**To Mother**

The first woman in our lives, the first to understand our cries and rush to our sides, the very first to love and care for us—yes, all these phrases and many more, describe that grand person we are honoring on Mother’s Day.

Most of us don’t have to look too far back in the past to recall the times we were ill and Mother administered, sometimes forcibly, the prescribed care. Rememberer who gave us the medicine at four hour intervals—always with a loving smile on her face. Were we ever afraid that those small amounts she must have spent waiting for prescriptions to arrive from the drug store and for temperatures to go down—and how about the scores of times she got up in the night just to replace the same old dress which was once so pretty? Somehow we always felt we were doing Mother a great favor if we eat that spinach and drink that milk—so we would. Health was always a primary concern. As we got a little older, perhaps we thought, or think, it strange that she is never asleep when we get in. “Does she not trust us?” we said but this factor does not enter the situation at all. To know that all her household is well, safe and comfortable—at home—is the best of her ability. It would produce, through unity of purpose, a grand school spirit and a strong student government. Having proved our privileges in the right way. Why not try it?

“Long live May Day”

May Day means many thing things. It has been for centuries a festival celebrating the beginning of summer—a time for community rejoicing, singing, and dancing, a festival of flowers, pagan woodlands, and happy children frolicking among the trees. . . . More recently it has added significance by becoming, also, a day for liberals throughout the world—a time for demonstrating again and again the validity of the theory. There is that about the season which encourages men to associate its natural beauty with liberty for themselves—it was so in 1775; it has been again.

On our campus while the year’s student’s thought is culminating in ideas for developing a more liberal way of life, May Day can be a symbol of that liberal student thought. It is a balled tradition to which we must give our own meaning. To some it is a tribute to those who are graduating; to others it is a tribute to the loveliness here, and to yet others the year of success, the year of friendships. It may also gain meaning as a symbol for liberal college living, becoming more than a pretty festival for happy “children,” but coming to have a mature significance for us who enjoy it. Long live May Day, and those who have worked so hard to give us our spring festival!—I. M.

**LETTERS TO THE EDITOR**

With reference to The Breeze issue of April 30, 1948, I say “well done.”

For many years The Breeze has very honorably made its weekly report of the happenings at Madison in connection with student activities. This is a commendable feature and we are proud of and admire the work of the student newspaper committee and the student government. We think it would produce a considerable amount of heat. For, now that the final conference between road representatives and the unions has been held, the nation will be withoutyour egocentric self always looking for you. But to see that the roads are included in it, it is expected that the roadmen will be legal to issue to the railroad in an agreement.

But who can say what will happen? Watch for developments this week end. We cannot be surprised at what is to be done in the near future. The three unions are demanding a 55% increase in wages and changes in certain working conditions. It is a fact factoring board recommended 155 cents an hour wage raise, but the unions have rejected.

Now that the final conference between the railroad brothers and their employers is over, what will happen next? There are at least two possibilities. The President may call a special conference between the two big groups concerned, or Congress may make a hurried revision of the Taft-Hartley Act. It is also possible that the roads are included in it. In this event it will be for the railroad in an agreement.

Don’t be surprised to read in the news papers that the U. S. government has seized the railroad.

**Barns’ Recent Work Depicts Life In War**

by Rebecca Rogers

“There’s an arcade in Naples that they call the Galleria Umberto Prime. It’s a cross between a railroad station and a church.” And life on the Oregon coast. “Out of this and the talented John Horne Burns’ out- standing work, The Gallery. Here in the heart of the Second World War, a man is able to draw on this to person, from portrait to portrait, seeing them all, feeling all, understanding all and remembering all to bring back to us as fictitious characters. Mr. Burns’ gives a vivid, moving description of nine people married by war, but now realizing more than any one ever can, what life really is. With this completely individual and beautiful one would never dare to challenge him, makes the reader ashamed to say “the Americans are only interested in American and proud of it.” When you finish you find that because you, as an American, have been spared all the suffering, you have read and still understand those portraits and have been much inspired.

“Don’t read The Gallery if you’re de tropised to deny him and still say “America is always right.” But if you read The Gallery you will be able to get a better understanding of what life can be like, and understand how life can be made better, how life can be made good, how life can be made to be more like the social life of good life. **Health Service Warns Of Benzodiazepine Danger**

(Notes: Not yet because we think you're guilty, but just as a reminder now that exams are coming, we print this article)

The Health Service of the University of New Hampshire has called the attention of the student body to the very hazardous use of "Benzodiazepine Inhalers" during the recent exam period. What that is is by using "Benzodiazepines" to keep you awake during exam periods.

The Health Service warns that this is very dangerous, and that students should not attempt to do so.

Two-fold injury can result from such use. One is by the use of the inhaler, which can result in permanent, serious injury. If not used properly, "Benzodiazepine Inhalers" can result in permanent nervous and mental trouble.

The Standards Committee chairman shall have a cumulative average of 3.0 or better throughout the tenure of office.

Some Beautiful Babies Grow Into May Queens And Maids Of Honor

Peggy Hollis, our maid-of-honor, was born in Martinsburg, West Vir-

when we were little. We especially liked to play cops and robbers and Ides

and school and home.”

They both attended the neighborhood by holding solemn rat

out in front of the polls across the street

and waited to find out whether the ‘Democrats’ or the ‘Republicans’

were winning!”

Due to a guilty expression and a
