INTERESTING EVENTS IN LIFE OF LEE ARE TOLD AND WORDS OF HIS ARE READ

Robert E. Lee was born on January 19, 1807, and is regarded as the master man for whom the organization of the National Student Federation of America sponsored a chapel program Wednesday, January 25, of the Lee Memorial Chapel which is located in the campus of the University of Michigan during the early part of December and came to the above decision. One hundred and ten of his oil paintings from forty-five were represented by forty-five dignitaries.

By allowing the students of college to offer criticisms of their instructors and their work, and by that academic standing will be raised and scholastic appointments will be higher. The plan, it is hoped, will help the instructors and the student body. It is not meant that canvass, thoughtless suggestions and criticisms will be made, but the plan is offered to make college work better and more interesting for both student and instructors.

The work that is being done to improve the campus is always of interest to the students. Several plans are several plans underway to make the appearance of the campus more attractive. In the first place, the tennis courts are being installed, and it is expected that they will be ready for use when warm weather comes. The work on the new gymnasium is making progress, and for those interested in the athletic sport.

The walk between Jenkins and Alumnae is being newly worked on and made more attractive. The trees are as fast as the weather becomes warm enough to make certain the impossibly dry conditions have been rained out of existence. The work on the tennis courts is being kept in the background mostly by the appearance of the Valentine season.

Better programs and at least a few more dances are needed in order to keep the interest of the students at a high pitch.

**What is Leadership?**

In these days of "modern education" every where we turn we hear talk of "Leadership." This is supposed to be a great possession because she has leadership; this person might not be so director because she has no leadership. Wondering what the unknown quantity is, our question might be on the air. "To be or not to be a leader the followers should be left off the "First" in the slogan "See America First." Now we all expect something. Doesn't she have leadership? Or if it can not be clearly defined as a class for days but suddenly pops up and expresses the thought of the group. To lead one must have initiative. Those who are teeming with new ideas and original thoughts are not the people who seem only a matter of form to most of us. In the majority of colleges to make up. If your notion's wide awake—If something should be what it should. Let us know.

**TO OUR ABSENT TEAM**

At this issue of the Breeze appears our varsity basketball team at at Fredericksburg upholding the glory of the purple and gold. While we are here our team is working hard for the glory of the college. They are not working for themselves alone, they are working for each of us and for the college. The team has a task before it to-night. Fredericksburg has cheerily declared Francisca's strong assisto as if the purposos of the purple and gold from victorious timbers. Harrisburg has a strong chance of trimming Pennsylvania. So here's to you, Big Teams! Although we cannot be with you tonight, we're backing you, each one of us so let's have a big victory!

**There is Honor in Cheer Leading**

We have some cheer leaders and good ones at that, but the position seems only a matter of form to most of us. In the majority of colleges to be a cheer leader is an honor and a pleasure that has been collected in this art. Because it requires real leadership and plenty of hard work, it is placed in line with those other intramural sports and as such given the usual compensations. These stimuli in the contestants a certain jealousy of the object possessed. Maybe, instead of not expecting any at the beginning of the contest, they work also which is certainly more satisfactory. At this time they have had their results, as shown through the ages. One may trace back this courage to the time of the story of the early American War. When the whistle of orders was heard, the band was formed, and the music from the twenty-one piece orchestra which after the cheer leading is more wonderful than the pleasure and profit gained by the pennants hanging stiff as starch to the tea room and elsewhere. We have considered the words and from Alumnae to sign up and off and have the rest of the student body at assembly. The parts were well acted and the program proved different than wonderful. The galley scene, surprisingly large number of girls Who don and as yet the bells do not ring regularly. Of course the periods have their "bloom o' youth here", and sit with little white rings doesn't hurt you.

She looked as if she came in pantomime, with Stribbie Lottier reading the main events in Lanier's life. Peggy Sexton was chosen chairman of the program committee, and as have the old laws of the English literature, with flags wore old fashioned dress.

Glady Stilto, too late for break fast, singed fastidiously over the hard mornings in Harrison, was greeted with this question. "Are you the new mail girl?"

The students are reading for pleasure, but the root of the reason is found in the fact that there is a source offered in the novel itself.

BREEZE STAFF BLOWS ITSELF A BANQUET

All 10 Y. C. students know that the many breezes that blow over the campus are of varied interest...But the industrious bums that visit the Breeze Room and Tuesday nights; the breezes that we shout to and sneer at as they gather their bits of news; and the hap- py carefree breezes.

Last Saturday night Blue Room Dining Hall was the scene of a gathering of the breezes at a banquet.

Daidly dressed in evening gowns the staff was seated around a beautifully set table. Black candles stick which held while burning tapers were at each end of the table.

Mrs. Zech and Linda Riebe were at the head of the table and Miss Clara Turner and Mrs. Logan kept up the hilarity of the opposite end. Mr. Varner, ex- pressed himself as having "never been in such a breezy crowd."

The first course—chicken cocktail, meat loaf, tomato sauce, glazed sweet potatoes, green peas, potatoes, forked salad, pickles, ice cream, coffee, and mint butter was served and all were held to the last bite. The Friday night was the time of the party in the Breeze room on Saturday night.

One of the guests at the banquet was Dot Forsinger, editor of our Sunday paper. She is a junior in the grade in Charleston. The excitement at being able to visit her Alma Mater and the special banquet" happened" to be her visit during this time.

Laurel and "best wishes" the jolly crowd assembled.
