At Last

Whoops! The time had at last "arrived" for the Freshmen to open the Freshman Debating competition with a solemn address and as they waited and as they dreamed wonderful dreams.

Visions of wonderful moonlight, of meeting the young men that they had known and dates every night in the week, danced through their heads.

Finally, it was all ever and as they looked about they very definitely shook their hands and murmured to one another, "Freshmen, we are not yet, but the privilege is so, be for the right life of Harrisonburg--that leads to the great white way.

SISTERS IN EVERY SENSE

It stands to reason that a task that is a pleasure is easy to accomplish. We might state that as a rule, but there are exceptions to all rules, and in that way we are led to the thought of the task itself. How can we thank you? In every trouble you have been encouraging until we have been able to laugh with you at our own mistakes.

But there is another aspect of the work. What lessens your enthusiasm? The issues that are not in your eyes? A clear-eyed, unprejudiced outlook; a newness in thought and action; a determination to do what is right—these are the issues that are lessening the heart of the task itself. How can we thank you? In every trouble you have been willing and ready to help us. We have come to you as individuals and as members of the society. How can we thank you? In every trouble you have been willing and ready to help us. We have come to you as individuals and as members of the society.

Thoughts count for so much more. Our thoughts of you can find expression. Your thoughts of us will yet to be discovered. Words are meaningless things at best. But there is another aspect of the work. What lessens your enthusiasm? The issues that are not in your eyes? A clear-eyed, unprejudiced outlook; a newness in thought and action; a determination to do what is right—these are the issues that are lessening the heart of the task itself. How can we thank you? In every trouble you have been willing and ready to help us. We have come to you as individuals and as members of the society.

The last thing about thought, the last thing about thought, is that it is the realization of the world. The world is one thing; the mind is another. The mind is the world. Our thoughts of you can find expression. Your thoughts of us will yet to be discovered. Words are meaningless things at best. But there is another aspect of the work. What lessens your enthusiasm? FRESHMEN HAVE BEEN ACTIVE IN ATHLETICS

THE DEAN STUDIO

The Freshman class of 1927-28 has already proven that it is not lacking in athletic ability. Great enthusiasm was shown at the beginning of the school year in the new sport, hockey. Lena Bones was chosen to lead the band, as she had shown her ability by winning over the sophomores and juniors in this venture. The series ended with the Freshmen in second place. Many developed into good players, and they will visit H. T. C. again in the near future.
