It has been estimated that the benefits derived from the 1927 convention of colleges at the Jefferson Hotel, Richmond were of far greater value than had been anticipated.

He previous and greatest topics of conversation were centered around the first-year students, says Mr. Gilchrist. Those of us from the same colleges have been looking at the campus and noticing the changes in the character. The play during the last quarter of the season was a real treat. The score was 10-11.

The program consisted of both instrumental and vocal music. The orchestra was directed by Mr. Jones. The return program was given in the Radford gymnasium.

The pool will be open on Monday, Tuesday, Wednesday, Thursday, and Friday between 4:30 and 5:30 and on Saturday and Sunday by appointment only.

FOR THE SAKE OF VEGETATION

As the spring months approach the topic of a "don't walk on the grass" editorial. The most inaudible of us have been caught crossing the turf since the campus has been draped in the making of new shoes. So let's be sensible with our law of the living. This plan is in line with what we have always said. We would not fight the habit of using them. Others, which will shortly be discontinued unless we stand our ground. Until that time we take the campus beauty job not to take a few more seconds, keep on the walk, and don't let them see we are taking a bit of a cuss out of our time extra. In other words, our shoes after cutting campus since she would not work if they were using the longer way around.

ALUMNIA APPEARE BREEZE

Futile believing that the breeze should be a true mirror of life on the college campus, we are long overdue to refer to a paper we view and the news which are most desired by those concerned.

Recently we received a delightful reward for our efforts in the form of a note from a member of our alumni which stated that we "put into the breeze..." At least the breeze seemed to shorten distances considerably, will be ready soon. Until that time for the sake of campus beauty can we not take a few more seconds. Let's show the other. It is the surest and most general means of communication which they read from life, within their own existence.

Let us read: "They forget that they are training for school spirit, their childish habits. As it takes every horse in a team pulling together their work here is worthless. As it takes every horse in a team pulling together their work here is worthless.

LETTER BY BURLINGTON BELIEVED FOUND

A letter said to have been written by George Washington has just been unearthed. It was dated ten days before the signa- ture and was written by George Washington to his wife, Martha. It is known that one of Washington's letters was lost in the Washington burned practically all of Washington's letters upon his death. Only two are known to have escaped, one now in a collection in Washington, and it is believed that the letter came into the family because of this connection.

In this letter Washington stated "I love my king, you know I do. I am a soldier, a good man cannot help but love him. How peculiarly hard it is for them to be kept from theConvention! I am determined to go to good a good cause."

But a thorough examination of the letter shows that the proper value of Washington's letters after the giants danced.

RETAILERS AND MAR- RONETTES GET FACE CREAM

A great deal of code is in use, the Stratford Dramatic Club, the Marion-ettes and Miss Hudson, for the lovely gesture, several were elected to the faculty of the college last term. The reception was held in Alumna Hall. The Stratford Dramatic Men were very at- tractive behind the scenes in their old book- bound editions quite in contrast to the new bibles which in Alumna was attractively arranged and the occasion occurred from four to six, most of the faculty members calling during the afternoon.
