On Sunday, the University Recreation Center's newly con-
structed addition was debuted to the JMU student body. The
extension, which totals 164,608 square feet of new space, nearly
doubles the size of the original structure and will now have access
to a new inline skate rink and other new and improved amenities.

The addition features expanded weight, fitness and cardio
spaces; a second indoor track; an outdoor courtyard and a new
outdoor parking lot. The expansion opens for students at start of spring semester.

The addition features expanded weight, fitness and cardio
spaces; a second indoor track; an outdoor courtyard and a new
outdoor parking lot. The expansion opens for students at start of spring semester.

The UREC renovation and expansion will add or improve over 164,608 square feet of space when fully completed in August.

According to Eric Nickel, the director of university recreation,
the additional space and new amenities should be very well received. "It's going to be a great expansion, and I think everyone who comes in will be really happy with it," Nickel said. "We're really excited to see how it's going to be received by the student body."

Back to the future
Hoverboards on campus could become a thing of the past with new university ban

JMU recently announced a ban on “self-balancing scooters,” commonly referred to as hoverboards. The ban is in response to reports of hoverboards catching fire and causing injuries to their owners. The university said it will stop taking the time to investigate new safety recommendations and will follow guidelines put in place by the Consumer Product Safety Commission and the State Fire Marshal.

Some JMU students may now have one less option for navigating campus. (HPD announced through a mushroom drop out, and JMU recently suspended four students. While the meeting was held in the underground parking, the HPD said this was not the case.

On Monday, Luke Harman, the former Eastern Mennonite University vice president for enrollment resigned after arrest.

A positive influence

New dean of Graduate School discusses diversity and importance of research

By KATIE O’BRIEN
contributing writer

Jo Chao is the new dean of the Graduate School at JMU. Before coming to JMU, Chao worked as the dean of the Graduate School of the University of Idaho for four years. She has been teaching in the field of Chinese democracy for about eight years, focusing on the Chinese middle class and the impact of their views on the political system. Chao earned her Ph.D. in political science from the University of Iowa, and she has published several articles and books on political economy in China.

Chao was recently appointed as the new dean of the Graduate School at JMU. Chao has taught at several universities, including the University of Iowa, University of Louisiana, and the University of Arkansas, among others. She is also a recipient of the American Political Science Association’s Outstanding Scholar Award for her research on the Chinese middle class. Her research interests include political economy, democratization, and the role of the Chinese middle class in political change.

In an interview with breezemedia.org, Chao discussed her appointment as the new dean of the Graduate School and her goals for the future.

Q: What led you to accept the position of dean at JMU?
Chao: When I received the offer from JMU, I was excited about the opportunity to work in a university setting and to contribute to the development of the graduate school.

Q: What are your goals for the Graduate School during your tenure?
Chao: My primary goal is to increase the quality and diversity of our graduate students. I want to attract more students from a variety of socioeconomic backgrounds and different ethnic, racial, national and cultural backgrounds. Our current graduate students are pretty well- prepared, but we need more diversity. I also want to improve the academic environment of the university, which is to provide students with various backgrounds with high quality education. Second, I think that diversity has to do with responsibility. The diversity of the student body will increase the quality of the student body and enhance the quality of our graduate education by bringing in different ideas and opportunities for students and faculty. Why do we need such a strong emphasis on research? It's not just my personal emphasis, but also the emphasis of the university. Research definitely is and should be part of our teaching responsibilities. Secondly, the teaching capability and training in teaching graduate education can help students, many skills, such as organizational skills, communication skills, and people skills. Is there anything else you'd like to add?
Chao: As we work together, we can improve graduate education and achieve our common goals in graduate education. Graduate education and undergraduate education can reinforce each other at all times.

HOVERBOARDS | Ban is consistent with many universities

By BRITTANY TULLY
contributing writer

In the wake of the recent hoverboard ban at JMU, many universities have considered implementing similar bans on their campuses. The decision to ban hoverboards has been met with mixed reactions, with some universities opting for a blanket ban while others have allowed them on campus with restrictions.

At JMU, the ban on hoverboards was implemented due to concerns about safety and liability. The university has received numerous reports of hoverboard-related incidents, including falls and injuries. In addition, JMU's insurance carrier has expressed concern about the potential liability associated with hoverboards.

Other universities have implemented similar bans, but with varying levels of enforcement. For example, some universities have allowed hoverboards on campus with restrictions, such as requiring riders to wear helmets and follow certain guidelines.

The decision to ban hoverboards has been met with mixed reactions from students and faculty. Some have expressed concerns about the impact on mobility, while others have welcomed the ban as a necessary measure to ensure safety.

As the beginning of his final year as President of the United States, Barack Obama has dedicated himself to addressing the issue of immigration and gun control. On Jan. 5, Obama released an executive order regarding gun control, which immediately garnered praise, criticism and ignorance.

Obama’s move toward increasing gun control was long overdue. The gun issue is emphasizing that states must gain people’s complete criminal history in order to determine if they can better track “online illegal firearms trafficking.” Finally, the EO is also taking steps to increase mental health treatment, and making the information less to the new background check system.

Though this is an abridged overview, it’s obvious that Obama is taking the proper steps on this long-burn issue. Verbal action was immediately met with criticism. Many of the Republican candidates immediately reacted to their opinions, saying that Obama was asking more action to take away citizens’ guns. On the opposite side of the spectrum, there have been liberal proponents (mostly criminals), who have criticized Obama for not doing enough. Essentially they want Obama to restrict all guns in the U.S.

I respect Obama’s opinions on crime prevention, and agree completely upon the steps Obama has taken to make our country safer. Each move towards the steps that have been done are deeply ingrained in our society. Unfortunately, eliminating all guns (or making gun ownership illegal) won’t end the issue. Although it’s understandable that guns play such a large role in our society, we can’t allow ourselves to be vulnerable in a world where other civilizations have access to firearms.

People will always have access to guns outside of the U.S. The Second Amendment exists, and it shouldn’t go anywhere. Though this is an abridged overview, it’s obvious that Obama has succeeded in doing just that. The EO is also taking steps to increase mental health treatment, and making the information less to the new background check system.

The real question to be asked is whether Obama is taking the proper steps on this long-burn issue. Verbal action was immediately met with criticism. Haverbards banned for being too old

By MATT MURPHY

The Take

I don’t know about you, but every morning for almost the past 20 years, I wake up and feel just fine. At the beginning of each Fall, I fill my pockets and usher in the new school year with a weary sigh that can only be described as “school panic.”

Most mornings, I dread the thought of going inside that classroom. There’s something about the smell of that particular classroom. The people are all different and no one seems to care about the others. And the rules... I mean, the rules are ridiculous! Some days, I can’t even stand the thought of it. What if I walk into class and everyone is staring at me? What if I forget my homework? What if I’m late? What if...?

But then there’s the chance of something new. Maybe something interesting will happen. Maybe I’ll learn something. Maybe I’ll even have fun. Who knows? I mean, who knows what’s going to happen in the classroom? Anything can happen. That’s the beauty of teaching.

So when I heard about the new policy at Haverbards High School, I was既eling a mix of mixed emotions. On one hand, I was worried about how this would affect my students. On the other hand, I was worried about how it would affect me.

The policy itself is quite simple: any teacher who is 70 years or older will be banned from teaching at Haverbards High School. This includes me. And I’m 70. So I’m banned. From teaching.

I’ve been preparing to be a performer since I was 7 years old. I performed in my first musical at the age of 8. I’ve been singing and dancing ever since. I’ve even won a few awards for my work. And now, because of this policy, I’m banned from teaching. It’s embarrassing.

But I’m not going to let this policy get me down. I’m going to fight it. I’m going to appeal. I’m going to do whatever it takes to get back into that classroom. I’m going to prove that I’m still capable of teaching. Because I am capable. I’ve been teaching for over 40 years, and I’ve never been banned from teaching before.

I hope you’ll join me in my fight. We’re going to fight this policy together. We’re going to show the school that we’re not going to give up. We’re going to fight for our right to teach. And we’re going to win.

Thank you for your support. And remember: Always be prepared. Always be ready. Always be teaching.

Divest JMU is taking a step in the right direction

After over a year of demonstrations, meetings, presentations, projects, and organizing, Divest JMU has successfully taken a step in the right direction in pushing for action to be taken to divest our school's funds from the fossil fuel industry and the fossil fuel industry's complicity with the climate crisis.

Divest JMU was founded in the fall of 2015 by a group of dedicated and passionate students who were frustrated by the lack of action being taken by the university in regards to the climate crisis. Since its founding, Divest JMU has worked tirelessly to raise awareness about the issue of fossil fuel divestment and to push for action to be taken by JMU to divest from the fossil fuel industry.

Since its founding, Divest JMU has received widespread support and recognition for its work. The group has been featured in numerous media outlets, including The Duke hun's Chronicle, The Duke hun's Chronicle, and The Duke hun's Chronicle, and has been the subject of numerous interviews and articles.

Divest JMU's work has been recognized for its important role in raising awareness about the issue of fossil fuel divestment and for its dedication to pushing for action to be taken by JMU to divest from the fossil fuel industry. Divest JMU's work has been praised for its creativity, its effectiveness, and its commitment to taking action to address the climate crisis.

Divest JMU's work is an important step in the right direction, and it is a testament to the power of student activism. Divest JMU's work has shown that student activism can be effective in pushing for action to be taken on important issues. Divest JMU's work has demonstrated that students can make a difference, and that they can take action to address the climate crisis.

We commend Divest JMU for its work in taking a step in the right direction. We look forward to seeing more action being taken by JMU to address the climate crisis.

The doors open and your mouth starts to water as the smell of D-Hall enters your nose. buffalo mash is being served up at D-Hall today, and you take the stairs two at a time so you can devour a school of their buffalo mash, one of D-Hall’s most famous dishes, topped with crispy chicken tenders covered in buffalo sauce. It’s a bitter world from now on... It surely will be a tasteless... " writer G.G. wrote in 1918.

"As a student, I ate most of my meals at D-Hall," Dolly Lawson, a 1973 graduate from Madison College and now the director of vending services, said. Her D-Hall favorites were the special meals for Thanksgiving and Christmas. Since 1981, and was an instant hit. Besides a snack bar, D-Hall was the only dining option on campus. Lines of students waited to enter the building at every meal, ready to inhale their favorite dishes.

During World War II, student dining was affected by rationing. The Notebook, a pre-Breeze publication, published student columns about sugar rations. During World War I, student dining was affected by rationing. The Notebook, a pre-Breeze publication, published student columns about sugar rations.

THREE LOCATIONS. MORE POSSIBILITIES.
By Natalie Laverty

The Limits to Learning on the Dean and the Doctor’s Orders

After a September meeting where the board was discussing the need for help格院 Resident Advisor Kate Bagley, the JMU Police Department was already investigating a terrifying situation. They met out of the room, and they told her to be cautious only, to find an anonymous resident staying behind on the first floor.

Bagley and her fellow advisors immediately called for help and an ambulance came and took the freshman girl, who had also been passing away, to the hospital for further medical attention.

"Being an RA is tough, but I feel that it definitively entails challenges. The first thing is that you're always under pressure to maintain the safety of others. The other is that you are the first person that others turn to. There can be a common thread between those who want to take care of all others and those who are successful resident advisors," Bagley and MacKenzie Frakes, both sophomores, were drawn to this job for different reasons, but both greatly enjoy their positions.

"I definitely made the decision to become an RA in 2012 because I didn’t have a good friend from the high school, and a lot of people I knew moved away from me. I wanted to make my freshman year more memorable and have an overall better time," Jones said.

Jones loves her job but feels that it definitively entails challenges. She learned a quickly how to become the envoy of a freshman who gereed crafty and made it come to her. There are a lot of reasons why she stays, and it is just overall a great person."

"I kind of fell into this RA position unintentionally. At first, I didn't even want to join, but my mentor pushed me to join. She told me that it was a good experience, and she was right. I am so glad that I did it. I have learned a lot from joining," Bagley said.

"Being an RA is a great leadership and people skills. The most important ones at the end of the day,"

"I know that he was going to be a leader, " Gabbin said. "I knew that he was going to be a leader, and I knew that he was going to be mayor of this town, but I knew he was going to do it because he was a great leader."

"I loved working with the Contemporary Gospel Singers and the Student Government Association, singing in a group, and from the Quad. For Jones, the magnitude of Jones never wilted, and she was excited to be mayor."

"Aside from his new baby, Jones has noticed some other changes in his life. Mainly, how much he has grown in his life."

"I love sharing knowledge with others and getting advice from my mentor, " Jones said. "I love being a mentor to others and getting advice from my mentor."
First-year head baseball coach Marlin Ikenberry has past ties to JMU

It’s now been over one week since JMU head football coach Everett Withers left for Texas State University over winter break. According to a report by football.scoop.com and the Daily News Record, Withers may bring multiple members of his staff and team, including strength and conditioning director Aaron Bower, running backs coach John Bonner, offensive coordinator Scottie Lineburg and defensive coordinator Michael Burrow. However, he was rehired last week to fill the position of director of player personnel.

The Breeze

As many students and faculty I hear], it's been so consistent. "I just work and give the most effort as I can and help the team win conference play."

The Serbian has become quite the crowd pleaser coming off the bench with his sky hook shots and emotional three point celebrations. Cabarkapa has steadily kept his scoring game and be able to impact the game is what we have come to the conclusion as being what

His role is, " Grays said. "I like his work."

"Even when he's not scoring a lot, he's still doing a lot for the team or encouraging people to do things." Brady said. "Everyone is going to have some ups and downs."

"I don't know the right answer to that question, " Cabarkapa said when asked about how

"We're not looking at it as: 'We want to win every game,' but I think we have to apply what we've learned through each loss."

"Our attitude has changed, " Brooks said. "I thought

"I really like where we are, " Brooks said. "We're

"I love the fast pace. We can run [and] go, " Mickens said.

"I think the team may not be getting from its starters.

"The Dukes still remain undefeated at home in the

"I don't think there's anything way off target, " just think we need to tweak on our end all the

"Despite the late game losses so early in the conference schedule, not much blame should

"It seems like we hurry up [just] to wait. Friday, the players are still adjusting to the Friday/Sunday game

"I think we have to continue to get better," Brooks said. "No matter how hard we try, we have a game; Saturday, you have a walk-through; Sunday, you have a game; the next week (throughout)

"We need some still positive takeaways from it.

"It's a little different," Godfrey said. "I'm not used to being stopped, but it's a dynamic game."

"I think the offense will end.

"But he's not a guy that is a very proficient shooter, but he can help change the tempo of the

"However, there's one guy that Brady is trying to find a niche for and that is the redshirt junior transfer from Butler University, Donte Morgan. Morgan is an athletic guard who

"offensively, " Brady said. "If not for one or two plays we could have two or three more wins, so

"It seems to have become apparent that their

"The Breeze has been quite the rebounder coming off the bench with his big shot and emotional three point celebrations. Cabarkapa has steadily kept his scoring game, leading the team in scoring with 19.1 points per game, running the floor and stopping scorers isn't a problem, but

"Leading the team in assists with 7.5 per game, running with "Terrific energy and great

"There are going to be games when he gets in and helps us win. "

"He's handled his role with great maturity, " Brady said. "He is in a situation where I'm

"He's been big for being a leader for the team. "

"Grays is averaging 7.3 points per game in conference play so far this season, a bump up

"Even with only four active seniors remaining on the team, it seems to have become apparent that their young players currently only see enough consistent minutes as

"He has handled his role with great maturity, " Brady said. "He is in a situation where I'm

"It seems to have become apparent that their

"He's been so consistent. "I just work and give the most effort as I can and help the team win conference play."
