LITERARY SOCIETIES AN ASSET TO SCHOOL

Library societies on the campus have proven over and over again their value to the college. The three societies in question play a vital role in the daily life of the campus, one that no one would wish to be without. They not only contribute to the intellectual life of the student, but also provide a sense of belonging and community.

As ONE WALKETH

Miss Anthony was once heard to remark that one of her student teachers had surprised her in accomplishing a certain piece of difficult work in her teaching. "But," she continued, "if I had watched girls across the campus, I would not have been surprised at the fact." Miss Anthony then explained that her reason for such a statement was that this particular girl had such excellent posture, and carried herself as well that one would naturally expect efficient execution of difficult tasks.

And so it is that our general appearance goes far into influencing opinion. The proper living of the principal character, literary ability, and leadership on the campus, such qualities are sought after in choosing girls for their popularity among the student body, but rather which event adds spice to the usual routine of activities. ROTARIANS ENTERTAIN AT DINNER

The Harrisonburg Rotary Club was host Sunday evening to alumni who are daughters or sisters of Rotarians. A lovely dinner was served at the Kavanagh hotel last Tuesday evening. The local club has made it an annual practice to entertain the girls in the College who come from Rotary homes for the entertaining of the girls in this form.

An entertaining program had been prepared in advance, and it included Mrs. Florence Milnes, assistant dean of women,FLachered the girls. Mrs. Milnes introduced the girls to the club by calling the name of the girl and giving the name of her home town, as the girl stood.

One of the most unique features of the entertainment was the method by which each girl told the classification which her brother or father represented, and in some cases they each told in pantomime which her brother or father represented. The club members guessed the answers, the one answering the highest number of questions winning a prize. Dr. Gibson received this honor.

The Harrisonburg quartet added entertainment and interest to the program by the several musical selections offered. Mr. Kieiser, superintendent of the local schools, then addressed the gathering among them the club's " Rotary Arc.," and the members offered to the club members who have had birthdays during the past week.

To the girls of the College, the Rotarians also had other gifts. They presented the college with a new table, the Linen Arc., and the club members who have had birthdays during the past week.
