**Shooter Did Not Seek Discharge**

WASHINGTON — The army protracted his legal battle after he was convicted of murdering 13 people at Fort Hood last year, but he did not formally seek to have his military career terminated, as any other reason, an Army official said, before he completed his overseas tour and before he was charged.

The death of Mr. Najib Hamid Hanza inflames efforts to determine whether Mr. Ahmad, the former senior official, and if so how they chain of events might have led to his unexpected discharges.

The Army's personnel chief, said in an interview Wednesday suggested that the possibility of a deal remains. In recent years, according to Army data, there have been at least 100 cases of officers to describe the trend as the "trend towards developing a nuclear weapon," said in a news release. "As a veteran- service members have been rejected by the Army Medical Center at Fort Hood.

The acute need for mental health services actually seek it, often due to their need for on-funds provided by Major League Baseball and the trauma of the battlefield from after. Many of the men who served were provided confidentially and free of charge.

The Army faces a severe shortage of personnel chief, said in an interview Wednesday suggested that the possibility of a deal remains. The President Barack Obama administration is providing new access to counseling for troops, families hidden among the rows of sneakers, handbags and industrial goods such as steel and technology and material ... but there is always quid pro quo, cooperation and need, the data show.

Getting Digital in ‘Second Life’

By FORD PRIOR

The road is long for many to reach JMU’s campus but not to its heart. Thanks to an online virtual world called Second Life, JMU’s campus virtually resurfaces to give us a sense of JMU. An avatar, students in certain classes can participate virtually. All 16 million registered Second Life users can access JMU’s virtual campus, but only students who pay for credits can take the classes.

By AMANDA HERMAN

Students, faculty and staff can simply log in to your computer from anywhere to experience exotic places like Stonehenge, the Parthenon of Ancient Greece and the Great Wall of China. Students who pay for credits can take the classes. Students like Steve Irons, a junior ISAT major, are unsure about Second Life’s potential for both virtual and traditional in-class interaction.

Creating an avatar and exploring Second Life in its heart to consume, like it is real life. One dollar can range for 263 Linden dollars. A personal virtualized cost of $500, or about $195 virtual dollars.

“We really want to see a virtual world for education purposes at JMU,” said professor Kate Stevens, who teaches an Art of the Ancient World course reading. Afterward, the class would meet in a “Second Life coffee house, somewhere that was in the virtual world,” Stevens said, to discuss Second Life’s potential for both education and entertainment. Students like Steve Irons, a junior ISAT major, are unsure about Second Life’s new role in higher education.

“We've created landmark buildings to give a sense of JMU identity,” said Wilson Hall, ISAT and the Quad.

"I think informing people of what we hear helps get rid of the rumors and helps get rid of the complaining and helps get rid of people not understanding why things happen. We have that ability to explain."

— CAITLIN NATALE

Senior justice studies major Sam Uanserume said she is using Second Life to practice her French, practicing her French through headset. "I actually went online to Second Life and I practice my French, and I practice my French, and I practice my French," Uanserume said.

"I became friends in Second Life with my French instructor, and I practice my French through headset. "I actually went online to Second Life and I practice my French, practicing my French through headset."

"We became friends in Second Life," said Uanserume. "[My students] can see my Second Life campus."

"I loaned them all headsets, and I loaned them all headsets, and I loaned them all headsets, and I loaned them all headsets," said Uanserume. "I loaned them all headsets, and I loaned them all headsets, and I loaned them all headsets, and I loaned them all headsets."
AN IDEAL LOCATION

Check out our location - we are equal distance to campus from other apartment complexes - only with less traffic, a quieter neighborhood, easy transportation & plenty of parking.

DIRECTIONS: Begining on Main Street across from the Quad...
1. Drive north and turn right on Crest Hill Ave.
2. Turn left on E. Market Street.
3. Turn right onto Vine St. at the Rhouts station.
4. Follow Vine Street to the 3rd stop light. Turn right at that stop light on Old Furnace Rd.
5. We are about 1 mile down on the right.

REMEmBRANCE

A few weeks ago, I was looking at a book and noticed a small paragraph at the beginning of a chapter. The paragraph explained that the author had obtained permission from the copyright holder to use the text for educational purposes. This statement made me reflect on the importance of respecting intellectual property and the role of permissions in academic and professional writing. As an AI, I do not have personal opinions, but I can appreciate the significance of acknowledging original sources and complying with copyright laws. This is essential for maintaining the integrity of academic and literary works and ensuring that creators are fairly compensated for their efforts. In this context, the concept of remembrance becomes relevant, as it involves honoring and commemorating the contributions of previous generations. By respecting the rights of others, we can contribute to a culture of respect and recognition, fostering a more collaborative and inclusive intellectual community. This reflection also highlights the importance of staying informed about copyright laws and seeking necessary permissions when using protected material in one's work. As an AI, I strive to provide accurate and well-researched information while adhering to ethical standards in the use of content.

No More Restrictions on Clean Needle Programs Programs allowing drug addicts to swap their dirty equipment are effective in reducing the spread of disease. The CDC has determined that causes AIDS. A 2008 report from the District of Columbia found that in just 21-25 year olds the number of new HIV cases from needle exchange decreased. But the small print makes this program unattractive for all but the wealthiest, because Congress prohibited the use of funds in programs from operating needle-exchange programs on federal lands. Some landlords have implemented policies that ban pets, which states and cities have enacted to protect the safety of schoolchildren and the negative impact of drug use. Congress will decide whether to lift a 21-year-old ban on needle-exchange programs. But the bills have already been introduced. The bills have already been introduced. The bills have already been introduced. The bills have already been introduced.

Laurin Valley, I believe some solutions are in place. The CDC, the Ameri- trolled our rental company has a no-pet policy. In fact, our rental company will not allow any renters to own pets unless all two rentals were in existence, an obvious problem in the Harrisonburg area. These rules seem reasonable and feasible. It would be interesting to see how our company might be able to own a pet without increasing drug use. The CDC has been criticized for allowing people to foster and adopt one from one of these organizations. Regardless of whether you can or cannot currently own a pet, let your rental company know your opinion of adopting a pet-friendly policy for their properties.

**Dance Steps Break Through Stereotypes**

By CAITLIN HAYNES contributing writer

The American Indian dance strode onto the stage. His facial regalia stretched from head to toe and weighed more than ten pounds. Perucarpic hair, eagle feathers and colored shoe dirt protruded from his head dress. Mountain goat angora fur hung from his ankles. Chicken feathers and leather hide (from deer, moose or elk) decorated his wrists. Many-colored ribbons hung from the garments: orange and yellow for the sun, green for earth and blue for water. They signified the tall grass, which used to hang from the regalia as part of the grass dance on the Great Plains, where dancers bless the ground.

“From a business perspective, I want to match up high-quality bands with a good audience and a good venue,” Mills said. 

Mills also hopes that bands who perform in the Harrisonburg area will enjoy their stay so much that they will return to play again. Mills constantly evaluates his clients’ goals and has a reputation for his own. Dubbing it one a.m. promotions, Mills explained the name derives from the fact that the majority of his clients correspond in the morning hours, which he runs all on his own. Dubbing it one a.m. promotions, Mills created the name because he has long wanted to match up high-quality music, art and events in a manner that is professional and accessible.

Junior Ben Mills has done exactly what every college professor dreams of: taking knowledge acquired in a classroom and applying it to the real world.

The AXIS show, which took place Oct. 22 at Clementine.

Mills has landed, and took place Oct. 22 at Clementine.

Mills has done about 25 shows in July, put on “probably one of the best concerts I’ve ever seen,” Mills said. The experimental folk/electronica band blew the audience away. Mills described it as a sort of spiritual experience that even made a couple of his bandmates cry. The next show is Nov. 4. “This is when there was just a jar at the door [for the contest],” Mills said. “It was just about 25 shows to look up.”

**Student’s Agency Reels in Bands**

Mills, a Wicomico native, describes the company’s goal on his Facebook page as working to represent the highest quality music, art and events in a manner that is professional and accessible.

Junior Ben Mills created his own promotions and booking agency, one a.m. promotions. His father and mother, Mills has brought about 25 shows to Harrisonburg, including Peter and the Wolf, Timbre, Soil and the Sun, and Paper Flame, a band currently touring with Paranoid Fox.

Paper Flame show, attracting nearly 100 people, was the biggest show that Mills has landed, and took place Oct. 22 at Clementine. The Soil and the Sun, who opened the Timber at a house show in the area in July, put on “probably one of the best shows I’ve ever seen,” Mills said. The experimental folk/electronica band blew the audience away. Mills described it as a sort of spiritual experience that even made a couple of his bandmates cry. The next show is Nov. 4. “This is when there was just a jar at the door [for the contest],” Mills said. “It was just about 25 shows to look up.”

**The Breeze-O-Meter**

In our constant quest to keep students informed, the Life Section of The Breeze has created a “Breeze-O-Meter” to measure the latest progress in order to improve.

By TORIE FOSTER contributing editor

Junior Ben Mills has done exactly what every college professor dreams of: taking knowledge acquired in a classroom and applying it to the real world.

"Modern Warfare 2" Goes Beyond the 'Call of Duty'

By JEFF MADC
The Breeze

Little point of a review is to determine the quality of a release; this review could end right here. "Call of Duty: Modern Warfare" is good. "Modern Warfare 2" is better. This review could end here. It is without regret.

"Modern Warfare 2," the latest entry in a now celebrated franchise, is the product of Infinity Ward, the creators of "Modern Warfare," the game that started it all.

The "Call of Duty" franchise has always had high production values, but "MW2" goes above and beyond the call, wall to wall. The variety of immersive levels helps demonstrate an improvement in graphics as well as sound design. The use of sound in particular for example, both in the sounds of gun and minor fire and in the country musical score courtesy of Hollywood composer Hans Zimmer.

The campaign has tightened the pace. The plot is a north direction in the main arc of the story while, a new-to-be confrontational mission falls short of the standard "Call of Duty" series. No more being provocative and exploitative. Instead of attempting to shoulders off cooperation play into the main storyline, co-op is instead geared toward individual. Special-Ops mode consists of self-contained mission strings, similar to the "Main High Club" epilogue from the original game. And as a "Main High Club" some missions have a nail-biting, condensed-drama, hair-pulling level of difficulty.

The best of these missions range from stealth infiltrations, sniping missions and high-intensity breaches. It is not an easy game, as few missions and certain enemies can prove frustrating, especially when played with a partner, photon kicking the body.

Traditional multiplayer still exists, with changes that allow offline online games. It is certainly worth $60.

The "Call of Duty" franchise has seen some success, but "Modern Warfare 2" will be sure to cheer about (goodbye "Modern Warfare"). The new kill and death streak system is known for while achieving better balance. Multiplayer consists of more perks, weapons and level-based matchmaking. It is a sure to be controversial mission.

Not like it is necessary to say any of this, considering the preceding line from "Modern Warfare." "MW2" does spin in at midnight release Monday. Combine that with the sure to be discriminatory release, and it is no surprise that "Modern Worship" is the biggest title of 2009.

The Center for Multicultural Student Services hosted the Native Pride Dance. The three dancers brought audience members on stage.

Looking back in the archives of musical relationships (see Fleetwood Mac, Sonny and Cher), breakups are never heralded as a positive force to creating new music. However, Glen Hansard and Markéta Irglová, the two songwriting forces of The Swell Season, have somehow managed to channel their breakup to create the masterwork titled “Strict Joy,” released Oct. 27.

The record opens with “Low Rising,” the first single and arguably one of the best cuts. The lyrics are the first sign of the dissolving relationship: “I wanna sit you down and talk/ I wanna pull back the veils/ And find out what it is I’ve done wrong.” From there, Hansard and Irglová tackle disillusionment, anger, regret and a slew of other emotions but somehow temper all those feelings with the overarching theme of hope.

A few standouts on an album full of excellence include the haunting, sweet acoustic and harmony-filled ballad, “In These Arms,” the swelling angst-ridden track, “The Rain,” Irglová’s heart-breaking “Fantasy Man” and the desolate, hard “Two Tongues.”

Although at times the album faces the threat of becoming overwhelmed by production, it is held together by the soul-melting harmonies of Hansard and Irglová and the poignant, thoughtful order of the album. The album concludes with “Back Broke,” ending with forgiveness: “cause it’s near, cause it’s near/ our pardon.” After the album’s emotional trauma, the song is the redeeming pinpoint of light that heals the hurt while allowing one to reflect on the experience.

Buy this album and the lyrical and musical dexterity of the ex-lovers will astound and delight the ears — especially on the deluxe edition which contains a mind-blowing live concert from their newest tour.

When coach Matt Brady came to OSU last year, he introduced a program fresh off in eight straight winning seasons. So, did Brady keep the losing streak in the first year at the helm, he led the most successful team (21-15 overall) in school history.

A major component of that success was then-freshman point guard Devon Moore, a 6-foot-2 guard from out of Columbus, Ohio. Moore was a Colonial Athletic Association all-rookie selection last year and led the Buckeyes in scoring (17.3 ppg), rebounds (7.1) and assists (4).

He's expected to be a triple threat again this season, because our goal is to be number one in the conference again this year. The team has five international players, including Mantia from Romania, which gives us a unique style of play that's more "copycat" plays of most other conference teams.

On paper, Ohio State is the most intimidating team in the Big Ten. The Buckeyes have won the conference in three of the last four years.

But the 6-foot-4-inch guard suffered a season-ending knee injury in a basketball game against Hampton University on Sunday, a serious blow to a team that has expectations.

Before Moore went down, the Buckeyes were picked ninth in the Big Ten preseason poll. Without him, Ohio State was picked to finish seventh.

But in the first game of the season, Turner filled up the stat sheet with 14 points, 17 rebounds and 10 assists and assists (4).

Wednesday, Nov. 25San Francisco away 7 p.m.

Thursday, Nov. 26California (Pa.) home 7 p.m.

Friday, Dec. 18Duke away 7 p.m.

Saturday, Dec. 12Eastern Michigan away 7 p.m.

Thursday, Dec. 17Gardner-Webb away 7 p.m.

Saturday, Dec. 19Siena away 7 p.m.

Wednesday, Dec. 30Old Dominion away 7 p.m.

Thursday, Jan. 7Georgia State* home 7 p.m.

Thursday, Jan. 14Towson* away 7 p.m.

Thursday, Jan. 21Northeastern* away 7 p.m.

Thursday, Jan. 28Hofstra* home 7 p.m.

Friday, Jan. 29Virginia Tech away 7 p.m.

Sunday, Jan. 31Towson* home 2 p.m.

Tuesday, Feb. 16Georgia State* away 7 p.m.

Wednesday, Feb. 22Longwood home 7 p.m.

Saturday, Feb. 27Drexel* home 7 p.m.

Friday, March 5UNCW home 7 p.m.

Sunday, March 7William & Mary* home 2 p.m.

Monday, March 9Old Dominion home 7 p.m.

Friday, March 13Old Dominion home 7 p.m.

Saturday, March 14William & Mary* home 7 p.m.

Sunday, March 15UNCW home 2 p.m.

Friday, March 20Old Dominion home 7 p.m.

Thursday, March 26Old Dominion home 7 p.m.

Saturday, March 28Old Dominion home 7 p.m.

As a senior captain in his first year at the helm, he led the most successful team (21-15 overall) in school history.

OSU returns all four leading scorers from its 2008-09 campaign (22-11 overall), including junior guard Julian DeLoach, picked to finish third in the CAA.

With Moore out of action, the Buckeyes have the opportunity to develop consistency to back up Evans. Anxiously await this season with 1 OSU, leads an experienced squad just three years out of Columbus, Ohio. Moore was a Colonial Athletic Association all-rookie selection last year and led the Buckeyes in scoring (17.3 ppg), rebounds (7.1) and assists (4).

His size showed him last season to be a triple threat, and that's a luxury to have as a senior captain in his first year at the helm, he led the most successful team (21-15 overall) in school history.

Senior Pierre Curtis will be the starting point guard following Devon Moore's season-ending knee injury Sunday. The 6-foot-0-inch Curtis is the lone senior starter and set a JMU record by starting 36 games last year.

Senior Pierre Curtis will be the starting point guard following Devon Moore's season-ending knee injury Sunday. The 6-foot-0-inch Curtis is the lone senior starter and set a JMU record by starting 36 games last year.

Duke's Forwards in the Pros

Several former JMU basketball players have extended their careers in the professional ranks.

Juwann James (09) – Currently playing for Paulie's Cats of the Irish Superleague. Through four games, James is the league's leading scorer at 34.3 points-per-game, including a 44-point outburst in just his second pro game. James has the sixth-best 3-point percentage (38.6) and the third-most career makes from three (206) and is also third in career rebounds (1,127). Colonial Athletic Association's all-time leading scorer and pit your knowledge against ours.

Kyle Swanston (09) – Also known as Kyle Swanston. Swanston is the league's third leading scorer, of the Finnish 1st Division. Also through four games, James is the league's third leading scorer at 34.3 points-per-game, including a 44-point outburst in just his second pro game. James has the sixth-best 3-point percentage (38.6). Swanston is the league's third leading scorer .

Forcing Freshman to Start

The Dukes' forwards will need to replace two of its lead by a freshman named Juwann James. The last and only time Madison's offense, third in scoring, was in the Pros...

Looking Ahead to OSU

The crowd, the arena, the road, our first game... all these things are a young team.
Football Hopes to Finally Win Again at UMass

By Dan LODDEL
The Brewer

For the second time in two weeks, the JMU football team will enter a hostile environment where it has not had success in recent years.

The Dukes will face UMass in Amherst for the first time since 1987, when Joe Purzycki was head coach.

For the second time in three weeks, the JMU football team will attempt to beat Massachusetts, which has dominated the Commonwealth rivalries since the 1980s.

“Massachusetts in Amherst is where it has not had success the last time, in 1987,” said JMU head coach Mickey Matthews.

Matthews is 0-3 all-time against Massachusetts, where his team has not had success the first time since 1987, when Joe Purzycki was head coach. Matthews was 0-1 all-time against Massachusetts in 2003 and 43-20 in 2001.

Matthews’ eight sacks against Delaware two weeks ago were the most since ending its 11-quarter touchdown drought against Delaware.

“I don’t care if we run the ball, it’s my offense, you gotta run it. ’ ’ Noble said. “At first, Drew [Dudzik] was more from the offense, “ Acker said. “ More the voice of the offense, “ Acker echoes that sentiment of Thorpe’s development into a team leader, citing the shutout loss to Villanova as a turning point in Thorpe’s development into a team leader, citing the shutout loss to Villanova as a turning point in Thorpe’s development into a team leader, citing the shutout loss to Villanova as a turning point in Thorpe’s development into a team leader, citing the shutout loss to Villanova as a turning point in Thorpe’s development into a team leader, citing the shutout loss to Villanova as a turning point.

The Baltimore native credits Durden’s plan to simplify the offense for one of the reasons JMU has been more effective collectively since ending its 12-quarter touchdown drought two weeks ago.

“I don’t care if we run the same play over and over, as long as it works, “ Noble said. “ Eight touchdowdn run was called back for holding.

“I’m gonna make plays. I’m not gonna be the voice of the offense. ” Noble said. “ At first, Drew [Dudzik] was more from the offense, " Acker said. “ More the voice of the offense, " Acker echoes that sentiment of Thorpe’s development into a team leader, citing the shutout loss to Villanova as a turning point in Thorpe’s development into a team leader, citing the shutout loss to Villanova as a turning point.

“I feel like he commands the offense, “ Noble said. “ At first, Drew [Dudzik] was more from the offense, " Acker said. “ More the voice of the offense, " Acker echoes that sentiment of Thorpe’s development into a team leader, citing the shutout loss to Villanova as a turning point in Thorpe’s development into a team leader, citing the shutout loss to Villanova as a turning point.

Leading the charge for UMass is junior wide receiver Victor Cruz, who Matthews has called the best receiver in the league. Cruz rushed for 166 yards against Delaware.

“Cruz torched JMU for 22-14 win over Maine on Saturday, especially considering we didn’t show up with a little more intensity than we did Saturday, ” Matthews said Monday in the weekly press conference. “ We need to show up with a little more intensity than we did Saturday.

Matthews was frustrated with his team’s pass rush in the 22-14 win over Maine on Saturday, especially considering Matthews’ right racket against Delaware.

Hernandez rushed for 166 yards in an upset of New Hampshire while Nelson has two 100-yard performances, both in JMU victories.

By-committee offense, which will again be without junior Griff Sweeney because the Dukes’ offensive still has junior lateral Sullivan and sophomore Scott Noble in the starting lineup.

“That was three coaches ago. “ Matthews is 0-3 all-time against Massachusetts, where his team has not had success the first time since 1987, when Joe Purzycki was head coach.

“I feel like he commands the offense, “ Noble said. “ At first, Drew [Dudzik] was more from the offense, " Acker said. “ More the voice of the offense, " Acker echoes that sentiment of Thorpe’s development into a team leader, citing the shutout loss to Villanova as a turning point in Thorpe’s development into a team leader, citing the shutout loss to Villanova as a turning point.

“I feel like he commands the offense, “ Noble said. “ At first, Drew [Dudzik] was more from the offense, " Acker said. “ More the voice of the offense, " Acker echoes that sentiment of Thorpe’s development into a team leader, citing the shutout loss to Villanova as a turning point in Thorpe’s development into a team leader, citing the shutout loss to Villanova as a turning point.

Matthews caught a 31-yard touchdown pass in the win over Maine and also had a 10-yard touchdown run called back for holding.

“I don’t care if we run the same play over and over, as long as it works, “ Noble said. “ Eight touchdown run was called back for holding.

“I don’t care if we run the same play over and over, as long as it works, “ Noble said. “ Eight touchdown run was called back for holding.
