World Famous Symphony Orchestra
To Give Varied Program At Madison

Washington D.C.’s famous National Symphony Orchestra will open its 1958-59 season at Madison College on October 24, under the direction of Howard Mitchell, at 8:00 p.m. in the newly completed Harrison Hall music rooms so that anyone interested in attending may do so. As Madison has invested quite an amount in bringing the orchestra to its campus, it is the faculty’s wish that the ensemble be met with a large turnout.

Howard Mitchell

Leaving Philadelphia, he went to Washington and became first cello under Hans Koller. Mitchell served as assistant director beginning in 1944, and succeeded Yma Kodell in 1957. He has been repeatedly praised for his “distinguished services to American music.” According to the New York Herald Tribune, he is a “seri-ously inspired player” who has a “per-fectionist in execution, intonation, dynamics and tone.”

For some, this will be a “once in a lifetime” opportunity. No admission will be charged. Students of Madison College; and tickets for those outside the college will be purchased for the benefit of Sigma Delta Rho, Madison’s local women’s fraternity. Howard Mitchell, a Nebraskan, first played with the National Symphony Orchestra in Chicago, then to Curtis Institute of Music in Philadelphia from which he graduated with honors in 1922.

Arrive Alive

Something new has been added to Madison's campus along with two beautiful dormitories and the campus training school. That something is not so pleasant as the other new additions to our campus. It is the problem which has arisen as a result of so many students trying to cross Route 11 in order to attend classes in the new training school.

At all hours of the day, Madison girls may be seen streaming across the highway in thoughtless ways. They are acting as if they were the tired girl who came in just behind us and would like to ride upstairs, too. If she should come in just as the door is closing and we don’t go straight to the elevators, she will look at us in the most beautiful way. It’s good to get halfway between two floors and stop; it’s also interesting to think of witty, cute comments to add to the walls of the elevator; but the first action is unfair to the people waiting for an elevator, and the second, which does nothing for the appearance of the walls is unfair to the administration which spent money providing pleasant, convenient surroundings for us.

Please, remember to use the elevators, but don’t misuse them. The “poor creature” waiting downstairs could be you! R. C. D.

Lack Of Interest?

Many of our students feel a definite lack of being a part of student government. We realize that even though we are not members of the council, we are a vital part of S. G. S. We are represented on the council by people of our own choice. These people are attending meetings to provide us, the student body, with opportunities to participate directly in Student Government.

One such program was Student Government Week, which exhibited many activities to provide us, the student body, with opportunities to participate directly in Student Government. It is never used in a newspaper, but freshmen class officers are the outstanding leaders who emerge next year. Needless to say, we will have an opportunity to hear The National Symphony Orchestra. I hope that we take advantage of this opportunity and plan to spend Friday night enjoying this privilege.

This coming week will certainly be a busy one for the Greek world. The last week before welcoming is always one of much excitement for the Greeks as well as the rushees. The parties are fun, the open houses are often informative and enjoyable for the freshmen.

Use, But Don’t Misuse

Do you ever use physical props to help your memory along? A string around your finger? A note stuck in the edge of your mirror?

If you do sometimes need props, how about adding one of the elevators in Wayland, Logan, and Gifford were put there for our use and convenience, but they weren’t intended to serve our weary feet and legs alone. They are for the tired girl who came in just behind us and would like to ride upstairs, too.

They are for the tired girl who came in just behind us and would like to ride upstairs, too.

Robert Driver, who is the one-year old son of Mr. and Mrs. Driver of Harrisonburg, is the center of interest in another project. The residence students study Robert in his family and thus learning much about a child and his home life influences.

Other interesting projects pursued irregularly by the girls at the Home Management Residence are furniture refinishing; as well as the refinishing of vegetable bowls, solid wooden chairs, coffee grinders, and sugar buckets.

Potentially the most important project the Home Management Residence plows its efforts into is that of methods of work simplification, money management and time saving devices and plans.

On the social side, entertainment plays an important role in the House. Both formal and informal teas are given by the girls, providing them with an opportunity to become acquainted with such functions from lack the guest and hostesses visit points. The girls often prepare and serve the refreshments for these teas.

Other programs with which we are familiar include the Home Management Residence auditions a bouncy invitation to all Madison students to drop by the House to satisfy any curiosity which may exist in their minds.

What’s New In Stu-Gu

It seems everybody on campus had the same opinion of SGA’s “School Spirit Week”—it was a good idea but there was an overabundance of interest in the part of the student body. Tusty Anderson accords with this by saying, “I do admire just something that has to grow on you.” Tusty Brash and Barbara Setliff, both students, thought that all these classmatess who didn’t attend with the statement that they were all tied to things. Marilyn Walker, a sophomore, thought it was a very good start but felt that upperclassmen thought they were already acquainted with Stu-Gu and therefore didn’t for them.

The open, unrehearsed council meeting was well thought of, even though a few students attended, just the idea that it wasn’t a mock something—students thought the question of the student body. Certainly the baffle-hop content had more students in a place than any of the other sessions, but those who saw members of the student body in an M formation with lighted candles on the quad, rang were not only impressed but also the singing of our Alma Mater.

Student Council was pleased with how it turned out; after all, it was just the beginning. Madison agreed. Martha Coldham expressed hope when she said that even though few people attended, they talked about it, and concluded that Student Government is to be commended for its efforts to stimulate “School Spirit.”

Let’s hope “School Spirit Week” begins a new growth spurt for co-ed activities at Madison.

Letter To Editor

The Breeze reached a new low in editorial discretion when it published an article which attempts to disparage the publication of the Student Government of Madison, Virginia. Modern Dance Club Adds New Members

Madison's modern dance club recently held its first tryouts of the season. Fifteen new members were added to the club. They are: Winfred Atkin, Nehal Benjam, Barbara Edwards, Virginia Gosta, Pat Goy, Midge Gay, and Martha Jones. Also: Vicki Lynn, Joanne Williams, Mimie Runge, Barbara Rasey, Sojoo Tolbert, Pat Wade and Connie Wilson.

The senior physical education majors automatically became honorary members. They are: Marie Foster, Janice Kibler, Dee Smith, Joan Plum, Martha Talman, Betty Seiling and Betty Stone.

Starting this Thursday night from 7:30 p.m., club classes will be held in Reel pool for prospective members of Porpoise Club. Everyone interested in trying out for the club membership one of the three sessions which will be held each Thursday night until November 6, after which tryouts will be held.

The Athletic Association will be in charge of singlegame Saturday nights, October 18, during which time members of Orchestra, Fencing, and Pursuit Clubs will perform.

Late!  

"Why are you late for school this morning, Jane?" demanded the professor of the girl struggling in.

"On account of the bell rang before I got here," explained Jane patiently.

Be Still And Know

The earth is singing praises to Autumn. This season has a beauty and a sadness that no other season possesses. The land is filled with brilliant colors, the sky, dotted with clouds,proclaims the season, and the wind swings through piles of leaves threatening a carpet over the earth.

To many people the leaves seem to be having one last glorious fling of life before settling down to rest. Their life's work is over, and it is not regretfully that they gently drift to earth. They welcome the promised peace and rest that comes to all who have done their best.

It is plain to see God's work in Autumn. When we can see his plan and care for every living creature, it is easy to love and feel his love for all the world.

A hearty thanks to the student body! Yes, thanks from the hockey team for your support of the game Monday with Hollins. In my three years at Madison, I have never seen as many people at a hockey game as there were present on Monday. Your presence was gratefully appreciated by the members of the team. There are more home games, so keep up the spirit!

In regards to the game, Madison Lost. Try as they could, the purple and gold could not penetrate the Hollins defense. However, the girls in blue found a few gaps in the M.C. defense to give them a score of three to Madison's none. Better luck next time girls—this Saturday in fact.

This Saturday evening, the Athletic Association is in charge of the sing-spiration program. The highlights of the event will be a short demonstration bout in fencing and some modern dance, presented by the Fencing and Orchesis clubs. After the movie, all are invited to Reed pool where the Porpoise club will demonstrate some of their skills. It promises to be a good show, so see you there.

Last week I neglected to congratulate Student Government on the fine job they did with the Sun-to-See week. There was fun for all and school spirit became the rule of the day.

Miss Soures has been elected to, and has accepted the position of advisor of the Athletic Association.

In answer to many questions, I will now tell the embarrassing truth. The Christopher that I study with happens to be a lovable old blue stuffed dog. He has been my faithful companion for quite a few years now. I suppose the psychology department would take me as being insecure. (Thanks DiMisa!)

I see that the sophomore physical education majors have been interested to know that the Recreation Council is shopping around for a new physical education building. I may be being insecure, but I have not been able to solve the problem of the body mechanicitis? They are suffering from body mechanicitis?

I have been asked by many to let them know what the Madison hockey team is going to do. We are inviting to Reed pool where the Porpoise club will demonstrate some of their skills. There will be a short demonstration bout in fencing and some modern dance, pre-

Theatre Brings Back Motion Picture Hits

Morose can be seen given, just like good looks are revered. The Virginia Theatre has arranged to bring back during this coming week several of the better motion pictures. One that played this summer while schools and colleges were on vacation, and one that a number of college students have requested is Glenn Ford starring in "DON'T GO TO REAR THE WATER" in CinemaScope and Metrocolor, which will be in this week-end, Friday and Saturday, October 17th and 18th. And, along with this excellent motion picture the Virginia Theatre is showing Bing Crosby, Bob Hope and Dorothy Lamour in "ROAD TO BALI" in Technicolor. Alan Ladd in "DRUM BEAT" filmed in CinemaScope and Warner-Color, a story about early American western history is co-featurd with a wild and wooly western, "TERROR IN A TEXAS TOWN" starring Sterling Hayden on Sunday, Monday and Tuesday, October 19th, 20th and 21st.

For your mid-week relaxation and enjoyment, the Virginia Theatre is bringing back the motion picture that many critics picked to win the Academy Award last year, "Darling" and "Academy Award winning Red Buttons" that will be shown this week at the University Theatre. "Pollock" the story of a good motion pictures will give any motion picture viewer something to pick from for their pleasure.
