"His ideas are constantly against the formalism of the educational world," Dr. Kilpatrick is known for his ability to analyze and rationalize the educational system.

The following reasons are why Dr. Kilpatrick is one of the greatest lecturers in the world. First, he is a great teacher who is always able to analyze and rationalize the educational system. Second, his ideas are always against the formalism of the educational world. Third, he is a very versatile lecturer who can speak to any group of people.

SAVE-A-LIFE PERIOD PROCLAMATION

WARREN, Experience has demon-

strated that the accidents involving motor ve-

cihcles are directly the result of defective mechanisms or equipment; and

WHEREAS, these accidents leave in many cases the families of human life and limb, entirely aside from the waste of property and

And I earnestly urge that all owners of motor vehicles, including those in the state, put into practice the methods of saving human life and limb, that life may be saved.

The Honorable James H. Hayes, Governor of the State of Virginia, in conjunction with the automobile industry and all garages and service stations, has arranged for the inspection of motor vehicles, to include examination of brakes, tires, and other parts of the automobile, and that the Governor has notified the motor vehicle owners of his proclamation.

AN OPINION ON PUBLIC OPINION

To be influenced by public opinion or to be unswerving in its face with all integrity is a question which confronts every one at all times. Whether a person is a member of the business world, the field of education, the world of music, or in any other walk of life, he is confronted with the fact that public opinion is influencing him greatly. He cannot escape it. Everyone is in its way. All of us do many things and conform to many practices of which we disapprove. Yet we allow these things. It's just the thing to do. We would much prefer something else but we are afraid of criticism and we are bound to receive it if we ignore public opinion. Naturally we all admit that public opinion is one of the world's strongest factors and it influences our actions in many respects.

Of course, we are all of the opinion “we all grant that, Naturally we do not wish to appear queer and unconventional. Yet, are we not willing on occasion to stand up for what we believe?” Edna Edmondson. There are no limits to our freedom of action in the world? It takes self expression and courage at all times to further progress and the upward trend of civilization.

AND THIS ANOTHER

There seems to be some misunderstanding among a few of us as to just what privileges are and how they should be regarded. What is the trouble? And why do we have privileges?

As an answer to that last question, assume the first question: Why restriction? We all realize that we leave this College as full grown women who are going to go out to guide yous. But we like wise realize that when we enter into our rights as we are just a little off line of childhood and that we, for the most part, are entirely away from home influences for the first time. As a freshman we come here to be a part of the real world; we are educated, and there are any limitations in the world. It takes self expression and courage at all times to further progress and the upward trend of civilization.

Visiting: "How does the land lie on this way?"

Native: "It isn't the land that lies, it's the real-estate agents."

First He: "Why do you dislike him?"

Second He: "He's full of opinions that are wrong, and can always prove everything he says."

Proudence: "People call me stickly. It makes me feel so queer. It's not that I'm being mean, it's just that I'm ... sitting still here. Only the time I've wanted to help is to help in making things, I don't think it's funny. I'm too modest to say."

But, will, someone just told me, and I have to tell you that, that life is always that when I'm a hunch of the life.

Mother: "Our daughter won the blue ribbon at the beauty contest."

The Technician: "Thank heavens! At least she will have something to wear."

"Comforter, do you call this a fast food town?"

"Yes."

"Then, Why?"

"Well, do you mind if I get off and see what is going on before I get there?"

"Give the principal parts of possession?"

"Head, legs, tail."

Teacher: "What do you suppose Sir Isaac Newton thought when the apple fell on his head?"

Janie: "He guessed that it was bigger than a fruit."

"Is that so?"

She: "Cause what?"

Her: "Causettia."

WITH SPRING COMES SUNSHINE

O deep, violet sun
Shine on a rose white;
A red Columbine,
Feast every thing:
A gift

A lovely, fair gift
That is sent down as love—
The life that is sent
By a power above!

AUNT PRUNELLA'S CORNER

Aunt Prunella, as much as I dislike publicity, I must say that I do believe that one is almost minded that your friends form little groups and sit around discussing the mending condition. The other day while in the library, I bumped into the statue of Hale there and, as being so prepossessed, exclaimed, "Oh, ex-cuse me?" Much to my surprise, your friends asked me what I could do. She hurriedly processors Lee Harriss

Dear Lee, Oh, this younger generation! You and your friends seem so small and immature. You and your friends are often out and about, talking and chattering. You and your friends are often out and about, talking and chattering. If your friends insist on joking about such things, I don't think you can do it without feeling a bit of shame in your heart. Then to think that you can do that without feeling a bit of shame in your heart. Then to think that you can do that without feeling a bit of shame in your heart. Then to think that you can do that without feeling a bit of shame in your heart. Then to think that you can do that without feeling a bit of shame in your heart. Then to think that you can do that without feeling a bit of shame in your heart. Then to think that you can do that without feeling a bit of shame in your heart.

ERSKINE IS DISCUSSED BY THE PAGES

A discussion of John Erskine was held at a regular meeting of the Pape Literary Society which was held last Friday evening.

This was an interesting outline of Erskine's life, emphasizing the fact that he is extremely talented and versatile. The attractiveness of the description was increased by the showing of several pictures of the author.

Lindgren presented a look back of Erskine's latest novel "Adam and Eve," interpreting his spirit in a very clever manner.

"These Pages this quarter are making a study of modern writers, with Garth's high research work into the new works of the novelists."

MUSICIANS ENTERTAIN IN CHAPEL MONDAY

Chapel exercises were unusually interesting Monday noon due to the presence on the program of Mr. and Mrs. Potter of, Charleston, W. Va. Mr. Potter is brother-in-law of Dr. Rivers of the local Methodist Church.

Dr. Rivers was present and conducted the developed exercises, after which Mr. and Mrs. Potter were introduced by Pres. Daube. Mr. Potter is connected with the Baptist Church at Charleston.

Mrs. Potter sang a beautiful aria from "Roméo and Juliet," by Gielon. She was accompanied by Mr. Potter. This was followed by a piano solo by Mrs. Potter, "Shapely Number." She sang one or two of these numbers so well that the audience begged for encore by her fervent and prolonged applause. Mr. Potter favored the student body by another beautiful song by Chopin. Capriccio, arranged by Lois. Finally, Miss Garth and Mr. Potter sang two more songs with such feeling expression, and beauty of interpretation that she completely won the hearts of all the hearers.

One of these was entitled "Little Pickandy Kid," and the other was entitled "Sôla," a cabinet but lovely aria in English, "Hymn to the Rising Sun," that left every one of the audience breathless.

This was Mr. and Mrs. Potter's second visit to the college, and the student body is fervently hoping it will not be their last.
