Captain Carr Gives Life Saving Test Here

The annual Southern Intercollegiate Student Government Convention was held during the first week in April. The convention was a resounding success, and the delegates from eighteen of the southern colleges gathered to exchange ideas, to discuss problems, and to take part in various activities. The convention, held in the dormitories of the college, was a meeting of intelligence and brotherhood, and all who attended found it a source of inspiration and encouragement.

Captain Carr, a distinguished figure in the field of water safety, was one of the key speakers at the convention. He delivered a stirring address on the importance of life-saving techniques and the need for continuous education in this field. His lecture was followed by a demonstration of various water rescues, and the delegates were able to see firsthand the techniques used in saving lives.

Following Captain Carr's speech, there was a question-and-answer session, during which the delegates had the opportunity to ask questions and to receive guidance from the experts. The session was a valuable learning experience for the delegates, who were eager to gain as much knowledge as possible.

In conclusion, the convention was a great success, and it left a lasting impression on all who attended. The delegates returned to their respective colleges with renewed enthusiasm and determination to promote life-saving techniques and to save lives wherever they could.

Dr. Mary E. Markley is Heard Monday At Chapel Program

Dr. Mary E. Markley, Secretary of Education for the First Lutheran Church, is heard Monday at Chapel Program. Her words are timely and important, and they serve as a reminder of the importance of education and the role of the church in promoting it.

The lecture is titled "The Purpose of Education," and it is a thoughtful reflection on the meaning and significance of education in our lives. Dr. Markley explains that education is not merely a means to an end, but rather a way of life that enables us to grow and to fulfill our potential.

She goes on to say that education is a means of preparing ourselves for life, and that it is essential for our personal and social development. She emphasizes that education is not just a matter of acquiring knowledge, but also of developing the skills and attitudes that will enable us to live fulfilling lives.

The lecture is a powerful reminder of the importance of education, and it is a message that we all need to hear.

The Breeze is Spring

In the spring, everything comes to life. The world is filled with new growth and fresh beginnings. The flowers bloom, the birds sing, and the air is filled with the scent of new beginnings. It is a time of renewal and hope, and it is a time to celebrate.

The Breeze is a celebration of the spring season, and it is a reminder of the beauty and wonder of the world around us. It is a time to take a deep breath and to enjoy the simple pleasures of life.

The Breeze is a time to reflect on the past and to look forward to the future. It is a time to remember the joys of yesterday and to anticipate the possibilities of tomorrow.

So let us embrace the spring and let us celebrate the beauty of the world around us. Let us be grateful for the gifts of nature, and let us be勇士 for the opportunities that lie ahead. The Breeze is spring, and it is a time to be alive and to be grateful.
THE SIGNIFICANCE OF AN APPLE TREE

On the campus, south of Alamo Hall stands a huge Blue-Stone rock. This rock is the symbol of the architecture, of the building, of the growth of H. T. C. It stands there symbolically in some sense the firmness and beauty of the foundation upon which the material and traditions are built.

And in this blue-stone rock is growing a plant which was perhaps carelessly thrown there, or perhaps blown somehow into a tiny crevice where it lodged and remained. This plant was an embryo, and the apple blossom is the flower of H. T. C.

We wonder whether, indeed, you've glanced and realized that some-thing is happening, in your interest but you don't know what, whether you know it or not.—THAT APPLE TREE IS GROWING.

Do you see the symbolism in the growth of that apple tree?

That apple tree is growing, and its growth is strong and straight and fine. It is stretching—you can almost see it stretching—to reach the blue sky, to reach the beautiful thing—this growth. It is rather a legend that will stay close to the traditions of H. T. C, with its Bluestone Hill, and apple-blossom flower.

One may read of this coincident work of nature and think it odd that this apple tree is growing a plant which was perhaps carelessly thrown there, or perhaps blown somehow into a tiny crevice where it lodged and remained. SEVEN SECONDS AT CROSSINGS

It has been estimated that the average time it takes to pass a crossing is seven seconds. The average person must be a good driver for a long freight train—a matter of inches instead of seconds. It must be understood that there is no train in both the tracks.

In other cases, however, the railroad men who try to be a team at a crossing is risking limbs and life to save a very small part of time. More than 10,000 persons lost the contest to the traffic last year. Some of those fatal accidents do not occur in quiet suburban sections. A great many of them are in the city.

Perhaps there would be fewer will- ingly give it to us. This takes the road will drive more quickly than they might have if they had more time to be glad they are alive and blessed with good sense and patience.

The Tulane Hullabaloo—Tulane University

Angels and ministers of grace de- fend us from ever getting such a rage on campus as has formulated on the Tulane campus. The outburst of the spirit is at the time of the campus which appear daily on the official University bulletin board, and neither we nor our brother know who is going to be the next victim of the poet's fancy and grief of the campus from one day to another. Whether even the Prep come in for their share of the blame.

The Hullabaloo gives us the following points about the rage.

This latest Tulane fad takes the form of a comic memorial tablet cele- brating the death of some poor student's frailties and failings. It is going to be the subject of a socialite awards in the next victim.

We must have the red caps continued to be the next victim of the poet's fancy and grief of the campus from one day to another. Whether even the Prep come in for their share of the blame.

LUTHERAN GIRLS HEAR DR. MARKLEY

On Monday afternoon, the Lutheran girls held a reception for Dr. Mary E. Markley, secretary of the board of education of the United Lutheran Church.

A most interesting discussion of the situation that Dr. Markley experienced in Europe last year was held, with a discussion of problems had with colleges and social circles at the present time.

The reception was thoroughly enjoyed by every girl present.

A SHATTERING

Rain beats on my face,
I remember what it meant
To feel its cool caresses.

One day I told you
I loved its streaming
Down my face.

You laughed and said tenderly
"Then you must like
To wash your face."

I hate you, now.
