. The Monday assemblies were deleted and their place is discussed. The Monday assemblies were deleted and their place is discussed.

The system has been changed for our own benefit and it is only right that we make the most of this improvement. We are on our honor to uphold and strengthen Madison College's tradition of honesty in all things.

Notice

Due to all the previously planned, Madison College will not be al lowed to leave campus on Sunday evening. This allows no ex ceptional

Dear Pencil Pal . . .

I have arrived at school; my room is nice and I think I will like it very much. My roommate is named Patricia Ann Nicholas. I met her the other night, she in-

vited a lot of her friends over for a party. I was so excited and asked if I could help her. We had a wonderful time and I had the biggest job of all for her — she and I must carry all the coke bottles to 

the room without help. So you can see that the really big thing is at long last someone has recog- 

nized my sense of responsibility.

I am trying to think of a way to let her know how much I appreciate her help. Do you think it 

is a good idea? I will let you know; my roommate says that you are a wonderful person. I am 

sure you will enjoy your roommate.

In case you are wondering, I am a music major; I am quite interested in music and I am going to 

try as hard as I can to make it a part of my life. If you have any questions, extend your understanding and above all always 

be sincere in your meaning.

Congratulations on your roommate — your roommate in Madison. Whatever your roommate is your roommate in Madison. You will love it, too.

So This Is College — It's a Great Life

by Patricia Ann Nicholas

When the car is paged and you ask good by To a mother in red dress in front of your house With, "Why, dear, it's typical COL- 

TAGE."

You will find at Madison there are always many people to help and your first look leaves much to 

so. You can find no one who seems to 

know your work is never done. Your Senior Counselors are assigned to you for the purpose 

of giving aid in any way possible. Take advantage of them — ask questions no matter how silly they seem for it is always good to question when something is not clear. You are expected to ask questions.

By Thursday, when the rest of the student body returns they should find a freshman class that is well informed and one that has taken advantage of the opportunities that have been given them.

I'm sure they will.

May I say that being a freshman is a wonderful experience. No one ever seems to forget that very first year at college. Many things will happen during these next four years and you will build 

the foundation for the college that you will one day call your own. Many of these things may be part of your college life. Too many of us leave God out of our families when we come to college. There is no place on this campus where both you and God are not accepted and welcomed.

This coming week will be spent in preparing you to make and accept the decisions you will be called upon to make. As you begin to live your college life, you will need help to make it what it shall become. It is not only your college but your home for nine months out of the next four years of your life. Most of us have grown to love it all its traditions. I know, as that you would be the same way.
Dean of Freshmen Gives Helpful Hints

Looking over the compiled list of incoming freshmen and transfers are Dean of Freshmen College: Madison

A genuine welcome is extended to all of you as you enter the portals of Madison College this year. The year 1958-59 is an eventful year in the life of Madison. Many significant events have occurred in the past fifteen years of service by this institution to the citizens of the Commonwealth of Virginia will have been completed." During the first half-century of its existence, Madison has made many contributions to education in this State. Its future contributions will be largely dependent upon you, the student body of 1958-59; upon those other students bodies which follow you. You have the opportunity to add further lustre to the accomplishments of those who have preceded you. I have faith that you will measure up to our expectations for you in the challenging future which lies ahead.

My very best wishes are extended to students returning to Madison this year. I urge you also to all new students as we welcome you into our growing Madison College family. It appears that the incoming Freshman class is the largest ever to be admitted to Madison. While we can justifiably take pride in members, let us remember always that any true evaluation must be based upon one's progress and contributions rather than on quantities in which one achieves. Always bear in mind that the quality of your performance and the manner in which your contributions will depend largely upon your own endeavors.

During the orienting period there will be many opportunities to learn about the College and to become acquainted with students, faculty and other members of the administrative staff. You will receive much helpful advice and information from your resident advisors, senior counselors, and student leaders who have returned early especially to welcome you, render assistance, and make you feel at home on our campus. Madison College is a school where you can find the advantages of these opportunities in the fullest measure.

All of us of the administrative staff and faculty look forward to the opportunity of serving you. If at any time we can be of help, please do not hesitate to call upon us;

G. Tyler Miller, President

Dean of Students

Dean of Freshmen Women

Dear Freshmen and Transfers:

Welcome to our campus! You will be glad to find our campus a friendly place, for Madison has, and prides itself on, a reputation for friendliness. Although you may find varying degrees of "the rosettes," you will soon know "the ropes," and you can feel that you are a part of our Madison family.

As you begin your Madison career, I work for each of you a happy, rewarding college experience. I hope that you will explore new fields, find a place in the social, cultural, and religious life of Madison and of Harrisonburg. I hope that you will acquire and develop an insatiable intellectual curiosity, for all of you must have that you are in college.

Please come in to see me and be he help you in any way that I can.

Sincerely yours,

Ruth Jones Whitley
Dean of Women

Dean Warren Greets Class of '62 Students

Convocation Ceremony Opens Fiftieth Year

On October 1, 1958, in Wilson auditorium at 12:30 noon, the fiftieth year of Madison College's existence will officially open with the formal service of Convocation.

As is the tradition at Madison, the Commencement and Senior Promenade processions led by the administration and faculty followed by the classes of 1957-58 will mark the first official appearance of the Senior Class of 1958.

For the benefit of the Senior Class, it may prove helpful to review the proper manner of wearing the academic attire. According to Amy Van Buren, an expert on mannerisms, and in the thought of the front right corner of the cap. Upon receiving the Bathrobe the Master's Degree the front left corner; the Master's Degree back left corner; Doctor's Degree back right corner. The Master's Degree, the Doctor's Degree, the Bachelor's Degree, and rings that are worn habitually can be worn in academic attire. Girls, however, may wear their wedding rings.

In recent years several mistakes have been made by Madison under graduates who have already graduated as Madison seniors.

The sooner you are conversant with the general program of Madison, the sooner you will become a happy and effective member of the College community.

It is suggested that you take full advantage of the opportunities available to you to acquire all the information you can about your College - its traditions, programs of study, student government, honor societies, and campus activities.

Minister Entertainnents

Madison's Methodist students will be entertained by the Reverend and Mrs. James Turner at a Millennial Hour in the Methodist Church on Saturday, March 20, 6:30 p.m. - 9:00 p.m. The Reverend Turner is the minister of the Assemblies of God Church in Harrisonburg.

Three Pencils

The pencils have been sharpened, the ditty-papers bashed up, THE BREEZE, and the old coffee urns cleaned and the general operation "springing up" on the campus have taken place. The Breeze staff has returned with loads of new ideas, and we are ready for the coming year.

As we meet new people and great old friends, we wish to extend our warmest greetings and say, "Welcome to our campus!" Our family is nothing but a new start. Each year in September we find ourselves involved in experiences that occurred during the previous year. Soon we find that we have finished" the last exams, and the fall semester and our summer becomes a time to relax. It is at these times we begin looking ahead to the coming year and making plans, resolutions and ambitions.

When we find that we have reached this point, we feel that the old and important things we have involved. We are asking that when you read this, let us know your views by writing your editor. In this way we hope to cover all the events of the year and feel that all the students will be able to join in the fun.

Dean of Freshmen

Dear Freshmen:

Welcome to our campus! You will be glad to find our campus a friendly place, for Madison has, and prides itself on, a reputation for friendliness. Although you may find varying degrees of "the rosettes," you will soon know "the ropes," and you can feel that you are a part of our Madison family.

What'll They Look Like

Freshmen Bewildered

Gee, what'll they look like?

How will they be?

Will they be tall?

Will they be short?

Will they be fat?

Will they be slimmer?

Will they be brown?

Will they be blond?

Will they be beautiful?

Will they be lovely?

Will they be smart?

Will they be friendly?

Will they be selfish?

What'll they talk like?

What'll They Look Like

Breeze Goes Out

So Does Staff

The Dean isn't the first one to arrive at Madison. Just ask any member of the administrative staff and they'll tell you.

Before there is any sign of life on Madison's campus a group of ten or so girls can be seen -if one looks carefully near the Logan, the site of the Breeze room, because the temporary site is established. These girls are happy, like a person who just lost their job and have just come back to the routine of college life in the warm, sunny week tied to typewriters. They are busy. They have the need to get to know each of you individually. They have the need to know each of you individually. They are members of the Breeze staff and they'll arrive at Madison. Just ask any other member of the administrative staff. They have been made by Madison under various circumstances. The sooner you are conversant with the general program of Madison, the sooner you will become a happy and effective member of the College community.

It is suggested that you take full advantage of the opportunities available to you to acquire all the information you can about your College - its traditions, programs of study, student government, honor societies, and campus activities.

The sooner you are conversant with the general program of Madison, the sooner you will become a happy and effective member of the College community.

It is further suggested that you plan regular study hours immediately. Arrive to devote a certain amount of time each day to study. This is done you will find that you will accomplish much.

I hope very much to have the pleasure of talking with each of you in the near future. In the meantime, you may help by coming to me in my office at Wilson Hall.

Sincerely yours,

Percy H. Warren
Dean of Students

Minister Entertainments

What Is Madison

What is Madison College to me?
A name, a school, the seal you see,
A certain word, "Democracy."
What is Madison College to me?

The place I study,
The classmate at my side,
The classroom or the ballroom
Where my friends have laughed and cried.
The "howdy" and the handshake,
The air of feeling free;
The right to speak my mind out—
That's Madison College to me.

The hall I live in,
A plot of earth, a street,
President Miller, Dean Warren,
And the People that I meet;
The students crossing campus,
The faces that I see;
All groups, all religions—
That's Madison College to me.

The things I see about me,
The big things and the small—
Doc's down on the corner,
And our spacious Wayland Hall;
The gym class and exam time,
Phones ringing in your ears;
The dream that's been a-growin'
For fifty long years.

What is Madison College to me?
A name, a school, the seal you see,
A certain word, "Democracy."
What is Madison College to me?
The rush to breakfast,  
The ten of eight bell too soon;  
The grey stones in a rain storm,  
Or the tea room at noon,  
The mobils and abstracts,  
The million tasks I see,  
But especially the people—  
That's Madison College to me.

The Wilson tower,  
The bust of Dr. Dingledine,  
A maze of dark gray streets,  
A faculty-student tea;  
Rush Campus in Springtime,  
An empty coke machine;  
A weekend midnight curfew—  
That's what Madison College means.

The words of Dr. Mengebier,  
Of Boje and all;  
Dr. Smith at meetings  
Speaks of Democratic Law;  
The choir sings in Wilson,  
There's a holiday at hand;  
We evacuate the campus  
In one exultant band.

The room I live in  
The folks across the track.  
The people who just came here  
And from generations back;  
The men who bring the laundry,  
The others that I see,  
The men who built this college—  
That's Madison College to me.

Raincoats worn each day,  
A walk around the "quad";  
A school of health and beauty  
No other can compare;  
Our source of education  
A school of fancy fees,  
And a promise for tomorrow—  
That's Madison College to me.

Taken from Anna Bulf Praygo's,  
"What's Woman's College".

Y.W.C.A. Stimulates Your Spiritual Life

by Pat Davis

The Major Organizations on Madison’s campus are the backbone of student activity and co-operation. The planning and organization of these three groups are done in Alumnae Hall and Logan Hall.

The Y.W.C.A. room is located on the second floor of Alumnae Hall. It is the site of all spiritual programs and wide variety of small activities, which are done there.

The Student Government Association room is also on the second floor of Alumnae. The Student Council is the result of our own self-government and depends on the interest of the individual.

The Honor Council, which has been established for the purpose of preserving and promoting the ideals of truth and honesty, also meets on the second floor of Alumnae Hall.

A student newspaper publication, THE BREEZE, has its headquarters in the basement of Logan Hall. It is an informative entertaining medium through which the voice of the student is heard.

Madison’s yearbook, the Schoolmate, is produced by the faculty students on our campus, and the upperclassmen in the basement of Logan Hall. It is an informative entertaining medium through which the voice of the student is heard.

Y.W.C.A.
A Welcome Comes From Greek World

Greetings Freshmen and Transfers. The Athletic Association expresses to you a most cordial and warm welcome to Madison College and into our organization of which you are now a member.

There are several reasons why we are happy to tell you of our existence, our purposes, and our activities. It is our hope that you will take advantage of these opportunities that will make Panhellenic a part of your college life.

Comes From Greek

Jan Baldwin, Chairman
Panhellenic Council
Madison College, Friday, September 19, 1958

The Panhellenic Council consists of three representatives from each sorority on campus, as its main purpose is to maintain a high plane of sorority life and inter-sorority relationship to cooperate with college authorities in their effort to maintain high social and scholarship standards throughout the whole college, and to be a forum for the discussion of questions of interest to the college and sorority world.

At present, Madison boasts six national and one local sorority. In order to be eligible for any one of these sororities, a student must have attended Madison for two regular semesters or in the case of transfers, two semester, and maintain a 2.06 cumulative as well as a 2.00 average for the preceding semester.

In order that you will have the opportunity to become acquainted with each individual group and its members, Open Houses are held each Saturday night at the sorority houses. A non-sorority girl, including freshmen, are invited from the invitation of a sorority girl. These are not rush parties but get-togethers where you can get to know you and us.

Since Freshmen are not eligible for rush, certain rules must be followed by both sorority girls and non-sorority girls.

1. Freshmen may not give parties for, or attend parties given by sorority girls except for such occasions as graduation and Big Sister, Little Sitter Night. The same rules apply to giving and receiving gifts. Gifts may be given and received on these same occasions and for Christmas or birthdays.

2. Sorority girls may not number non-sorority girls to excess in walking to town or attending campus activities.

3. Non-sorority girls may not spend the night in sorority houses or vice versa except in the case of blood sisters.

I hope that this explanation will help you have a better understanding of our-Panhellenic group. If you have any questions please feel free to call on us at any time.

We are looking forward to our association with you and hope that you will make Panhellenic a part of your college life.

Sincerely,
Jan Baldwin, Chairman
Panhellenic Council

What's New

In Stu-Gu

This is YOUR column—the Student Government Association column—and you are the S.G.A. It needs your help, your support, your contributions. Through this small space, we the members of your Student Council hope to tell you of our projects, plans, opinions and most of all, we hope to answer any questions you may have concerning our student life here at Madison and the operations of our Student Government.

No club, no organization, no government can be successful and prosperous unless all its members are INFORMED. As a member of a sound Student Government Association, you have the right to know what is happening. You have the right to ask questions, to make comments, to offer suggestions for the betterment of our student life. Please exercise this right. Send your questions to Box 1 and we promise to do our best in answering them.

To each incoming freshman and transfer, we extend a sincere welcome. To the new Class, we will elect your representatives near future when you, the Freshmen, will have completed your first semester. We look forward to the day in the near future when you, the Freshman Class, will elect your representatives to the Student Council. To the new and old students alike, we offer our best to live up to the trust you have placed in us—to work ever for the ideals each of us holds so dear.

Six Major Leaders Assume New Duty

by Di Boat

Leaders of the six major organizations of Madison will have an additional duty beginning this year. As heads of these organizations, they will be members, thus, representatives of the newly formed Organizational Council.

The Organizational Council will act as an affiliating club for the Student Council, the Honor Council, the Madison Athletic Association, the BREEZE, and the Schoolmen. It's purpose is to plan and co-ordinate their functional activities.

Each individual student is urged to bring any problem concerning these organizations to a member of this committee. Any situation which can be aided by the Organizational Council will be discussed, and necessary and helpful action taken.

The forming of the council is the result of a suggestion from the BREEZE. No official meetings will be held in the council. The representatives will meet once a month.

Self-Torture Habits Of Today's Female
by Linda Hess

And they shudder when they hear about the Africans who cut designs in their skulls. Make a three-hundred-sixty-degree turn, ladies, and you'll find a similar situation. The dressing room of today's up-to-date woman is a small, compact and thoroughly furnished torture chamber.

The many peculiar self-torture habits of modern American womanhood are too numerous to discuss in detail. Here, briefly, are just a few.

They cram their feet into tiny slippers, with their toes out of the floor and their heels suspended three and a half inches above. They hang heavy ornaments from their wrists, ears, and necks, excluding only their meticulously powdered noses. Let us hope that for at least a short while they will remain thus distinguished from cows and camels, who are well known for the rings that hang from their noses.

They spend hours on end working on their hair. I often marvel that their heads do not collapse. Considering all the pins, needles, and combs that they meticulously dig into their straights, it seems a wonder that their skulls (wholly must be extremely thick) somehow remain intact.

Now they make their faces shovel-shaped, their cheeks pink, their mouths red, their brows black, and their eyelids blue or green, depending on their eyes. Their scalps, it seems a wonder that their heads do not collapse. Concerning the many peculiar, self-torture habits of modern American womanhood—after squeezing and pinching their brows black, and their eyelids blue or green, depending on their eyes—our ure—after squeezing and pinching their skulls (which must be extremely strong) by Linda Hess

Harrriet Harnsberger
Dear Students,
Again you read and hear the phrase, "Welcome to Madison," and this time, as with each other, it is meant sincerely. I am so happy you will be a fellow student and citizen of our college. For, not only have you chosen Madison a great opportunity to study and learn, but now to meet new people and have good times, but you have chosen to take on the responsibility of helping support our Honor System.

Every student at Madison is a member of this fine system and is expected, not only to abide by it—that's not enough, but to wholeheartedly uphold its ideals. The longer you attend Madison the more this will come to mean to you.

The Honor Council wants to help you learn more about our Honor System. So I am taking this opportunity to ask you, Freshmen and new students, and you also, old students, for your loyal and unwavering help in strengthening Madison's Honor System.

Every student at Madison is a member of this fine system and is expected, not only to abide by it—that's not enough, but to wholeheartedly uphold its ideals. The longer you attend Madison the more this will come to mean to you. Most sincerely,

Harrriet Harnsberger, President Honor Council

Helen Warren
To each student, new and old, I would like to extend a most sincere welcome. I look forward to our common work, as when we shall get to meet new friends and learn to know our old friends better.

A big year faces each of us—a year filled with opportunities and responsibilities. May we look to the old students, to the faculty, to our families and our friends, and most of all, to the Divine Being for strength, guidance, and courage to meet the challenges of our college living.

Already you, the new students, are becoming acquainted with our customs and traditions at Madison. As you learn the way of life here on campus, we sincerely hope that you will grow to love our college as we do.

Madison is now YOUR college. Serve her well and she will profit you greatly.

Now at the beginning of a new session, it is well for each of us old students to pause and renew our resolve that we might know, each day, to do our very best. In the mad rush of packing we sometimes forget the most important things that will be important after that first impression is made. In the mad rush of packing we sometimes forget the most important things that will be important after that first impression is made.

New Game Comes To College Campus

Upper Classmen Give Recommendation

I have a new game to play. It might be nice to try it and add it to the long list of games we are always playing in the dorms. It isn't a hard game; in fact, it's quite simple. It can be played anywhere and in any way. The rules are hard and the name of my game is, "I Like People.""In my game I find that I learn a great deal. I learn to practice patience, to exercise my judgment, to learn how to live and have happiness. Since I have come to Madison College I play this game all the time, and find that each day it brings me more happiness than the one before. I have found it to be a part of my college life more than I ever dreamed possible.

Let me explain into details let me explain that the only materials you'll need are an open mind, a genuine love for people and a little understanding. If you possess these, the rest will grow. If for some reason these materials are not available to you, you might try to find a chance of helping you until you obtain them. You might have all that I'll, need it, I'll continue.

The game is not divided into time periods. It can run for hours and often does. There is one player — you. You will never know the ultimate success of the game rests on your shoulders and a great deal of thought is required to keep the game a victorious one. Now that all the rules are explained, let me start!

Several times a day you might likely run into a trying situation. It seems there is a richest harvest in the dormitory or just anywhere. If it happens on a day that you are in a good mood it passes with a laugh, but if it occurs on a day that you are in a bad mood those few days you tend to become very upset and sometimes say or do things you later regret. When such an incident occurs again, try to strike the other person involved mean.

Schoolma'am Greets Freshmen

Students It Is Your Yearbook

Dear Freshmen:

It is always a thrill to see a new Freshman Class here with us at Madison. It is hard to know each of you individually here this first week of school, yet we need to be welcomed. Madison College welcomes you, the "Schoolma'am" is your school yearbook, a guide to the new students of Madison College; thus, we are anxious to know you as we will be working together.

Let me begin by telling you briefly about this publication. I find that every thousand schools publish yearbooks annually in the United States. These programs touch intimately the lives of millions of students, their parents and friends. The well-written and carefully edited yearbook records in enduring form the accomplishments of you, the student. It makes every student proud of his place in the school. So it is with the Schoolma'am.

A careful study of the modern yearbook reveals that it has four important functions. To fulfill these functions:

1. Be a memory book, a glorified family album, with pictures of present and past students and faculty members.
2. Tell a complete human history of Madison College, a record of past successes and failures.
3. Give worthwhile educational news to the students and faculty members.
4. Build good will for the school by giving a true and comprehensive picture of Madison College, an accomplished mission is trying to accomplish.

These four functions constitute our basic purpose... our work on the Schoolma'am.

We are especially proud this year to be publishing the fifteenth Schoolma'am. We will need your help. Members of you have probably worked on your high school yearbook staffs. Your experience will be most valuable to us. However, experience is not required to become a member of the staff. We have had such success in making it known to us if you wish to join our staff.

Again let me say that the Schoolma'am is your yearbook of Madison College. You are a student — it's your book.

Patricia Nicholas

Although you have heard this phrase many times there are no words that carry quite the same meaning as I'll say it, too ... WELCOME TO MADISON!

After you have been on campus a few weeks you will be well acquainted with your college newspaper, THE BREEZE. You will no doubt find yourself on Friday night sitting for the dorm door to open and the time of the papers as they are placed on the reception room floor. You will wonder and pick up and copy a scan the headlines, look at the picture and read the articles that catch your interest. Some of you will then go on your way not in anyway affected by what you have read. Others of you will make comments and may be even discuss what you have read. All of you at one time or another will use THE BREEZE as a reference without even realizing it as you say, "I read it somewhere, oh, you in THE BREEZE." It is your purpose in the paper to inform, entertain, and provide a medium through which you can develop talents and express your views. How can it provide an opportunity for you to develop your talents if you aren't willing to do the work? And how can you be expected to do the work for development?

THE BREEZE is here for your use and pleasure, so that you might enjoy it. THE BREEZE is not a refere- ence, but a work in progress. The staff works regularly every Tuesday and Thursday night, won't you drop in and volunteer your services as an editor, writer, or just to look around and let us get to know you and you us. We would love to have you at any time, you might find it at little exist- ing to see THE BREEZE being put together.

Patricia Nicholas, Editor-in-chief THE BREEZE

"Welcome to the Class of 1962!" This is a phrase that you, as freshmen, will be hearing quite a bit in the forthcoming weeks. However, I would like to take this opportunity to welcome you and hope that your freshman year is a memorable one.

Madison has a varied intramural and extramural program of which it is quite proud. This program affords every student an opportunity to participate in the sport of her choice. Some of the activities offered in the intramural program are dance, archery, volleyball, bowling, and swimming. Madison also has extramural teams in field hockey, basketball, archery, tennis, and fencing. These teams are naturally for the more experienced player. Everyone who has had some experience is urged to come out and try their hand.

The first sport of the fall season is field hockey. This is one of the most popular sports on Madison’s campus. Each and every one is not only eligible to try out for the first or second team, but is urged to do so. Seniority is no basis for a berth on the squad, so freshmen come out and participate. There will be further notices concerning try-out dates.

A welcome is also extended to the new members of the physical education staff. We are glad to have you aboard and will be looking forward to meeting you.

To you upperclassmen welcome back. I hope that your summer was a successful one and that you are now ready to spend a few months at Madison to rest up for your next vacation. Seriously, it is good to see you back. Although we miss those memories of Madison, it is quite proud. This program affords every student an opportunity to participate in the sport of her choice. Some of the activities offered in the intramural program are dance, archery, volleyball, bowling, and swimming. Madison also has extramural teams in field hockey, basketball, archery, tennis, and fencing. These teams are naturally for the more experienced player. Chuck Wagon Party Offers Fun For All
One of the highlights of freshman orientation is the Chuck Wagon party. This annual event is sponsored by the Athletic Association for the purpose of familiarizing you with the activities offered by the A.A. and more important to afford you the first opportunity to meet other members of your class on an informal basis.

This Wednesday at 5:30, the Athletic Association will be looking for you back campus. Everyone will be looking forward to an evening full of good food and fun. By the way wear Bermudas or slacks.

Don’t Panic
Be Prepared
by Carole Dunaway

Have you ever felt tired, run down, or had achy muscles? Well try GERI—Whops, wrong line!

You have never had this wonderful, relaxing feeling you say? Well BE PREPARED you soon will! On Madison’s campus as a Freshman, you will know it thus association with the body mechanics tests. Really, the tests don’t leave you physically unable but you are on your way to physical destruction.

First of all, you find out that you are to report to a certain place at a given time. Fine you think, NO LINES. You are right just mass confusion!

You are finally pushed to the door—automatically make your stomach churn! Like I said nothing to upset about, just much torture.

Upon entering the room the examiner asks you to remove your outer garments — Oh, you may leave THOSE on. “Stomach in, chest out, head up, chin down”—Is this the Marines? Oh dear, I didn’t realize that you too have a backbone when you address a freshman. It could be any harder. They stagger to their rooms andcollapse on their beds. When the time comes to go to the next class, they find that they can’t get up, without help from their classmates and a few other people. Also they will complain of blistered feet or of splinters in their feet.

Don’t push the panic button as it is not a serious or permanent illness. They are suffering from modern disease. This is an activity which discovers muscles that you never knew you had before.

After eight weeks of twisting, turning, bending, twirling, leaping, jumping and generally behaving like a complete idiot they are ready for one of the biggest moments of their life! They now are given a rare opportunity to demonstrate their skill in the art of interpretive dance to the public.

At the end of each period of instruction, the modern dance students participate in a dance demonstration to which the entire student body is invited. Needless to say, this is a most memorable occasion.

The Fine Art Of Interpretive Dance Tests Physical And Creative Ability
by Ellen Adkin

A freshman is exposed to many new and different things at college, and one of the strangest of these is modern dance. So many of you will see some of your classmates limping across campus and desperately trying to drag themselves up the stairs to their rooms. As they conquer step after step they are wondering if reaching the summit of Mt. Everest could be any harder. They stagger to their rooms and collapse on their beds. When the time comes to go to the next class, they find that they can’t get up, without help from their classmates and a few other people. Also they will complain of blistered feet or of splinters in their feet.

Don’t push the panic button as it is not a serious or permanent illness. They are suffering from modern disease. This is an activity which discovers muscles that you never knew you had before.

At the end of each period of instruction, the modern dance students participate in a dance demonstration to which the entire student body is invited. Needless to say, this is a most memorable occasion.

Serious modern dance can be a great deal of fun. It is indeed a test of one’s creative ability. Also the bare minstrels soon are no longer present, or else they are ignored. Good luck and have fun!
