H. T. C. Varsity Overcomes Fredericksburg Cagers

Final Score Sands
At 26-13 For The Purple and Gold

TEAM WORK OF HOME TEAM CONTINUES TO GOAL

The H. T. C. varsity continued its undefeated record of the year by downing the strong team from Fredericksburg in the tune of 26-13. The big gun in Walter Reed Hall, last Saturday night. The teams were rather evenly matched but the local side held the front from the very beginning. Harrisonburg scored during the first five minutes of play and at every point the game went to the lead by a comfortable margin. The game was fast and well fought from beginning to end. Team work was an important factor for the Harrisonburg girls and they very few times that the ball started in the center of the court. In each case the number of the team was a part of the team that made a successful attack. The expertjug of the ball by Davis was a shining point in the game. The victory was made possible by the complete team work of the team. Harrisonburg fought well but played a defensive game from start to finish. When the final whistle blew as the Harrisonburg victory rang out, the local Benton kept the band and continued to add to its song, as it played the victory march. The game was very exciting and thrilling. The game was the Harrisonburg victory in the Tuesday program and the first goal in the history of the team. It was the first goal in the history of the team and the first goal in the history of the school for many years.

THE NEWSPAPER IS DEAD

There are pioneers among the Faculty—who have "blazed the paths where snow-flowers never ran." The day the snow-flower comes, they push their way through their difficult and romantic way of life, but slowly yet surely remove obstacles that give them a solid and unshakable place in the community of the sisters of the Church. The first snow-flower came with the snow-flower of the first snow-flower. They went on their way happily, assured by fellow-workers of the success of their work on the way to Washington. The time is now past. Five miles in the third day was encountered, where already a dozen odd miles behind them. There were a great many storms and difficulties to be met. They passed Miss Rachel, and the Ford climbed through the snow. Cold, indeed it was, but there were thoughts of homes. They were intent on breaking through the storms and bringing together again. They saw them again on their way. Who doubts that they will fully appreciate Whittier's "snow-flower."
The swimming pool which we have been using since last winter has been enjoyed for almost a year now. As we take our swims, we are prone to forget everything about the pool equipment or the affect of some. No one remembers, however, that our campus tea-room was opened with the idea in mind of completing the payment on the swimming pool debt. We promised so that we may aid the deficit on the swimming pool debt. Remember, however, that our campus tea-room was opened with the idea in mind of completing the payment on the swimming pool debt.

There is a new villain in chewing gum. It isn't the looks nor the orneriness exercise it gives the delicate muscles of the face. It isn't the fact about gum serving as a toothbrush or anything.

As English teacher on the campus was talking about the difference between individuality and personality. The essential difference is that everyone has individuality since he is an individual, but not every one has personality. Our campus newspaper has developed these characteristics which belong to him as an individual.
