For another week Congress has held the spotlight on the American news front. The three major issues before it, on which the strength of the present administration is being tested, are defense, credits, and appointments.

On the third day of the session President Roosevelt asked for $176,000,000 to carry the WPA to June 30, the end of the fiscal year. A House sub-committee, believing that improved business conditions could induce cuts of $190,000,000 new listed to the WPA roll, slashed the appropriation by $110,000,000. The bill, reaching the Senate in the form, was passed by a vote of 226 to 115—an assertion that Congress would not accept without question.

Stronger Air Force Proposed

Yet both Congress and the public give indication of approving the President's program. In a speech, in which he has requested $122,600,000, a large portion of this sum is to be used for the strengthening of our air force through the construction of 3,500 army planes and the training of 8,000 army pilots. This defense plan stresses also the protection of such as our isolated territories. Two planes, the Panaman Canal, the last being badly in need of an increased garrison. Before a joint session of the House and Senate Military Affairs Commit- tee, the Ambassador to Britain and France, Joseph F. Kennedy and William C. Bullitt, respectively, are reported to have described the German military machine, particularly the air armadea of approximately 10,000 planes.

Senior Class Comments

The Senate has been considering the three prominent appointments: Felix Frankfurter, Professor of Law at Harvard, who was nominated to fill the vacancy left on the Supreme Court bench by the death of Justice Cardozo; Harry M. Hopkins, former WPA Administr- ator, who has been named Secretary of Commerce; and Frank Murphy, defeated Governor of Michigan, whom the President appointed to the Attorney Generalship. Senate approval is expected in each case.

The most important European news of last week was made by Prime Minister Chamberlain, who accompanied by Foreign Secretary Halifax, took the rail east for the furtherance of his "appeasement" policy.

Insurgent Drive Planneda

It is believed that Mussolini, who is the Insurgent offensive in Spain, as to produce impressive victories before Chamberlain's visit to Rome, is determined to make no agreement concerning the future of present Mediterranean areas. At- the time of the Longchamp, it is likely that the Italian Fascist government is likely to insist on a bargain with Portugal and France for the "appeasement" of Italy's territorial appetites.

Another tall girl—blonde this time. She's equally dependable, and a little more on the serious side. Kitty White's the vice-president. And what's more, she's the "beauteous" type.

Another type—this time it's intellectual. She knows what's going on in the world and has some ideas of her own. Jull Ann Philp's the secretary, she's a good one, too.

Popular, versatile, and loads of fun, she's our ideal college girl. Anna Jane Reeder you can keep her in attires, but she takes time out to keep the chaps' filthy lunches. Another gal who's quick on the nerves. 'Anne has a "leaning towards larnin'," an' hasf a yen to go to the Guilch 'n' mander on down to the sink, to the Madison Penology Institution. Readin' and Writin' By Evelyn Bedee and Mary J. Wright The Martins and the Coys have nothin' on our Sophs who aren't so sophisticated for a day. Collegety speaking, they've only two years old today, but they've got a bench of mountain lassies as ever greased a feud in Shenandoah Gap. So get out your corn cob pipes and shake a leg at the dance in Reid barn tonight. Swing your pardner.

Seen on campus this week: Neck physies (to mate you)—Lauletta scruffling snow; Pages, Pages, Pages, wiping the smile off; and Lees brushing their dinners. It's so far, but we wonder what Miss Hopkins would say if a new flock of goats didn't up your each quarter to do the dirty work on campus.

Congratulations along athletic lines are in order—the Madison's newly elected 1939 varsity hockey captains and to the Pringles for their brilliant performance in basketball. They're surely not green when it comes to putting the ball into the basket. And we hope you'll be able to congratulate the varsity sectet to morrow night. Yes team!

The tale which has been handed down for years about Mr. Clapp's farm's unexpected plumps into the swimming pool has now a more recent rival. It seems Jaxx just couldn't stand stop while sleighing last Tuesday morning, and she ended up in the brook behind Wilson.
