The day the music died?

Madisonians’ funding likely to be cut after 25 years

TINA MONTEFUSCO & ALLYSON HOFER

The Madisonians, which celebrated its 25th anniversary at JMU last weekend will lose their funding from JMU for next year.

President Linwood Rose at the graduation ceremony on May 8.

In addition, the Madisonians will cease to exist.

Several factors contributed to the decision to not continue funding the Madisonians, although one of the biggest reasons is the need to restructure, said Richard Whitman, dean of the College of Arts and Letters.

Two of the most important positions would need to be filled, he said, since Lauder will be relocating to New York with her husband. In addition, the Madisonians’ audio specialist, SMAD instructor John Fishell, may be returning to grad school.

“[The Madisonians] may not be as important today as it was five years ago,” Whitman said.

The Madisonians, JMU’s song and dance troupe, perform their 25th annual home show last weekend. It could be the troupe’s last show, as the College of Arts and Letters is likely to cut its funding.

The Madisonians do generate a recovery from their shows, Whitman said. However, the group has gone through many directorial changes, Whitman said. The intent was to make the job a part-time job.

However, Whitman said that in order to keep the Madisonians at a top level, the director job needed to be a full-time job. In order to hire a full-time director and a new audio crew, the Madisonians’ budget would have risen from the current budget of $14,000 a year to $100,000, Whitman said.

The additional funding would cover hiring a full-time faculty member with benefits, which accounts for about $50,000, bringing in an external sound crew, which accounts for about $20,000 and hiring someone to do the music in addition to the current budget, Whitman said.

The Madisonians do generate a recovery from their shows, Whitman said. However, the group has gone through many directorial changes, Whitman said. The intent was to make the job a part-time job.

The Madisonians do generate a recovery from their shows, Whitman said. However, the budget was not the only concern in the Madisonians decision.

“It’s not purely a matter of financing,” he said. “I don’t think [the budget] was a major issue in this. It’s a matter of successfully finding a staff.”

Whitman said there was no formal search for a new staff and he wasn’t sure how active an informal search may have been.

Hager to speak at graduation

Commencement ceremonies scheduled May 8 in stadium

TINA MONTEFUSCO & ALLYSON HOFER

South View fixes floor; residents move back in

ISA ROSE & TARA HAFER

The commencement speakers have been finalized for JMU’s graduation ceremony on May 8.

Virginia Lt. Gov. John Hager will be the guest speaker for the ceremony in Bridgeforth Stadium.

Hager will be introduced by JMU President Linwood Rose at the graduation ceremony.

He was chosen because he is well-known in Virginia and because he is the state’s second-highest elected official, Fred Hilton, director of media relations, said.

Gov. Jim Gilmore was the university’s first choice to speak at graduation. There’s no real solid pattern in how JMU goes about picking who speaks at graduation. However, he said the university doesn’t want to spend excessive amounts of money that’s usually needed to bring in a television personality or a celebrity. Political figures generally speak free of charge, Hilton said.

In addition to the guest speaker, each year a student speaker is chosen from the graduating class to speak at graduation. Ten seniors applied to speak.

Applications submitted a copy of their speeches and presented them to a panel of judges who rated each speaker’s presentation.

Applicants were given only one rule for their speeches: they could talk about anything they chose, but it could only be four minutes long.

Music major J.R. Snow received the highest point total from the judges and was told by SGA Vice President Collin Lee that he had been selected to be the student speaker. But following the announcement that Snow was chosen as the speaker, an entrant appealed the decision, claiming that Snow had exceeded the four-minute-time limit by several minutes, Lee said.

The SGA executive board met to decide whether or not time was a deciding factor in the selection of student speaker. The board decided to overturn the decision to have Snow speak at four minutes long.

“[The Madisonians] may not be as important today as it was five years ago,” Whitman said.

The Madisonians is a group of 16 men and women who sing and dance with an eight-piece band. The Madisonians’ funding is likely to be cut after 25 years.

## POLICE LOG

**STEVEN LANDRY**

Police reporter

Unidentified individuals allegedly stole a 21-speed GT Backwoods mountain bike valued at $700 from a bike rack at the west side of Zane Showker Hall on April 23 at 12:30 p.m.

The serial number of the bike is 5E603814 and its JMU registration number is 1672.

In other matters, campus police report the following:

**Grand Larceny**

- Unidentified individuals allegedly stole a brown cloth purse with a red stripe containing a wallet with numerous cards and $19 cash on April 23 at 11:30 a.m. on the Quad.
- Unidentified individuals allegedly entered a room in Garber Hall and stole two textbooks and a black leather wallet containing numerous cards on April 23 at 1:19 p.m.
- Unidentified individuals allegedly entered a room in Garber Hall and removed a brown leather wallet containing numerous cards on April 23 at 1:19 p.m.
- Unidentified individuals allegedly stole a black wallet with JMU letters on it in UREC on April 24 at 1:25 p.m.
- The wallet is valued at $400. A clear plastic storage box containing over 200 live recording cassettes of Phish concerts valued at $200 was also taken.

**Grand Larceny/Property Damage**

- Unidentified individuals allegedly broke into a vehicle by breaking the rear tailgate window on April 24 at 10:50 a.m. and removed a rare Diembe Remo decorative drum decorated with African symbols on the sides. The drum is valued at $400.

## DUKE DAYS EVENTS CALENDAR

### THURSDAY, APRIL 29

- Bible Study, 8:15 p.m., Wesley Foundation, 690 S. Mason St., call Ben at 434-3490
- EARTH ‘meeting, 5 p.m., Taylor 305, call Warren at 438-1210
- Fellowship and Praise, 5:30 p.m., Baptist Student Union, call 434-6822
- Fellowship Dinner, 5:30 p.m., Wesley Foundation, 690 S. Mason St., call Ben at 434-3490
- Folk Group Practice, 7:30 p.m., CCM House (1052 S. Main St.), sponsored by Catholic Campus Ministry, call Tom at 433-6428
- Lambda Rising meeting, 6:30 p.m., Maury G-1, call Daniel at 433-6411
- New Life Singers, 7 p.m., Wesley Foundation, 690 S. Mason St., call Ben at 434-3490
- Planetarium Show, 6 and 7 p.m., Miller 102
- UBP Public Relations/Marketing Committee, 5 p.m., Taylor 306, call Eunice at x1122
- Young Democratic Socialists meeting, 8 p.m., Taylor 302, call x2577

### FRIDAY, APRIL 30

- Bible Study, 7 p.m., Baptist Student Union, call 434-6822
- Exit 245 Spring Concert, featuring the Overtones and Blucstones, 8 p.m., Wilson Hall, $2, call Jason at x7207
- InterVarsity Large Group, 7 p.m., Miller 101, e-mail Sarah at waseersb@jmu.edu
- JMU Breakdancing Club, 6 p.m., UREC MAC room, e-mail Chris at rosentijl@jmu.edu

### SUNDAY, MAY 2

- Mass, 11 a.m. and 5 p.m., PC Ballroom, and 9 p.m., CCM House (1052 S. Main St.), sponsored by Catholic Campus Ministry, call Kelly at 801-0829

### WEDNESDAY, MAY 5

- Luncheon, 11 a.m. to 1 p.m., Bridgewater Church of the Brethren, to benefit Bridgewater Home Auxiliary Scholarship Fund, carry-out available, $4

## LOCATION

The Breeze is located in the lower level of Anthony-Seeger Hall.

### WEATHER

**FRIDAY:** Mostly cloudy, high 53°F, low 40°F

**SATURDAY:** Mostly cloudy, high 50°F, low 38°F

**SUNDAY:** Mostly cloudy, high 66°F, low 43°F

**MONDAY:** Partly Cloudy, high 72°F, low 44°F

## CORRECTION

Grafton-Stovall Theatre will not be showing “Patch Adams” and “Saving Private Ryan” for free today and tomorrow. Tickets for both movies are $2.

The Breeze regrets the error.
Enrollment increases with freshman class

ANIELA HAIN
staff writer

Despite overcrowding, enrollment at JMU will increase again next year as the university approaches its target student population of 15,000.

"This year we are looking for a class close to 3,000 students so we offered admission to 7,900 students," Roxie Shabazz, director of admissions, said. "We can expect 38 to 40 percent of those students to accept our offer and come to JMU."

In the next two years, enrollment numbers are expected to level off and the completion of the CEBAT campus buildings will provide a lot more instructional and living space for students, said Frank Doherty, director of institutional research. He said he expects to see a significant improvement in overcrowding.

"Yes, [JMU is] overcrowded right now," Doherty said. "But in the next few years, once the new buildings that are in the process of being constructed are finished, the overcrowding will be alleviated.

"Beginning the fall of 2000, we will cap the admission of new students to about 3,000 freshmen and 550 to 580 transfer students each year, figures that we have almost reached," Doherty said. "Our retention and graduate rates are stable enough that our enrollment size will become steady at those figures from then on."

All of the growth that has occurred thus far has been deliberate, and now the university has decided they have reached, enough, Doherty said.

However, several years ago the number of students who accepted admission to the university was not as high as today, and this has caused the application process to change in the manner that the admissions office by surprise.

According to the Aug. 29 1996 issue of The Breeze, "About 400 more than the admissions office expected accepted their admission into JMU this fall, Fred Hilton, director of media relations, said." Doherty said, "Nine or 10 years ago, JMU told the Virginia State Council that we felt our ideal admissions offer size should be 15,000 students. Once we reach our target size, we do not intend to grow beyond it."

"The Council of Higher Education of Virginia (CHEV) has been encouraging Virginia institutions of higher learning to increase their enrollment to accommodate the growing number of high school graduates and to wish to continue their education."

"The State Council has also put increased importance on technology-related jobs. With the addition of the CEBAT campus buildings, the university felt they could accommodate the rise in college applicants, and also provide programs for the demand of education in integrated sciences and health sciences."

"As a university, we have decided to do whatever the state needs us to by admitting more students into higher learning and also having the means to train more students in technology," Doherty said.

He said that the university does not have the resources and space to continue to grow once the CEBAT campus is complete.

"The state has already approved $800,000 for the plan because the state did not provide the funding that we need, but there will be additional faculty to aid in our growth," Doherty said.

According to the March 25 issue of The Breeze, "The university needs funding for about 100 new positions to bring students to faculty ratios to where they should be, a JMU administrator said last week."

"However, despite a budget increase of nearly $1 million to 2003, the university will be able to add new faculty to the QdAT campus buildings," Doherty said.

"Year to year the criteria is the same, however, the pull can be more competitive," Shabazz said.

"Our job is to find the best students to fill the spots in the upcoming class and to find the best students who will do well here at JMU," she said.

The admissions office looks at two major academic areas: criteria and personal qualities.

"In criteria, we are looking at the students who have had the program of study the student took, whether or not they were in the top courses their school offered and their grades in those courses," Shabazz said. "In personal qualities, we are looking for overall solid students with A's and B's, occasional C's.

"It is not just about the scores; it is about the student," Shabazz said.

"In the past five years, our applicant pool has been stronger by way of the competitive courses the students have taken. However, the class rank, GPA, and SAT scores from the applicants has remained about the same," Shabazz said.

"Despite overcrowding, enrollment has declined can be attributed to the recent enrollment of the scores the College Board made in 1995," Shabazz said.

"When I compare the SAT scores for the state together, and the SAT scores from '95 through '99, I see a flat rate," Shabazz said.

"But if you try to compare the scores across that gap, it's like comparing apples and oranges," she said.

"The rate and selectivity of the incoming students is based on the number of applications we receive and the students admitted, a figure that remains consistent," Shabazz said.

Doherty agreed that it is not getting easier to be accepted to the university, despite the increase in enrollment.

"The difference is in the past we had to turn away a number of quality students to keep our numbers down, whereas now we have more room to accept many more of these quality students," Doherty said.

Relay For Life to be held near 'Burg

LISON MANSER
senior writer

Helping to cure cancer is only a walk away next month as the American Cancer Society hosts two fundraising walks in the Harrisonburg area. Relay For Life is a "community celebration of life," and event that raises funds for the American Cancer Society while declaring that cancer can and will be beaten.

In May, two relays will be held in the Shenandoah and Bridgewater areas.

The event consists of teams of eight to 15 people who walk, run or wheelchair a track for a 24-hour period. One member of each team is on the track at all times.

Team members camp out when they're not participating and enjoy games, food, music and competitions throughout the event.

"We do a lot to keep ourselves entertained besides just walking around the track," said Adele Durost, co-chairperson of the Bridgewater Relay For Life.

"Prior to and during the event, teams collect donations to sponsor their participation. All proceeds from team donations and sales at the event are donated to the American Cancer Society."

"Teams sell luminaries to recognize cancer survivors or those who have died from cancer. Their purchase sends a $10 donation to the American Cancer Society."

"Luminaria are lit during the Luminaria Ceremony held at sundown. Hundreds of candles light the track. A moment of silence and spoken words follow."

"It's just awe-inspiring," Durost said. "Seeing the names on the bags as you walk by, each bag represents a person — it just hits you. It's very emotional."

"The second year as co-chair of the Bridgewater Relay for Life," Durost said. "Adela said Adele Durost, co-chairperson of the Bridgewater Relay For Life."

"The second year as co-chair of the Bridgewater Relay for Life," Durost said. "Adela said Adele Durost, co-chairperson of the Bridgewater Relay For Life."

"The second year as co-chair of the Bridgewater Relay for Life," Durost said. "Adela said Adele Durost, co-chairperson of the Bridgewater Relay For Life."

Durost is in her second year as co-chairperson of the Bridgewater Relay for Life. Last year, the fundraising goal was set at $60,000 and $60,000 had been raised. This year, the class rank, GPA, and SAT scores from the applicants has remained about the same," Shabazz said.

"We are looking for overall solid students with A's and B's, occasional C's.

"It is not just about the scores; we are looking for well-rounded students," he said.

In Brief

Alpha Kappa Psi awards student in tuition giveaway

On April 22, business fraternity Alpha Kappa Psi held a drawing for its first annual tuition raffle. Junior Math Chafin won $1,500 that will be applied to his tuition balance for the fall semester.

Yearbooks to be distributed next week

The Bluestone, JMU’s yearbook, will be distributed next week. Distribution will be held from 9 a.m. to 7 p.m. on the commons and outside of Zane Showker. Yearbooks are free with a JAC card. For more information, call Wendy or Leah at x6541.

SCHEV proposes block grants for higher education

The State Council of Higher Education of Virginia has proposed decen- tralizing funding for universities and colleges by introducing block grants. Under the proposal, the institution would receive a block grant every year based on its ability to meet certain performance standards, such as graduation and retention rates.

Gov. Jim Gilmore has appointed a higher education commission to study funding and the block grant proposal. Its report is due before the end of 1999.

Senior class president wins ‘Big Mouth’ contest

Three contestants talked till they were blue in the face at the “Big Mouth” Filibuster Competition that took place Sunday, April 25 in Graffon-Stovall Theatre. Chris Neff, senior class president, was the first place winner of the competition, sponsored by the Pre-Law society to raise money for Blue Ridge Legal Services. Neff spoke for three hours and 47 minutes.

Tanya Wade, the president of the Pre-Law society, said the three competitors raised over $100 for Blue Ridge, a nonprofit United Way agency that provides free legal services for qualified citizens. Most of the contestants’ sponsors were JMU faculty and students.

The topic for the contest was crime and punishment, and the participants could read books, speeches and notes to help them talk for as long as possible. The other two contestants were Rob Monehead, who came in second place, and Tom Finche, who came in third.

‘One Day’ video to go on sale

500 copies of 27-minute flick will be available at JMU Bookstore

ALYSON HOFER contributing writer

It can be One Day every day next Wednesday as One Day, One University videotapes go on sale at the JMU Bookstore.

The video will cost $15 each, with all proceeds going toward the One Day, One University SMAD Scholarship Fund.

John Woody, co-executive producer of the video, said 500 copies are being made for the first run and additional copies will be made if all 500 are sold.

The 27-minute video shows a day-in-the-life of JMU, with additional profiles of four students and JMU President Linwood Rose.

Woody said the final cut of the video is much like what students saw at the premiere at Graffon-Stovall April 8, but it's now ready for distribution.

“We re-edited it so now there is a story in it,” he said. “We wanted [the video] to be viewable to students, staff and professionals who had missed the sound and improved the quality of the animations.

“For $15 you get a great video with great quality. It’s fun to watch, too.”

John Woody co-executive producer

said if all the copies are sold then they will get additional copies.

Notices will be handed out at the Senior Pig Roast this Saturday to remind seniors about the video. There is a possibility that Woodie will be set up at graduation so students and parents have another opportunity to purchase the video, Woody said.

Special Olympics comes to JMU

KELLY TOBER contributing writer

Special people cause special events to happen and Sunday’s event at Bridgeforth Stadium certainly qualifies.

Celebrating 30 years of fun and games, under sunny skies and warm temperatures, Special Olympics of Virginia continued to expand the opportunity for residents all over the state to participate in a track meet.

The activities varied from running events to field events, including a pentathlon, which is a combination of five different events.

The purpose of Special Olympics is to give us the dream that people with mental retardation could be perceived and respected in the same way as everyone else.

This is the 25th year this event has been held in Bridgeforth Stadium at JMU. This year, more than 100 athletes from different areas participated and over 200 volunteers were present.

A majority of the athletes were elementary and middle-school aged, but people of all ages participated. The athletes were given plaques for their participation in the event.

Volunteers for the event included members of JMU Greek and service organizations and sports teams. The kinesiology department and Pi Epsilon Kappa and Kappa Psi played a major role in the success of the event.

Sophomore Dan Rettig, a member of PEK, said, “It’s been a really good time dealing with the athletes and watching them enjoy all of the activities.”

Sherry Hill, an original coordinator for the Special Olympics and a former JMU student, was very enthusiastic about the turnout for this year.

“When people join together to put on an event like this and experience it together, they get a warm, fuzzy feeling inside,” Hill said. “Every single person here will be changed because of what happens here today.”

Event Director and kinesiology professor Steve Carney was pleased and amazed with the small amount of stress the event caused. “The volunteers and athletes have been great,” Carney said. “They have made my job so much easier and enjoyable. I just make sure they did their parts.”

In order to gather participants for an event like this, schools all over Virginia are asked to ask for eager students. The participants are not limited to students however; people of all ages can sign up to be involved.

Deysi Dominguez, an 8th grader from Mark Twain middle school in Fairfax, was a participant in the event.

Although exhausted from running the 400 meter race, she said, “Today was fun.”

Like Dominguez, many of the athletes had smiles on their faces all day and were very excited about participating in the track meet.

Carney said, “It’s just a great event for the athletes, for the families, and for the students.”

Relay For Life aims to raise $75,000

RELAY, from page 3

The team members take the track for the third lap. For the next 24 hours, one of the members will be on the track at all times, said Donna Shafer-Ria, an office service specialist for the Honors Program. She is about to participate in her third Relay For Life.

Shafer-Ria is especially concerned with advancements in ovarian cancer prevention. After her mother-in-law, a cancer survivor, was diagnosed with ovarian cancer, she learned what a particularly deadly cancer this type is because there's no diagnostic test in the early stages.

“I would like to see the American Cancer Society develop a test to detect ovarian cancer before it becomes so advanced,” Shafer-Ria said.

Shafer-Ria has sent e-mails to all JMU honor students asking for their support. “The response was very good,” she said. Many students have purchased luminaries.

“We invite anyone who wants to come to join us,” she said.

Shafer-Ria is a member of her local church’s Relay For Life team. This year, the team is 45 members strong. Due to the growth, they have asked the National Guard to accommodate the team with tents.

Barbara Holler, a member of the Shenandoah American Cancer Society Board, has served on the board for eight years. Holler said last year the Shenandoah Relay For Life was number one in the nation per capita for money raised.

“We have a good time,” Holler said.

Those interested in purchasing luminaries for the Shenandoah Relay for Life can contact Jack Sperry at 877-3838.
CONGRATULATIONS

To The Class of 1999

You have met the challenge by raising $90,938 for the Reference Center of Carrier Library, the Academic Advising and Career Development Center, and the James Madison Center! These gifts will benefit all JMU students and will be a lasting legacy of the Class of 1999! Thanks to all who supported the 1999 Senior Class Challenge!

Many thanks to our sponsors:

US Airways, JMU Bookstore, ArtCarved, Professional Framing, JMU Annual Events, JMU Duke Club and JMU Alumni Association

Help us celebrate our success! All participants are invited to a private celebration at Main Street Bar & Grill on April 30 at 7 p.m.-9 p.m. (Be sure to bring your invitation and 2 ID’s)

It’s not too late to pledge to the Senior Class Challenge. Show your class pride and add your name to this list by calling x2825!
Graduation will go on as planned

GRADUATION, from page 1

graduation and announced that
the second highest scorer, senior
Brannen Edge, an SCOM major,
will be the student speaker at the
commencement ceremony, Lee
said.

Snow said he knew his speech
would run a little long, but figured
he hadn't mattered when Lee told
him he had been selected to
speak. When Snow practiced his
speech ahead of time, it had been
said.

Lee will be the student speaker at the

GRADUATION, from pag« 1

SGA President Tim Emry will
doing this with mixed
emotions," Edge said. "Yes, I
think it's a great honor, but I'm
not very pleased about how the
process was carried out from
beginning to end."

Vice President of Academic
Affairs Douglas Brown will presi-
side over the ceremony and Rose
will offer greetings and congratula-
tions to the Class of '99.

Seated on the platform with
the university deans, vice presi-
dents and speakers will be the
class's three valedictorians:
Tracey Pape, Elizabeth Harman
and Scott Brewer. Each main-
tained a 4.0 grade-point average.

Senior music major Julie Jor-
dan will lead the congregation in
singing the alma mater.

Tara Riley and Nelson Pham,
members of the Senior Class
Challenge steering committee,
are scheduled to present the class
gift.

Commencement ceremonies
begin in Bridgeforth Stadium on
May 8 at 10 a.m.

POLICE LOG, from page 9

Fraud in Use of False ID to
Obtain Alcohol
- Chad E. Davis, 19, of
Washington, D.C., was arrested
and charged with fraud in use of
false ID to obtain alcohol on
April 25 at 11:32 p.m. in Blue
Ridge Hall.

Possession of Operator's
License of Another
- Jennifer K. Carlisle, 20, of
Chesapeake, was arrested and
charged with possession of
another person's operator's
license on April 25 at 1 a.m. at
Bridgeforth Stadium.

Underage Possession of
Alcohol
- Chad E. Davis, 19, of
Washington, D.C., was arrested
and charged with underage
possession of alcohol on April 23
at 11:32 p.m. in Blue Ridge Hall.
- Christine Kaulfers, 20, of
Ramsey, N.J., was arrested and
charged with underage
possession of alcohol on April 23
at 11 p.m. on the north side of
Godwin Hall.
- Heather A. Bossi, 20, of
Charlottesville, was arrested and
charged with underage
possession of alcohol on April 24
at 4 a.m. on the sidewalk outside
of Taylor Down Under.
- Lawrence J. Anastasia, 18,
of Norwalk, Conn., was
arrested and charged with
underage possession of alcohol
on April 25 at 1 a.m. at
Bridgeforth Stadium.

Destruction of Personal
Property
- Unidentified individuals
allegedly stole a wallet and keys
from an unsecured and
untended locker in UREC on
April 25 between 4:30 and 5:30
p.m. The keys were later
recovered, but $25 cash and the
JAC card were not recovered.

Indecent Exposure/Obscene
Conduct
- William R. Register, 23, of
Alexandria, was arrested and
charged with indecent exposure
and obscene conduct on April 24
at 2:53 a.m. on the Quad.
- Christian Whitaker, 22, of
Herndon, was arrested and
charged with indecent exposure
and obscene conduct on April 24
at 2:53 a.m. on the Quad.

Fire Alarm/Tampering With
Smoke Detector
- A JMU student was judicially
charged with tampering with a
smoke detector on April 25 at
1:49 a.m. in Ikenberry Hall.

Number of parking tickets issued
between April 19 and April 26:
777

Number of drunk in public
charges since Aug. 27: 109

**What better way to Advertise than through the Breeze**

**To the concerned women of JMU:**

We wish to extend our sincerest apology for the offensive nature of our Greek Week Crest drawing. This should in no way suggest that we are not concerned and aware of the issues expressed in your letter of April 26th.

To demonstrate our sincerity, we have agreed to sponsor a fundraiser for CASA (Citizens Against Sexual Assault) in the fall. We hope you will work with us to make that event successful.

THE BROTHERS OF ΠΚΦ

Also valid for renewals

- Pedal on the level - no hills to climb or interstate to cross
- Only four blocks to campus
- Energy efficient heat pumps
- Miniblinds on all windows
- Stain resistant wall-to-wall carpeting
- Paved parking spaces
- Pre-wired for telephone
- Deadbolt locks and door viewers on all units
- No sliding patio doors
- Well-lit parking lots and walkways
- Convenient bus service to campus and the Valley Mall
- Full-time management and maintenance
- Basketball court
- Park at your apartment - not blocks away
- Exclusive NTC Communications Adelphia package including:
- Individual accounts
- JMU Network Access
- (two Ethernet Cards)
- Local and Long Distance phone service (free voice mail and call waiting)

South View gathers damage report

SOUTH, from page 1 will involve an in-depth study on the damage. Williams is sure when it will be completed. Williams said the floor in the apartment didn't collapse but actually deflected, only slightly sinking into the apartment below.

"The floor of the apartment responded to the large amount of people in the best way," Williams said. "A collapse would have been far more devastating than a deflection." Williams said he was able to get his family out quickly with the help of his wife and daughter.

Williams said South View is currently paying for all damages and has laid off five workers. "We are waiting until the property damage report gets back to come to a final decision," he said. Williams said the repairs to 1033-G included jacking up the ceiling, reattaching the gusset plates, reattaching the sub floor, fixing the truss, and reattaching the floor joists.

"It breaks my heart," said Senior Laurie Lauder, a Madisonian who was-less than impressed with the school's response. "I guess we feel safe," Heiserman said. "However, he said he feels fairly comfortable moving back into the apartment after four days. "I'm just as confused," Heiserman said. "The floor feels a lot stronger than it did before, it almost feels like they added something else," Heiserman said as of now, South View has made no contact with them regarding the situation. "We don't think we should have to pay for it, but we're all just interested in graduating right now," he said. "We'll be looking into sending reminders out for all its apartments," Heiserman said.

"Williams said it took three years to build the 20 buildings in South View and that many factors went into the building process, including weather conditions, terrain conditions and other work site conditions. Williams said South View's current project, Stone Gate on Neff Avenue, began in late December.

"We are waiting until the property damage report gets back to come to a final decision," he said. However, Williams said this is the first year the topic has come up. The members of the Madisonians are upset and shocked. Junior Laurie McKinney, a three-year Madisonian member, said the group was at Lauder's house for its usual post-perfor-

MADISONIANS, from page 1 band. The troupe performs mostly at high schools and also goes on a tour every spring break. The troupe has gone as far north as Long Island and as far south as Texas.

Being a Madisonian is a two-

credit class and interested stu-

dents must first audition at either the beginning or end of the year. The auditions are competitive. JMU has paid for all of the group's expenses including a tour bus, hotel, costumes and equipment for the past 25 years. Lauder said she is upset by the decision to cut the Madisonians. "It breaks my heart," said Williams. "This year's group is one of the best groups of Madisonians ever. They have so much talent and devotion. It's a great educational experience and gives them confidence."

Lauder said there have been discussions in the past that the Madisonians would lose their funding. "We've been waiting all year for the decision," she said. "However, she said they say that this might be the last year for the Madisonians, but I never thought that this would be it."

LEADERSHIP 2000

LEAD staff also wants to recognize and thank their presenters for all of their support this year.
Senior class challenge needs re-evaluation

For the first time in a while, it looks like the senior class is not going to meet its fund-raising goal for the Senior Class Challenge. However, instead of blaming this lack of success on apathy from the senior class, maybe we should examine the faults that lie within the challenge itself.

In theory, the Challenge is a great tradition that enables students to give back to the university after receiving a quality education. While we completely support this specific purpose, we can’t condone the way the Challenge goes about accomplishing the fund-raising goal.

Relying upon seniors to donate a significant sum of money from their own pockets is ridiculous. Typically, money is the one thing college students don’t have or can’t give away freely.

Granted, students are only asked to pledge a certain amount of money to the Challenge at this time, but this donation must be paid off in several installments ending in November 2001. There are going to be students who are perfectly happy to sign away some of their future earnings, but what about those seniors who still don’t know where they’re going to be in two months, let alone in a year? They are probably going to face the biggest money problems of their adult life during the next few months. They don’t need the added headache of JMU demanding more money out of them after graduation.

Another kink in the system is the way that students are asked for their donations. Instead of gratefully accepting what money people are willing to give, it seems like the committee has devoted most of its time to harassing students.

“Relying upon seniors to donate a significant sum of money from their own pockets is ridiculous.”

There were even committee members badgering seniors waiting in line to buy their caps and gowns, since they knew that sooner or later, all seniors would make it to this spot. To us, this seems more than just a little obnoxious.

It’s time to re-evaluate the Challenge in general. Each year, students are asked to raise thousands of dollars more than the class preceding them. Last year the class of 1998 raised $86,737 and this year’s class wants to raise $95,099. Pretty soon, the dollar amount is going to be out of control. Maybe it’s time to examine some alternative choices for those students who want to give something back to JMU but can’t afford to part with their hard-earned money.

Students have so much more to offer than what is in their bank accounts. Why not ask for volunteers to help out on campus or create something to beautify our school?

Senior gets sentimental about impact of years spent at JMU

SENIOR, from page 11

understandably so.

But it’s brought me a great love, admiration and respect for people I know I’d never have met otherwise. It’s gotten me to know people who are there for me in good times and bad. It’s gotten me bridesmaids for my wedding and friends for life. Call it buying friends who only get drunk together if you want to, but you have no idea what it’s all about. It’s much more than you realize.

“It’s a one credit practicum, and if you put in 60 hours at The Breeze, you get an A.” ... “I love your writing. I got a letter about that.” ... “Does anyone have a dart?” ...

“Deadline’s in two hours. Where is house edit?” ... “I can call everyone on that staff my friend. How often can you say that?” ...

To you, it may just be something you pick up on your way to class, and you may only read it to get through a boring lecture, spend some down time on the Quad or to make the bus trip go by faster. To me, The Breeze has been the impetus for what I’ve chosen as my life’s work. If I can find a job at a paper after graduation that’s half as fun and rewarding as my Breeze experience has been, I will have found the job satisfaction that so many of our parents still seek.

I got sucked in early freshman year to the basement of Anthony-Seeger Hall, and have yet to truly escape. I’ve found from timed practicum student to columnist to assistant opinion editor to opinion editor. I’ve met people who went from strangers to co-workers to friends. At The Breeze, I learned Quark, the true meaning of the word deadline, that the stress of production is worth the pride of finding no mistakes in your section, that long hours and bad food is part of the bond, that one might think and there’s always someone in The Breeze office who will study with you at 2 a.m.

For some of you who have never set foot in Anthony-Seeger GI, you are missing out on an amazing group of driven, committed and talented students who work harder than you’ll ever know.

At The Breeze I also learned from many people outside the office — the students and faculty. Every time someone approaches me and says, “I read your column,” whether it’s followed by praise or criticism, it’s always a learning experience. The opinion editor’s job gave me faith that JMU may not be as apathetic as people want to believe.

Students and faculty have concerns about this campus that need to be addressed. I hope that in my work I made them feel as though they had a true forum to address them in. If one can truly miss a building, I will miss the cracked tile and poor ventilation of Seeger above any other. 

“Be sure to use APA style.” ... “Does this case meet the SLAPS test?” ... “Avez-vous demandé?” ... “That was a bad test question. Everyone and four points to your grade.” ...

“Don’t worry. We’ll find a way to make sure you graduate on time.”

It wouldn’t be right to leave JMU without thanking the people who gave me good grades so I could graduate. My professors have taught me and served as a great example for me to follow over these four years. I feel strongly about the excellence I’ve received and will be proud to call myself a JMU alumni. The students and faculty here are first rate. I don’t know what the Washington Post is talking about. There is no other “flagship school” as I’m concerned.

“I don’t know what I’d do without you.” ...

“Promise me that we’ll keep in touch next year, no matter what.” ...

“You are one of those people who I know isn’t going anywhere.” ...

“What time are we going to Calhoun’s this week?” ...

“If I went to you to read this e-mail before I send it.” ...

“I don’t laugh with anyone like I do with you.” ...

“Do you want to go to Chili’s?” ...

“I think we should all go around the table and share stories.”

As much knowledge as I’ve gained through work and my professors, it doesn’t hold a candle to the wisdom I’ve gotten from my friends — whether it’s necessarily useful or not.

There isn’t enough I can say about them or what they mean to me, so I won’t try. They know it any way. I just want to thank them for putting up with me all this time and let them know that college wouldn’t have been the same without any of them.

Each of them has made a lasting impression on me that time and distance can’t erase.

Ralph Albanico
Dean of Libraries and Educational Technologies

Student finds lack of Greek coverage unacceptable

To the editor:

As a member of the Greek community, I found it absurd that no mention of Greek Week 1999 was mentioned in the pages of The Breeze. On too many occasions, Greeks are portrayed in a negative light. During these times The Breeze has been quick to note shortcomings in the Greek system. Greek Week 1999 was a fantastic experience, uniting many of the members of the Greek community under a common cause.

I believe it to be a sad and unfortunate day when such an important event was not covered. Greek Week, 1999, was not given its due recognition.

Another event not covered was Greek Sing. This event displayed many organizations and their hard work to put on the most entertaining show in years. Displays put on by such organizations as Alpha Phi, Tri-Sigma, Sigma Kappa, Kappa Alpha and Kappa Delta Rho demonstrated the wondrous effect that groups united under a common goal can achieve.

I believe these groups should be recognized for their successes.

As a resident of a fraternity here at JMU, I believe that the Greek system as a whole offers many benefits and positive values that justify outnumbering any publicized shortcomings.

I want to be able to say it’s a place headed in the right direction on important issues. And in my writing and with my actions over these four years, I’ve tried hard to be the change I wish to see in the world.

I hope in some way, no matter how small, I’ve had an impact on the university that has had such a great impact on me.

Not many people can say that after four years in a small city like Harrisonburg, they are forever changed. I’m glad I can.

Kelley M. Blasingame is a senior SMAD major.

LETTERS TO THE EDITOR

Those who responded to fire deserve thanks

To the editor:

I am writing to express my gratitude to all the people who responded so promptly and effectively to the fire in the basement of Carrier Library on the evening of April 21.

First, I would like to thank the Harrisonburg Fire Department. The firemen arrived on the scene within minutes of the call and extinguished the fire quickly and with minimal damage.

The JMU campus police also need to be commended for their efforts in alerting what could easily have become a major disaster.

The campus police arrived almost immediately once the fire was reported and took steps to prevent injuries and loss of property by activating the alarm system, quickly evacuating the building, communicating with the fire department and securing entrances and exits.

I would also like to thank the police cadets who spent that entire night in the library ensuring the security of its contents.

The JMU facilities management department also deserves credit for helping us to recover from this incident. Electricians and alarm specialists examined the scene that night and worked around the clock to provide assurance that the electrical and alarm systems in the building were functioning properly.

The basement of Carrier Library houses network devices that provide Internet connectivity to several buildings on campus. Staff from the JMU information technology department also deserve thanks for coming to campus that evening and staying until late into the night to ensure that critical systems were restored to service.

Finally, I would like to thank the library staff who arrived promptly to assess the damage and to begin contingency planning.

In summary, there were many people who responded with dedication, commitment and a high degree of professionalism to this unfortunate event.

The fine facilities management department, the JMU information technology department and the library mobilized to prevent disaster, ensure public safety and enable the library to resume service to JMU students, faculty and staff.

The JMU community owes them a debt of gratitude.

Ralph Albanico
Dean of Libraries and Educational Technologies

Student finds lack of Greek coverage unacceptable

To the editor:

As a member of the Greek community, I found it absurd that no mention of Greek Week 1999 was mentioned in the pages of The Breeze. On too many occasions, Greeks are portrayed in a negative light. During these times The Breeze has been quick to note shortcomings in the Greek system. Greek Week 1999 was a fantastic experience, uniting many of the members of the Greek community under a common cause.

Community service events were held in order to benefit various organizations in the Harrisonburg community. A field day was held at the Boys & Girls Club of Harrisonburg and Rockingham County in order to brighten the lives of many of the children in the area.

A SK run was held where the proceeds were given to Habitat for Humanity. On top of that, a blood drive was organized.

Such positive events were not mentioned in The Breeze. As a student, I consider The Breeze to be a newspaper for the students. As a president of a fraternity here at JMU, I believe that the Greek system as a whole offers many benefits and positive values that justify outnumbering any publicized shortcomings.

I believe it to be a sad and unfortunate day when such an important event as Greek Week, 1999, was not given its due recognition.

Another event not covered was Greek Sing. This event displayed many organizations and their hard work to put on the most entertaining show in years. Displays put on by such organizations as Alpha Phi, Tri-Sigma, Sigma Kappa, Kappa Alpha and Kappa Delta Rho demonstrated the wondrous effect that groups united under a common goal can achieve.

I believe these groups should be recognized for their successes.

As a respected member of the Greek Community and of JMU at large, I would just like to express my discontent with The Breeze for not covering the positive aspects of Greek life offered.

It appears that the media is quicker to jump on the negative “Greek bashing” bandwagon. I believe there is a light side to the Greek community for its well-deserved achievements.

GenEd... diversity... MLK day... budget shortages... “You must be the change you wish to see in the world.” — Gandhi.

While all the aforementioned topics are an entire column to themselves, I just want to end with a few thoughts about the state of our university. I’ve always felt it’s important to leave the thing you touch in better shape than it was in when you first encountered it. I don’t even know what GenEd is, so I won’t touch it. However, I’d be remiss if I said the recent vote not to cancel classes to honor a great man like Martin Luther King Jr, and having valued professors pay the price for the university misspending its money was something I could swallow. Because neither is.

What are we saying to prospective students with decisions such as these? There are approximately 3,000 students annually who make this place their new home for four years just as I did not long ago. I want to be able to say it’s a place headed in the right direction on important issues.

And in my writing and with my actions over these four years, I’ve tried hard to be the change I wish to see in the world.

I hope in some way, no matter how small, I’ve had an impact on the university that has had such a great impact on me.

Kelley M. Blasingame is a senior SMAD major.

The Mac returns for final stand of the year

As the semester comes to a close, Jason McIntyre offers a more personal year-in-review

Let’s start the final installment of this year’s Return of the Mac by getting some things out of the way that are ticking me off right now.

With finals being next week, there’s an annoying piece of gum stuck on the bottom of my shoe that’s been a thorn in my side all year — the parking staff, especially the ones at the Anthony-Seege parking lot. People have repeatedly asked me if they could take out an anonymous ad in The Breeze that reads, “F U Parking Police,” and list all the names of the parking attendants we love to hate.

Note to the parking staff: it’s the end of the year, nobody has any money and we are asking you to go easy on us.

However, all is not bad, so let’s look on the bright side. The stock market is up and the Quad is packed with gorgeous girls wearing very little. I think I’m going to borrow my neighbor’s dog and use it to impress women.

No, but really, graduation is around the corner. I’m sure what all my senior friends will miss most about JMU is that the Blue Fox is re-opening soon under new management, and with any luck it will once again dominate the Wednesday night party scene next semester. My graduation present to some of my friends is just what they wanted — getting their name in the paper.

First, I have to say goodbye to my good pal, Seth Burton, no stranger to the sports section. This guy gets full credit for teaching me how to not only dance the dirty bird, but to use it to impress women.

Other friends I would like to say goodbye to include: Fitz, one of the funniest guys at the school; Kristin from Newport News, the epitome of crazy, easy, cool; Rebecca, who’s engaged and has the best Jac card picture at the school; Cairo and Hudson, huge Austin Powers fans; Jen the swimming super senior and our fantastic fifth roommate; the Florida transfer Kelley who I haven’t talked to in two months, and I probably won’t ever get to ride in her Mustang; Kara, who will make the best second grade teacher, wherever she goes; Lisa the lacrosse star also known as Julie; and most of all, my roommate and top flight wingman, Dave Lessa.

Before you ask what a wingman is, Dave will spell it out for you. “The wingman has to fend off the other girls in the group by keeping them busy, while the leadman kicks whatever game he has,” the ISAT major said.

Now that you’re through shaking your head at that, other things I’ll miss about my senior friends are the times we gave girls the “drunk dial” to come over and “watch a movie,” the quote of the year, “lock,” and Chef Boyardee cooking up magic in our kitchen and leaving it in complete disarray. Luckily, he’ll be a bartender next year, meaning better service at the Biltmore.

This is also a good time to thank all of those wonderful people out there (random people included), who took the time to let me know how good or terrible my writing was . . . your thoughts were appreciated.

In addition, I would like to thank all of my crazy, wicked, cool Ashby Crossing girls who have no problem flashing me and my friends at parties when they’ve had just a little too much to drink.

But before this sounds too much like an acceptance speech, it’s random thought time. In my quest to get the underclassmen involved, here’s some food for thought if you’re looking for a three credit elective: Basic Acting. There is no other elective that you can totally be yourself and act like a clown, while getting good grades for it. Sign up for it if you can, it fills up quicker than Ballroom Dancing.

My next random thought goes out to the history department. They get a personal dart from me for letting go their far and away best teacher, Kevin Caldwell.

The department is changing things so instead of small, 25-30 person classes where the teacher knows your name and wants you to do well, you can be part of a big, 130-person lecture class where falling asleep to the monotonous tone of a boring teacher will become a regularity.

If you haven’t had class with Mr. Caldwell, he’s one of those right-out-of-college teachers who gets students to get involved. In his class, nobody falls asleep because he makes history interesting, and if you didn’t do well on a quiz, paper or test, he lets you know about it so it doesn’t happen again.

With any luck, I will be working in New York City this summer, making slightly a bit more money than I do at The Breeze, and I’ll be needing the digits of all the Jersey girls (and there are lots of you) so I can have people to hang with when I want to go into the city or to the Jersey shore.

See you in the fall.

Jason McIntyre is a senior SMAD major and the assistant sports editor.

LATINOS TO SHARE FOOD, MUSIC
Celebración Latina open to all, benefits Hurricane victims

**Magda Salazar** contributing writer

To celebrate the first Celebración Latina at JMU, members of JMU’s Latino community will hold a semi-formal banquet Friday in the PC Ballroom at 6 p.m. to raise money for victims of Hurricane Mitch.

They are raising money for the Fundación María, a relief fund established by the First Lady of Honduras, after Hurricane Mitch hit the Honduran population.

The banquet is sponsored by Club Latino, Lambda Theta Phi, Fraternidad Latina, Inc. and the Peer Mentor organizations.

President junior Melissa Cruz-Enriquez said, “We chose to dedicate our culture and this is in a way that something for us to do and at the same time we have a lot of fun and introduce others to our way of life.”

Attendees will receive a sit-down dinner provided by Garibaldi’s and a live performance by Rico Rengue.

WHERE: PC Ballroom
WHEN: Saturday at 6 p.m.

ADMISSIONS: $8 in advance at the Warren Hall Box Office and $10 at the door

---

‘Carousel’ takes tiresome ride

**Tamar Antlai** contributing writer

‘Carousel’ — it’s a clam bake in June and a carnival ride in a country town and then there’s... spousal abuse?

‘Carousel’ tackles some heavy issues, but the Theatre II production is unfortunately lost in awkward staging and a tired script that audiences today have difficulty relating to.

The message of universal morality and the ultimate power of love and hope doesn’t impact the audience as profoundly as it could.

The script simply isn’t conducive to an unorthodox staging and the intimacy of the show and the humanity of its characters gets lost in the hokey church-revival atmosphere and tired old dramatic devices like melodramatic death scenes and the dead remaining at the stage.

Performed as a staged reading, the cast is seated onstage throughout the entire show. Staging and scenery are stripped to the bare essentials. The Greek chorus-style staging was distracting and took away from the intensity of the play’s actual events.

Director junior music major Megan Birchette’s vision of the show is radical, even by Theatre II’s experimental standards.

I tried to embrace the fact that it was a staged reading. It would’ve been completely impossible to do as an actual production,” Birchette said, “who is making her directorial debut with the Stratford Players.

‘It puts more responsibility on the actors.’

Responsibility that the cast can’t possibly live up to due to the complexity of the script. Though executing the concept was a noble risk, the cast was too unfocused to pull through.

As a whole, the cast worked hard, but the script just isn’t suited to a staged reading and the characters are too thinly written to work together in this fashion.

Musically, the cast delivered, leaving little to be desired. Though sometimes not unified, the strength of vocal talent carried the show and made up for holes in the production.

The cast’s breath of fresh air was clearly junior music industry major Mandy Lamb. The thought and effort she invested in the character of Julie Jordan was obvious. She played Julie naively but without Sennenance and depth. The progression her character makes is both touching and heart breaking to watch.

She is the only character whom the audience can relate to; quite simply, she is Julie because she believes it.

Her strongest moments come during Billy Bigelow’s (junior Mike Minarik) death.

‘CAROUSEL’

WHERE: Theatre II
WHEN: Now through Saturday 8, p.m., plus a 2 p.m. show on Saturday
ADMISSIONS: $5

This is Lamb’s seventh performance at JMU. Her experience and her refined yet powerful soprano voice helps carry the show.

Minarik’s character is more complex, which was apparent in the vagueness of some of his performance. No stranger to the Theatre II stage, Minarik’s singing is solid but his forwardness on the floor, and his strengths lie in his attention to nuance and his focus. His booming voice is unwavering.

But despite a valiant attempt on Minarik’s behalf, Billy’s schizophrenic nature and the ensuing struggle between his love for Julie and his inevitable tragic downfall were difficult for him to master. The confusion of the character — a foil on behalf of the script — added to the confusion of the show — a foil on behalf of the director.

Senior music major Kate Schwabe helps keep the show alive through her portrayal of Julie’s best friend, Carrie. Schwabe plays Carrie with just the right amount of quirksyness without out becoming a distinct individual.

Junior Laura Apelt executes a challenging performance as Aunt Nette. Apelt brings to the performance a seasoned maturity that the character requires, giving the show added depth. Her vocal strength during her solos also adds to the show’s musical integrity.

Newcomer to the Theatre II stage, Andrew Gorski, a freshman music major, turns in a fantastic performance as ‘Jigger,’ the town hooligan. Gorski is also one of the show’s most believable characters. He undoubtedly should carry forward the fruitful theater career at JMU.

Other noteworthy performers included senior theatre and dance major Ethan Nette, theatre and dance major Katie Lawson and junior theatre and dance major Suzanne Wogisch.

Despite a talented cast, a weak script and confusing staging make ‘Carousel’ a tiresome ride.

**Vineyard fun for all**

Landwirt hosts third music and wine fest

**Brian Showalter** staff writer

Take a break from studying and bring your friends to the Third Annual Landwirt Vineyard Music and Wine Festival this Saturday.

The festival will take place at the Landwirt Vineyard, about a 10-minute drive from JMU. This 100-acre vineyard will host musicians, eaters, specialty store booths and wine.

The festival is special; there is nothing else like it,” Jason Mistaika said. “We had two successful festivals and we are planning for another one.”

**Landwirt Music & Wine Festival**

WHERE: Driving North on Main Street, go past RT 251, turn left on route 721. Two miles later, turn right on route 619, go two miles and turn left into Landwirt Vineyard.

**Fox to air magic of college student**

**KELLY WHALEN**

**senior writer**

When Michael Grandinetti graduates from Pittsburgh's Duquesne University this May, he probably won't be scrambling for an entry-level job like most.

Instead, Grandinetti will likely cover himself in kerosene while chained between two walls of flaming spikes with 60 seconds to escape.

Magic is a talent that has brought 21-year-old Grandinetti remarkable success. He will appear on Fox this Sunday at 7 p.m. in "The World's Most Dangerous Magic II."

"I want to be in that handful of well-known magicians like David Copperfield," Grandinetti said. "But I'm not looking to be the next David Copperfield. I want to be Michael Grandinetti."

A magic set he received when he was 7 years old, quickly became Grandinetti's passion. He started performing routines at neighbors' birthday parties. "It was the first time people responded to my magic," Grandinetti said.

Today, whenever he's not sleeping or eating, Grandinetti practices routines, designs new tricks, performs illusions or conducts business on the phone.

This past winter he performed several shows at Heinz Hall in Pittsburgh with The Pittsburgh Symphony Orchestra. Highlights included bringing a portrait of a girl to life and rotating himself on a sword's point.

He amazed audiences with tricks like a handkerchief that danced around the stage and into the audience and a trick titled "Hourglass Flaming Spike Espace."

The same people who work for magician David Copperfield build equipment for Grandinetti.

"You always have got to be different," Grandinetti said. He designed the 1500-pound "Hourglass Flaming Spike Espace." He was tied to a metal chain to a pentagon-shaped structure, placed in a rectangular frame to add difficulty in escape and then doused in gasoline. While an hourglass measured time, Grandinetti had one minute to free himself before the two panels of flaming spikes punctured his body on their path. He succeeded.

"I try to push myself," Grandinetti said. "The trick should accent the magician's personality... You make a connection with the audience. Getting applause the first time with a new trick is the best."

As a college student, balancing an academic and performance schedule presents challenges. "I've had to reschedule tests around shows," Grandinetti said. "I try to schedule my classes so I'm home early. He usually finishes classes by 2:30 p.m. and can then rehearse routines with the staff if teachers work with me. We have a good relationship..."

Grandinetti said he has encountered people in the magic industry who doubted his skills because of his age. "No just makes me work harder," he said.

"I never tell my age" when booking shows. Instead, he sends video tapes of past performances as proof of his skills.

"My goal is to tour, do TV... Broadway one day," Grandinetti said. He received one of his greatest compliments when an audience member told him, "I've never been a fan of magic, but I enjoyed your show."

Grandinetti is quick to credit his team of assistants when describing any success. "Any success I have is ours. We try to be classy and present our magic as a beautiful art form..."

Grandinetti and his staff of about 10 assistants, including four dancers, have worked together for three years. He sometimes rehearses 12 hours a day.

Grandinetti is not the only whose academic major could relate to a career in the world of magic. Two of his assistants are engineering majors. Another one is a finance and accounting major.

"We're working for five years down the road," Grandinetti said. "I think it's going to pay off. We've never been missed out on things like living in a college dorm but there's nothing else I want to be doing."

**Coupland twists 'The Stand'**

**'Girlfriend in a Coma' gives preachy message**

**RICHARD RUSH**

**contributing writer**

Douglas Coupland's novels are known for their hip, stylish prose, mildly off-beat plot and characters that question the value of mainstream society. The first half of "Girlfriend in a Coma" is not unusual to these characteristics, the second half, however, becomes too bizarre and too preachy.

**REVIEW**

It begins innocently enough, as Karen sleeps with her boyfriend, Richard, for the first time. Karen wakes up, things get pretty soap opera-ized. While Richard is out, Karen goes shopping. While she's at the mall, Karen is hit by a bus. She is taken to the hospital, where she is put in a coma.

Karen's coma, the survival of her friends and the death of her neighbor. Everything relates to the need for man to question. Don't ask me why...Don't ask me why...I just spend the last two chapters harping upon how Richard and company will spend the rest of their lives questioning and be better for it. Karen goes back into her coma. The end.

At first it seems as if Coupland is presenting a message of hope. Karen regains awareness and begins living a productive life. Richard stops drinking and begins to take care of his daughter. Pam and Hamilton, two survivors, defeat their addiction to heroin.

Before successfully completing this message, Coupland gets confused and starts thinking he's Stephen King ("The Stand") and people start to die. Even this is salvageable until we learn that Karen's going to return to her coma and never awaken. Coupland stands on his soapbox.

His real message might be acceptable if it were less esoteric, but it is of such an obscure nature, we're left wondering exactly what he was trying to say.

Coupland is an incredible author, and his fiction is not to be missed. Normally, his work centers around an interesting plot that (inevitably) has a subplot very subtly placed. "Girlfriend in a Coma," however, is pessimistic and unforgivably preachy, beating the reader over the head with an unintelligible message.

"They all say that I'm not impressive, at best" croons Harry Connick Jr. in the opening track of his newest album, Come By Me. Well, he said it, I didn't. Actually, Come By Me would be great — if it was a single.

Connick's faster tunes show some swing influence, but thankfully he sticks to his roots and avoids a pop-swing feel. The rule of thumb for Come By Me seems to be that whenever Harry sends the orchestra packing, Connick goes on to cover "Danny Boy," among other tunes. While his arrangement of sentimental crooner lyrics backed by a lethargic orchestra is unfortunately rare on this album.

"As a beautiful art form." Fans of Connick's traditional style shouldn't hold their breath waiting for this album to come out.

Those who warmed up to Harry's funkier side in Star Turtle won't be thrilled by his newest effort either. Those who warmed up to Harry's style shouldn't hold their breath with oboes all he wants, but his real strengths will always be in Orchestral strings lay down a solid tune.

"Come by Me is a collection of sentimental crooner lyrics backed by a lethargic orchestra. The fourth track on the disc, "Change Partners," is a prime example of Connick's unfortunate fall into sappiness. Although a smooth Latin drum track starts it bong, with some promise, the fun ends there. Orchestral strings lay down a background suitable for a den-snit's office muzak. Connick goes for an unbearable six minutes, and the next track gives no relief, featuring a near carbon copy of the orchestral backing. Connick goes on to cover "Danny Boy," among other tunes. While his arrangement is beautiful, it's hardly memorable.

"Come By Me does have its high points, but they fail to carry the album. The title track is one of the few songs where Connick and his fellow musicians seem to be having a good time. He shows off some of his piano skills, which is unfortunately rare on this album. Connick's faster tunes show some swing influence, but thankfully he sticks to his roots and avoids a pop-swing feel. The rule of thumb for Come By Me seems to be that whenever Harry sends the orchestra packing, Connick goes on to cover "Danny Boy," among other tunes. Juvenile's bouncy beats

Growing up in the New Orleans' Magnolia projects, Juvenile raps about the same problems of living in the 'hood as other rappers in a similar predicament. However, Juvenile, a.k.a Juve, has an edge over the competition because he has one thing that the others don't: originality.

From start to finish, this album pours out 15 blazing hits as Juve shows off his enormous versatility.

400 Degreez was overlooked for weeks when it first entered the music charts but it is now starting to live up to its enormous potential. Although the album could well stand on its own, the hit single "HA" has given 400 Degreez much needed recognition. "HA" starts off 400 Degreez with an inventive style where Juve talks, rather than raps, his lyrics to the listeners life on the projects: “You ain't gone let somebody come and punk ya ha/stunt and front ya ha/straight up run ya ha.”

The album also includes two additional "HA" remixes, which, if nothing else, make the album worth listening to. The remix features Hot Boys, which is made up of Juvenile, Wayne, B.G. and Turk. Members of the Hot Boys are featured in about half the songs on the CD.

On the downside, 400 Degreez contains excessive amounts of explicit language, making its parental advisory more than necessary.

Although 400 Degreez tells the same stories that have been told time and time again, its mix of bounce beats and catchy bass-line, Juvenile's energy and shifting sing-song style make this CD stand out among all of the others.

Black's Mature Punk

Categorizing Black is not an easy task. A one-time member of the Pixies until he decided to go solo, his new band, The Catholics, unveiled themselves with what some critics felt was a less than stellar, self-titled debut CD.

Pistolero, however, fails to capture the originality of that first CD and as a result, falls one step short of being truly great. It opens with “Bad Harmony,” a tongue-and-cheek title for Black who is at his best when combining raspy vocals with contradictory guitar chords to make harmonic music. The song begins with interesting guitar work unique to Black, but takes a rather sickening turn towards mainstream pop at the chorus. Many songs on Pistolero disappoint in this fashion. "Tiny Heart" and "You're a Such a Wire" sound rather similar to Counting Crows due mainly to Black's sharp, yet growling, vocals.

Just when all hope seems lost, Pistolero comes back with the fast paced, punk-inspired fire that Black at one time was so easy on his original solo CD. "So Hard to Make Things Out" and "I Want to Rock & Roll" are fast and to the point.

They have an intense spark that can be seen in previous Black songs like "Los Angeles" and "Old Black Dawning."

**Weekend Diversions**

**AN UPDATE OF EVENTS IN THE BURG**

This weekend will be full of events, especially for seniors, who can really party like it's 1999.

The Biltmore Grill will offer a bash for graduating seniors on Friday from 11 a.m. to 4 p.m. Admission to the Senior Celebration requires a ticket that will be available at the door. The party will feature a deejay and dancing. You must be at least 21 to enjoy the Senior Celebration. In addition to the private party, the Biltmore will also host its usual entertainment throughout the week, which includes Jazz Night every Monday and Acoustic Night every Tuesday and Wednesday.

Key West Beach Bar and Grill will offer plenty to do this weekend. Tonight as well as every Tuesday night is College Night, in which you must be at least 18 to get in. Although there is a cover charge for those under 21, if students over 21 bring their JAC cards, there is no charge. Friday night, Key West will host an all-80s mix. Saturday night, which is one of the nightspot's most crowded, Key West will feature a dance party with lots of hip-hop music. Don't forget that Key West always hosts its Q101-sponsored Ladies Night every Wednesday, in which ladies can enjoy exemption from the regular cover charge. Free hot wings will also be offered on Wednesday from 9 to 10 p.m.

The Little Grill will showcase Dave Eakin and Steve Hoke on Friday around 9 p.m. They are known to play traditional folk and bluegrass. Donations are encouraged at the Little Grill.

Main Street Bar and Grill also has plenty of events on tap this weekend. Thursday night is Q101 Ladies Night, and the line begins around 10 p.m. Friday, Main Street will host JMU's own Senior Class Challenge. All patrons must present their JAC cards for admission until midnight. Saturday night Main Street will host its usual entertainment, which includes Jazz Night every Monday and Acoustic Night every Tuesday and Wednesday.

Spanky's Delicatessen features West Water Street every Tuesday night. They are known to play a variety of music ranging from folk to funk.

Compiled by staff writer Katie Plemmons

Look for "Weekend Diversions" each Thursday for a thorough update of local weekend events.

An Alternative Summer Option

Whether you're staying in town or going away this summer, volunteer agencies in town and across the country need your help in just about every way possible.

While JMU students were packing up for the drive back to Harrisonburg last fall, editors at Mother Jones, the San Francisco-based "magazine of investigation and ideas for independent thinkers . . . that inspires action toward positive social change," ranked JMU seventh out of the 10 most activist colleges nationwide. In February, Break Away, a national organization that promotes community service by college students, presented its 1996 Program of the Year award to JMU's Alternative Spring Break program. The program, which sent 160 students on 17 volunteer missions throughout the United States and Mexico, is only one example of our student body's commitment to community service.

Volunteering not only benefits the agencies and people receiving the help, but also those individuals giving it. "You get to learn a lot about yourself and your community, and you get to interact with people you probably don't interact with on a daily basis," Neil said. "We're kind of caught in JMU bubble here surrounded by college students. I think volunteering really connects you to the community.

Harris agreed. "I think you learn about yourself, both what you're comfortable with and what you're not, and develop a more global perspective . . . You're going to live in a more diverse world than the JMU campus can present."

Meg Schulze, a junior interdisciplinary social sciences major, volunteered with her church youth group in the past helping to rebuild homes in Florida destroyed by Hurricane Andrew. "It made me aware of how lucky I am. I've been," she said. "There are a lot of people out there who are a lot worse off than I am."

Shapiro continued volunteering after she fulfilled her class requirement and Goldstein has enjoyed her volunteer efforts. "It's really rewarding to know that you are helping someone develop skills that they will have for the rest of their lives," she said. "When you see the progress they make, it's a wonderful feeling to know that you have helped. There are a lot of kids out there who need this kind of attention and help, so why not help make a difference in their lives?"

Often students who volunteer solely for class credit discover that they enjoy the experience and return on their own time. Neil said. Shapiro continued volunteering after she fulfilled her class requirement and Goldstein has enjoyed her volunteer efforts. "It's really rewarding to know that you are helping someone develop skills that they will have for the rest of their lives," she said. "When you see the progress they make, it's a wonderful feeling to know that you have helped. There are a lot of kids out there who need this kind of attention and help, so why not help make a difference in their lives?"

In the office of Community Service-Learning, special projects coordinator and JMU Junior Jack Neill offers advice to senior Alicia Payne. There are over 100 agencies that need volunteers this summer in the Rockingham County area alone, all of which are listed in the CSL office. If you're interested, contact CSL at x3636, or visit their office in Wilson Hall, Room 205A.

"Someone might not think that their basic computer skills could really help out," Neil said, "but it's things like that that can really make a big impact.

Although many college students begin their summer breaks in early May, many might forget that elementary, junior, and high schools continue until late June. As sophomore psychology major Stephanie Goldstein discovered while fulfilling a volunteer requirement for a social work class, many students need tutoring year-round. She used her skills to work individually with a student whose family had recently immigrated from Mexico. "My job was to help her develop reading skills," Goldstein said. "I created activities that helped her read and communicate with her school teacher, and helped her with her school assignments.

"During the summer, a lot of non-profit agencies and social service agencies need assistance," junior Jack Neill, special projects coordinator for the Office of Community Service-Learning, said. According to its web page, CSL "strives to create win-win situations" between students and the community agencies they serve. Whether students remain in Harrisonburg or return to their hometowns, the need for volunteers is great.

For those students staying in Harrisonburg this summer, CSL coordinator Rhys Harris wants students to know that they are "definitely an important part of a lot of agencies." It's a real challenge to fill those gaps when students aren't here, but students who are here over the summer can pick up some of that work load," he said. Students who want to get involved over the summer can visit CSL in Warren Hall, where they can pick up a CSL resource directory listing agencies with volunteer needs. "Basically it's a matching process," Harris said. "We try to match (students) interests with the needs of the community. There's always a lot more community need than [there are] students.

JMU students can tutor at local elementary schools, help children at a local Boys & Girls Club, use their computer knowledge (even basic skills like using Microsoft Word or searching the Internet) to help non-profit agencies, or provide transportation.

### Summer Volunteer Opportunities in the Area and Nationwide

#### In the Rockingham County Area

These are only a few of the agencies (there are over 100) currently looking for summer student volunteers in the Rockingham County area. If you’re interested or wish to look at a complete list of opportunities, visit the office of Community Service-Learning on the second floor of Wilson Hall, Room 205A.

JMU's 'Life of Riley' — A Knight like no other

For the third straight year, a JMU basketball player earns the title of Bronze Female Athlete of the Year. And, why not? Megan Riley practically owns the JMU lacrosse record book.

The Harwood, Md., native is ranked number one at JMU in career goals (149), assists (106) and points (254). Riley is a two-time All-American and three-time All-CAA pick.

For sharpshooter Mickey Dennis, it was one and done. On his first-ever trip to the East Coast, the 6-foot-3 shooting guard signed to play basketball for head coach Sherman Dillard and the Dukes Monday.

“When I came on the visit, I just got a great feel for the school,” Dennis said from his dormitory at North Dakota-Williston Community College. “It was my first time on the East Coast, and I loved it. I just hope I can be one of the keys to the puzzle for coach Dillard.”

Dennis will have two years of eligibility starting in the fall.

Dennis, a first-team Junior College All-American at Williston last season where he averaged a team-high 20 points per game, is known for his three-point accuracy, an area the Dukes struggled in somewhat last season, shooting just 34.5 percent.

“He will give us immediate help in the shooting department,” Dillard said. “We lost some of our guard and wing players in Chatney [Howard], Ned [Felton] and Eugene [Atkinson] and I thought we needed one other shooter. I like Mickey’s court sense, and he had a lot of fluidity to him. He’s got a real nice stroke. The first time I saw him, I knew we could use him.”

The addition of the shooting guard floods the Dukes’ backcourt, but at the same time gives them several offensive options. Battling for playing time behind likely starting seniors Jabari Outtz and Jamar Perry will be Dennis, sophomore Dwayne Braxton, freshman David Fanuzzi and redshirt freshman Charlie Hatter, who should get his first game action since breaking his hand as a senior in high school.

“His first game action since breaking his hand as a senior in high school,” Sherman Dillard, JMU basketball coach

Dillard could entertain moving Perry to the wing position and playing Dennis and Outtz in the backcourt.

“The three-guard look would give us three capable ball handlers, and it has absolutely crossed my mind,” Dillard said.

Kevin Knight was a winner and a leader on the men’s soccer field at Reservoir Street. During his four-year career at JMU, the Dukes compiled a 56-20-7 record. Twice JMU reached the NCAA tournament and each year the Dukes were ranked in the top 25 nationally.

The midfielder/defender netted thirteen goals and assisted on 23 others to accumulate 48 points at JMU. Knight, a two-year team captain, is JMU’s only four-time All-CAA honoree.

Knight also excelled off the field. He is a history major with a 3.45 grade-point average and is scheduled to graduate in May.

However Knight, a Fairfax native, is currently playing for the New York/New Jersey MetroStars of the Major League Soccer league.

— Mike Gesario

Dillard lands junior college star
First-team All-American from North Dakota-Williston signs with Dukes

Dennis was also a track standout at Williston, where he was a star sprinter and won the school triple jump.

As the focal point of the Tetons’ high-octane offense which averaged 92 points per game last year, Dennis was named the Montana-Dakota conference most valuable player when he shot 49.5 percent from the field.

Other schools courting Dennis included Western Michigan and Northern Illinois.

Dennis said he hopes to arrive at JMU this summer and work out with the team. He will be pursuing a degree in kinesiology in hopes of becoming a physical education teacher or basketball coach.

Duke has one scholarship remaining, and Dillard said he is not sure they will use it this year.

“The three-guard look would give us three capable ball handlers, and it has absolutely crossed my mind,” Dillard said.

Kevin Knight was a winner and a leader on the men’s soccer field at Reservoir Street. During his four-year career at JMU, the Dukes compiled a 56-20-7 record. Twice JMU reached the NCAA tournament and each year the Dukes were ranked in the top 25 nationally.

The midfielder/defender netted thirteen goals and assisted on 23 others to accumulate 48 points at JMU. Knight, a two-year team captain, is JMU’s only four-time All-CAA honoree.

Knight also excelled off the field. He is a history major with a 3.45 grade-point average and is scheduled to graduate in May.

However Knight, a Fairfax native, is currently playing for the New York/New Jersey MetroStars of the Major League Soccer league.

— Mike Gesario

Dillard lands junior college star
First-team All-American from North Dakota-Williston signs with Dukes

Dennis was also a track standout at Williston, where he was a star sprinter and won the school triple jump.

As the focal point of the Tetons’ high-octane offense which averaged 92 points per game last year, Dennis was named the Montana-Dakota conference most valuable player when he shot 49.5 percent from the field.

Other schools courting Dennis included Western Michigan and Northern Illinois.

Dennis said he hopes to arrive at JMU this summer and work out with the team. He will be pursuing a degree in kinesiology in hopes of becoming a physical education teacher or basketball coach.

Duke has one scholarship remaining, and Dillard said he is not sure they will use it this year.

— Jason McIntyre
Assistant sports editor

For sharpshooter Mickey Dennis, it was one and done. On his first-ever trip to the East Coast, the 6-foot-3 shooting guard signed to play basketball for head coach Sherman Dillard and the Dukes Monday.

“When I came on the visit, I just got a great feel for the school,” Dennis said from his dormitory at North Dakota-Williston Community College. “It was my first time on the East Coast, and I loved it. I just hope I can be one of the keys to the puzzle for coach Dillard.”

Dennis will have two years of eligibility starting in the fall.

Dennis, a first-team Junior College All-American at Williston last season where he averaged a team-high 20 points per game, is known for his three-point accuracy, an area the Dukes struggled in somewhat last season, shooting just 34.5 percent.

“He will give us immediate help in the shooting department,” Dillard said. “We lost some of our guard and wing players in Chatney [Howard], Ned [Felton] and Eugene [Atkinson] and I thought we needed one other shooter. I like Mickey’s court sense, and he had a lot of fluidity to him. He’s got a real nice stroke. The first time I saw him, I knew we could use him.”

The addition of the shooting guard floods the Dukes’ backcourt, but at the same time gives them several offensive options. Battling for playing time behind likely starting seniors Jabari Outtz and Jamar Perry will be Dennis, sophomore Dwayne Braxton, freshman David Fanuzzi and redshirt freshman Charlie Hatter, who should get his first game action since breaking his hand as a senior in high school.

“His first game action since breaking his hand as a senior in high school,” Sherman Dillard, JMU basketball coach

Dillard could entertain moving Perry to the wing position and playing Dennis and Outtz in the backcourt.

“The three-guard look would give us three capable ball handlers, and it has absolutely crossed my mind,” Dillard said.

Kevin Knight was a winner and a leader on the men’s soccer field at Reservoir Street. During his four-year career at JMU, the Dukes compiled a 56-20-7 record. Twice JMU reached the NCAA tournament and each year the Dukes were ranked in the top 25 nationally.

Spring football culminates Sat. 
Fleshman, Carson among standouts; quarterback duties undecided

MIKE GESARIO
sports editor

JMU football fans will get their first chance to see the new-look Dukes in action Saturday when the team plays its annual spring scrimmage at 1:30 p.m. in Bridgeforth Stadium.

"We're all ready and I think we'll perform well as an offense," junior quarterback John DeFilippo said. "I think it is going to be very basic, that's what [the new coaching staff] have told us so far."

The Dukes made some key changes, both in their personnel department and in their playing style, since the arrival of new head coach Mickey Matthews on March 22.

Last week, JMU added transfer quarterback Charles Berry, from North Carolina State. He will battle DeFilippo and freshman Chris Paquette for the starting job.

"Right now, I'm the starting quarterback," DeFilippo said. "The way I feel is that anyone who comes in here is going to have to beat me. I'm just going to keep working hard. The thing is that if you work hard and you're patient and you trust yourself, usually good things will happen."

On defense, Matthews moved junior linebacker Jason Parmer (54 tackles in 1998) to defensive end and sophomore wide receiver Lindsay Fleshman (28 receptions for 508 yards in 1998) to safety. Fleshman said he plans to play both safety and wide receiver in 1999.

"It was tough at first, but now it's pretty good because I'm getting the hang of it," Fleshman said of moving back to the safety position.

Matthews raves about the athletic ability of the 6-foot-1, 195-pound Fleshman.

"If he's not the best athlete on the team, he's definitely in the top two or three," Matthews said. "I feel as if you need your best athletes on the defensive side of the ball, and he's just a special player."

On the field, the Dukes are adjusting to the new system. At his introductory press conference, Matthews said he wanted to attract more fans by using a more exciting offense and also said the Dukes' defense would "start blitzing when we get off the bus."

DeFilippo said so far it's been a smooth transition. "The coaching staff here is very patient, and it explains things very well," he said. "I think the guys are catching on fast because of that."

The JMU running backs are adjusting to the system and playing particularly well this spring. Senior tailback Curtis Keaton rushed for two touchdowns in a scrimmage on Saturday. Freshmen tailbacks Cody Hall and Robert Carson also had TDs.

"Robert Carson is having a great spring," Matthews said. "He has showed the most improvement since we got things started, right there with [offensive lineman] Murray Douglas. Both of these guys have been huge surprises for me."

With Carson improving in the backfield, Matthews has the luxury of using versatile 5-foot-7 senior tailback Delvin Joyce at wide receiver, while Fleshman adapts to his new role in the secondary.

DeFilippo was impressed with the play of Keaton.

"He had a great year last year and I think he's running the ball a lot better this year than he did last year. That's just attributed to Curtis and how hard he works in the off season in the weight room," DeFilippo said.

Lacrosse awaits NCAA bid

JASON McINTYRE
assistant sports editor

The women's lacrosse team will play in the NCAA tournament, it's just a matter of where and when.

The Dukes will have to wait until Sunday night at 8 p.m. when the seedings are announced to find out whether they will host an opening round game May 5 or play on the road.

Following the Dukes' regular season ending loss at Georgetown last weekend, the Dukes almost certainly lost their chance of earning a top seed, which would have allowed them to bypass a first-round game and host a second-round game. But coach Jen Ulehla isn't worried about her team's confidence following the breakdown against the Hoyas.

"That game really was just a poor performance," she said. "Unfortunately, everyone played poorly. The bottom line is we just didn't show up. We just made things harder on ourselves, but this is the best team I've ever coached in my five seasons here, and they can make it to the Final Four."

Senior Jamie Pehl, said, "We came out with no heart in the Georgetown game, and we just can't do that in the tournament."

In order for the Dukes to pull that off, they would have to win their opening two games, which is not out of the question. Last season, they went to the second round, only to fall to eventual champion University of Maryland in a hard fought match.

"Our girls are very motivated and know what it's all about. They tasted it last year and are focused and ready to go," Ulehla said.

Junior Rebecca Twell, said, "With a jump of 20'21/4" and also her long jump record of 19'11/2" for nationals this year."}

The Dukes made some key changes, both in their personnel department and in their playing style, since the arrival of new head coach Mickey Matthews on March 22.

Women race for nationals

DAVID BUCK
staff writer

The women's track and field team, after a sluggish start, came off a good showing last weekend at the Penn Relays. The Dukes were the third in the 4x800 event, and fourth best in the distance medley relay.

"We got off to a slow start, but we picked it up at the Penn Relays," distance coach Pat Henner said.

Coach Gwen Harris has hopes of sending several JMU runners to nationals.

"We've had people going to nationals since 1992, and we hope to keep that going," she said. "We give our best at nationals and at the ECAC meet."

The runners with the best chances to get to nationals this year for the Dukes right now are Sean Augustus and Keisha Banks. Augustus beat her own heptathlon record this year and also her long jump record with a jump of 20'2 1/4".

"She's close," Harris said. "I think with a jump of about 20'5" she should get into the nationals."

Henner said, "Keisha should be shooting for nationals. She went to indoor nationals and has a good shot at outdoors too."

The Dukes have had a tough time with injuries this year, and two of their best runners, junior Heather Hanscom and senior Bethany Eigel, will redshirt this year.

Along with Banks and Augustus, a few of the other Dukes are having very good seasons. Sophomore Sarah Burkett did what Harris called a tremendous job at the Penn Relays. Harris also applauded junior Shauna Saint Cyr's effort, who ran injured at the Penn Relays.

The Dukes travel to Tennessee for a meet this weekend and they have a home meet coming up May 14-15.

"That should be an awesome meet," Harris said. "We always run and jump well here, so we're hoping for a tremendous performance. We'd like to be a little better than we are now, and we can be."

Banks said, "We're working hard in practice, we're running well as a team, and going in the right direction."

New equestrian club off and running

MAGDA SALAZAR contributing writer

Sophomore JMU equestrian club president Laura Corswandt has been riding horses since she was four years old. Sophomore Jennifer Milligan started riding horses when she was eight and only quit three years ago to attend JMU, which didn't have an equestrian club. These two and 40 other students, members of the newly chartered JMU equestrian club which has started training for competition in the fall.

"I think this club has an excellent chance of being successful," club adviser Zona Chalifoux said. "The horse industry is huge in Virginia and a number of our members have grown up in the horse industry."

Corswandt started the program early this year after taking time off from training to study and participate in other clubs. "Last summer, I trained horses, came back to JMU and decided we needed a team," Corswandt said. "And there were a lot of other girls that agreed with me."

Corswandt said the group originally started with herself and two other members through work at Oak Manor in Weyers Cave. Through word of mouth, the program increased in number.

Governed by the Intercollegiate Horse Show Association, competition ranges through eight different levels of experience. The beginning level is the walk-trot competition and ranges up to those jumping 3-foot-6 heights.

Corswandt said the level of experience within the JMU group ranges from those who have never been on a horse to some who have competed in the A circuit, which she said is just short of the professional level.

The equestrian club currently works out of Oak Manor, owned by veterinarians Anne and David Gardner. The club is being funded out of the students' pockets. Expenses include four-to-12-week lesson plans, trainers time and horses.

The group has alternate plans in mind for the fall season. Between now and September, the group is working on fund-raisers to help alleviate some of the team costs.

In hopes of gaining more access to horses for team use, Corswandt said the group is applying for tax-deductible status in order to encourage more availability to horses.

Tax-deductible status would allow horse owners to write-off the value of a horse on their taxes. The horses could then be donated to the JMU program and therefore, become property of JMU.

An equestrian team in not new to JMU. During the 1972-73 school year, the intercollegiate equestrian program was introduced and successful throughout a nine-season run. In 1979, JMU was a fourth place finisher in the Intercollegiate Horse Show Association national team competition. It was during the 1981 season that the team competed for the last time due to a lack of available facilities.

In 1999, it has once again emerged on the JMU campus.

Thanks for the memories

All the signs of a victorious football team swirled around free safety Tony Booth as he sat on the end of the JMU bench late on the afternoon of Nov. 7, 1998. There were hand shakes and high-fives, smiles and bear hugs. But Booth just sat there, alternating between cradling his head in his hands and staring out at the field in the final seconds of his career at JMU ticked off the clock.

"It was very emotional," Booth said.

And now, as I sit here in front of my computer in Anthony-Seeger for the last time, attempting to write my last article for this esteemed paper, I must agree with Booth. It is emotional.

Sure, I don’t have a crowd screaming their support right now. People looked at me funny as I jogged down the Seeger hallway, slapping the blue wall tiles here, but it is emotional.

It’s emotional because in the last four years, the flagship programs in the athletic department have gone downhill. Thankfully, as both basketball teams, the baseball program and the football program sank, they did not drag down sports such as volleyball and lacrosse, all which have vaulted to national prominence.

The past four years have been a time of unheard of turbulence in the athletic department. Coaches have arrived and departed at an alarming rate, often stirring up controversy before they leave.

However, “it’s not all gloom and doom for us,” if I may steal a line from former football coach Anthony-Seeger for the last time, attempting to write my last article for this esteemed paper. I must agree with Booth. It is emotional.

I’ve compiled a few of my favorite JMU sports memories — the ones that really stand out.

For the hands-down best moment, let me take you back to a frigid November day at Reservoir Street Field in 1995. The Dukes were inbounding the ball directly under their opponent’s basket.

The ball was lobbed straight up. The ball in mid-flight and slammed the line. He levitated, grabbed the ball home while the other guards worldwide.

It was pandemonium.

The Dukes’ 24-22 football victory over the University of Maine in the third game of the 1997 football season comes a close second. The Dukes were down 22-17 with under a minute left as quarterback Greg Maddox came under center. He proceeded to lead JMU on a three-play, 67-yard touchdown drive capped off by a 59-yard pass to receiver Lindsay Fleshman, a pass that almost did not transpire as Maddox was nearly sacked.

I don’t remember the exact date this last memory occurred. It happened in an early season game sometime during the 1996-97 basketball season. The Dukes were inbounding the ball directly under their opponent’s basket.

The ball was lobbed straight up. The ball in mid-flight and slammed the line. He levitated, grabbed the ball home while the other guards worldwide.

Sheetz Making it easier everyday!™
HOROSCOPES

Today’s Birthday (April 29) Let your creative talents come out this year. Pressure you’re under in May causes a change in June. Go for the job of your dreams; you just might get it! Make plans to build in August and heed an older friend’s advice in October. Take action to settle a dispute in November and find the answer to a secret question in December. By February your career should be stable, although different than what you expected. Maybe better, financially at least. Insider information brings abundance next April.

To get the advantage, check the day’s rating:
10 is the easiest day, 0 the most challenging.

Aries (March 21-April 19) — Today is a 5 — Group efforts might be thwarted today, but you can find a way around the problem. You need to hold another meeting and get everybody talking with one another. The breakdown has something to do with money. But that’s not a barrier. It’s an opportunity to start getting creative.

Taurus (April 20-May 20) — Today is a 5 — This would be an excellent day to join forces with a person who’s powerful, charismatic, compassionate and action-oriented. You have a tendency to get stuck sometimes. You think about things too much. Today you need to find someone to push you to take action.

Gemini (May 21-June 20) — Today is a 5 — You could be sailing along today, thinking you’re invincible, when whom! You run right into a problem you don’t know how to solve. Actually, it’s just time to get back to work. You’re going to have to start delegating and start getting things done. If you don’t know what to do, ask a friend.

Cancer (June 22-July 22) — Today is a 6 — Reschedule your date for tomorrow night. Your place will be more the way you want it to be then. That could be very nice indeed, if you decide to spend a romantic evening at home instead of going out and spending lots of money. You may not have lots of money by then anyway. Looks like you’ll probably spend it fixing up your place.

Leo (July 23-Aug. 22) — Today is a 5 — Looks like there could be a disruption at your house. Someone is trying to teach you how to see life from another point of view. Your mind is already made up and getting more so every minute. It’s not a good evening to embrace a new idea anyway. Schedule your mind-altering conversations for another time.

Virgo (Aug. 23-Sept. 22) — Today is a 5 — Some days you feel pretty smart, but today you may feel like a dummy for a while, because the problem you’re up against is outside your area of expertise. The same sensation is felt by just about anyone who moves into unfamiliar territory. The way you handle the situation is what’s important, and you’ll probably just get to studying, which shows how smart you really are.

Libra (Sept. 23-Oct. 22) — Today is a 6 — Looks like you want to spend some serious money. You’re scooting up to the idea, kind of checking things out. Shopping perhaps, looking for style and price and quality, all that sort of thing. Don’t make your move quite yet, however. You need to do a little more research before you plunk your money down. The perfect thing may not show up until tomorrow or the next day.

Scorpio (Oct. 24-Nov. 21) — Today is a 6 — You’re becoming a lot more powerful than you were before. You’ll stop fiddling around with minute details and get into making something important happen. And you probably know just what, too. But, move slowly. You’re going to run into a couple more details that need to be handled before you can go full speed ahead.

Sagittarius (Nov. 22-Dec. 21) — Today is a 6 — Looks like something you’ve been trying to learn is finally going to click into place. That doesn’t necessarily mean things get easier. They could get more difficult for a while, as you start practicing this new skill. People know you’re smart now, and they’re giving you more to do. Might as well get used to it.

Capricorn (Dec. 22-Jan. 19) — Today is a 7 — You and your friends could decide to do something outrageous. It could be in a work setting, such as taking on a project bigger than anything you’ve ever tackled before or it could be personal. The first consideration is finances. There’s not enough money. Now that you know it, you know what you have to do first. Find the money!

Aquarius (Jan. 20-Feb. 18) — Today is a 4 — Things continue to go your way as you breeze through life, with one minor exception. Something that’s going on at home, pertaining to your home or possibly real estate, is all messed up. You, who are so glorious, so wise, can’t figure out how to solve this one silly problem. You may have to call in an expert. Go ahead and do it.

Pisces (Feb. 19-March 20) — Today is a 6 — This would be a good day to put up provisions for the weekend. Have you got a trip planned? If not, why not? Looks like there will be pretty good conditions for travel, although there are a few minor complications. If you do a little planning ahead, you can minimize those. Doing so is highly recommended.

Summer Term at Mason

building success for a new millennium

Enjoy your summer while continuing your academic studies. Located in Fairfax, Virginia, and just minutes away from Washington, D.C., George Mason offers courses in computer science and engineering, business, nursing, public and international affairs, liberal arts, and more. You can accelerate a degree program, redo a course to improve a grade, sample another field of study, or concentrate on a single course. After class, take in the local sites by visiting area museums, attending a concert, savoring different foods from area restaurants, visiting amusement parks, and much, much more.

For more information on registering for summer courses, applying to a degree program, or applying as an extended studies (nondegree) student, call (703) 993-2343, send a fax to (703) 993-4373, or visit our website at http://summer.gmu.edu.

---

Summer Term 1999

• Day and evening classes
• Flexible scheduling patterns
• Register by telephone at (703) 993-4468
• On-campus housing, call (703) 993-2720

Summer Term Dates

THIS YEAR A LOT OF COLLEGE SENIORS WILL BE GRADUATING INTO DEBT.

Under the Army's Loan Repayment program, you could get out from under with a three-year enlistment.

Each year you serve on active duty reduces your indebtedness by one-third or $1,500, whichever amount is greater, up to a $65,000 limit.

The offer applies to Perkins Loans, Stafford Loans, and certain other federally insured loans, which are not in default.

And debt relief is just one of the many benefits you'll earn from the Army. Ask your Army Recruiter.
