VARSITY DEFEATS ALUMNAE

Varsity Victorious Over Alumnae To Tune Of 3-2

ZERO WEATHER BACKGROUND New Aeolian Mem-FOR CONTEST; MISS MARBUT, FARIES AND RATH PLAY

Saturday, with the thermometer registering barely zero, the Harrisonburg Varsity defeated the Alumnae in the annual Thanksgiving classic. The game was marked with much unusual playing the most of which was a touchdown registered by Miss Marbut on a forward pass from Lorraine Gentis. The Alumnae thus maintained on their ground the score should be 8 to 3 but the score, since the contest was one of Hockey rules was 3 to 2 in favoring H. T. C. varsity.

The Alumnae team was in unusually good condition and displayed topnotch form on the field. They had a slight edge on the Varsity, however, oughly by everyone. having with them Miss Marbut and Miss Farries, coaches at H. T. C. and Miss Rath coach at Hollins. The varsity was not dismayed, and proving what strict training and much practice could do, tallied the winning score late in the last half.

W. Doan and Helen Goodson were responsible for the Alumnae's scores which came early in the second half when a great comback was staged. The varsity's first markers were made soon at the start of the game by Evelyn Bowers and Martha Warren. Bowers also scored the last goal.

The varsity somewhat, handicapped by Mary Watt being out of the game, showed good passwork and executed some clever passes and dribbles.

Elizabeth Miller, captain of the varsity was unable to arrive in time to play so Lorraine Gintes was elected temporary captain.

.The line up was, H. T. C. Varsity (3) Alumnae (2) L. W. E. Wilson Audrey Hayett Garrison W. Doan L. I. Marbut M. Warren Goodson R. W. Bowen Farries C. H. Quissenberry M. Farinholt Heizer L. H. Sullivan L. Harris R. H. Jack Weems L. F. F. Ralston L. Gentis (c) R. F. J. Duke E. Smith F. Rand G.

JACKSON GIRLS ARE "AT HOME"; MANY AT-TEND "OPEN HOUSE"

Quaintly old-fashioned was the "at home" held at Jackson Hall on last Friday evening, November 22. An atmosphere of the traditional southern hospitality prevailed the whole gathering. The falling snow added to rather than deminished the pleasure of the evening. Mary Swartz and Dorothy Wright, costumed as colonial characters, greated the guests at the door. Miss Turner, as hostess of the hall, received the visitors.

In the room directly across from the entrance, made for that occasion into a reception room, refreshments were served. Upstairs, a phonograph played lovely music for dancing couples. A solo dance was gracefully given by Elaine Hupp. The girls of Jackson Hall escorted faculty members and

After the game Saturday afternoon, in the Reception Room of Alumnae Hall, the Alumnae Committee of the Y. W. Cabinet were hostesses at a delightful tea in honor of the Alumnae and varsity teams. Miss Wilson presided at the tea table. The glowing fire in the open fireplace was very attractive as well as cosy and warm.

Reluctantly many girls of the student body saw the cars of the Alumnae friends leave Sunday afternoon, feeling that their holiday had been made complete by their presence of our "old girls" on the campus all again.

First President Of Parent Teachers Association Here

The speaker in Chapel, Wednesday, was Mrs. Harry Semones, of Roanoke, founder and first president of the Parent-Teachers Association.

In her address she spoke on the importance of the Association to us. In twenty-six countries home and school are united. The association is non political, non secretarian, has no commercial aspects, and is wholly demo-

The keynote of the organization is that it goes to the individual child which is, of course, entirely in keeping with modern progressive methods in education.

Men and women give voluntary service to the cause of the Parent-Teachers Association because they are fired by its ideals and possibilities for the betterment of the nation.

Mrs. Semones quoted the following prominant leaders and educators as follows:

To my mind the parent-teachers as-Byrd received many messages of the most important movements at interpretation of an incident in the work for our national betterment .--Hon. John J. Davis, Secretary of

> One of the most intelligent and common movements that has ever been formed is the organization of the parent-teachers associations. What the normal schools do for the teacher, the parent-teacher association is trying to do for the parent .- Dr. Frank Crane.

> Like the development of the public school system tself, and perhaps next in significance, the development of the parent-teacher association is an indication of the attitude of the American people toward education. The spirit of cooperation marks every important utterance and every important action of the organization.-Editorial from School Lire.

> The National Congress of Parents and Teachers is a marvelous educational achievement. If there is any human organization of the century which is heaven born it is the parentteacher association, whose mission is solving problems of babyhood, childhood and youth in the greatest crisis in human affairs that America has known. VARIOUS STUNTS ATTRACTIVE-LY PRESENTED; FORTUNE TELLING FEATURE

Friday night marked the opening of the winter social activities on campus with the Annual Bazarr. The gym was invitingly decorated in Japanese fashion with lanterns, streamers and flowers. Japanese gifts and other Christmas suggestions were displayed attractively around the room. During the entire course of the evening refreshments were sold and the college orchestra furnished the dance music.

The various organizations on campus presented several original and well planned stunts. Prizes were offered for the most original and best developed stunts. The Page Literary Society presented "A Girl For Every Month" sung by Phyllis Palmer as the

The Lee Literary Society gave an old-fashioned and modern version of the balcony scene from Romeo and Juliet. Jimmie Knight as Romeo and Nellie Cowen as Juliet represented the old fashioned while the modernists were played by Esther Smith as Romeo and Mary Crane as Juliet.

The Lanier Literary Society desociations of this country are one of lighted those present with an original early life of Sidney Lanier.

The Freshman Class added variety and pleasure to the program with their presentation. An old girl of H. T. C. as telling a New-Girl-to-be all about campus life and activities. As the story was told the incidents were visualized by members of the class acting the parts.

An added feature of the evening vas the famous Dr. Pickettine who told fortunes to all those present. At the close of the Bazaar a cake was raffled off by members of the Schoolma'am staff and the prizes for the Poster contest were awarded.

FASHION SHOW BRINGS ATTRACTIVE COTTON PRODUCTS FOR DRESS

An interesting entertainment was given in Reed Hall at 4:30 on Monday afternoon in the form of a fashion show. Miss Cleveland, representative of the New York, Cotton Institute gave a very attractive talk in regard to present day fashion. As various types of dress were exhibited by models, she explained certain points of interest pertaining to each style, Sport clothes, afternoon dresses, and evening dresses for both winter and summer were shown. The materials, which were all of cotton, were very effective. Some of the different fabrics used were velveteen, pique, "prints," and organdie.

EDITORIAL WHAT IS CULTURE?

Is it to take off our shoes and tread with reverence the holy ground made sacred by the labor and suffering of the pioneer. Is it to mingle our sweat drowned, and we ain't never been sure kill the ants on the basin, walls, winwith the sweat of the 100,000 slaves who toiled thirty years on the Great Pyramid in producing some work, tangible or intangible, which shall be of permanent value and help to preserve the sentiments and thoughts of the present for the future. It is to memorize a lullaby with which a hundred million mothers have crooned their babies to sleep. It is to appreciate a picture which detaches and lifts outs of the confusing, distracting details of everyday life some great ideal. It is to let the dock laborer or the lumberjack introduce us to that multitude of homeless, wifeless, childless men men who are ready to curse God and die. It is to walk the streets with the throng, and to find the meaning of life, vicariously at least, through sharing their purposefulness, even their desperation. It is to have a religious experience so sound that the gates of hill and the ministerial association combined cannot prevail against it. It is to read history and literature, and study science and art, in such a manner as to find one's way into that great company, that apostolic succession of saints and martyrs, prophets and seers, tellers of tales and singers of songs, yes, and hewers of wood, and drawers of water, diggers of ditches.-Walter A. Terpenning, in the February Journal of the National Education Association.

THAT THANKSGIVING SPIRIT

The Thanksgiving season has passed. The foot ball, the collegiate array of coonskins and school colors flaunted from low-slung roadsters, the browned turkey, the holiday spirit are all gone for the time being.

However, the factor that makes Thanksgiving a holiday, a time observed nationally, should be still in our hearts. There it should remain-that spirit of Thanksgiving with which the holiday was incorporated. William Bradford and his hardy, sturdy, God-fearing Puritan Tribe sat down to their meal with praise and thankfulness on their lips. Time with its changes has brought a multitude of fortunes, hope, and good luck to the world. Thus, should we not, with a smile on our lips, understanding and sympathy and love and thankfulness in our eyes for the wonders wrought for us, go as we know best through life?

Let's remember that Spirit. Thanksgiving should be a national feeling of permanence, a spirit in which we shall be thankful, giving our best in return for the beauty and kindness and comfort that has geen given us.

CHECKING UP

Organizations before the end of each quarter check up in regard to number of members, finances, and activities. This quarter serious consideration is to be given each one in particular reference to the worth of activities.

The worth of activities is a rather valuable consideration in regard to an individual also. We may have worked, accomplished a lot of work, apparently, but what have we gained is the vital point. Have we gotten anywhere? Have we attained that for which we set out?

Plodding along is said to be of value in the end, but the combination of plodding and looking ahead is the more sensible plan. In looking ahead, we naturally have to "check up" to see if we're going in the right direction and in the best way. As we journey on, and reach one, two, three milestones, we look back to see the way in which we have come.

Thus, as we reach the end of the quarter, let us look back for a milestone, and see what our accomplishment has been. Let's check up, so that we may measure our future efforts by our "checks."

HOW MANY "DOWNS"?

At the time of this issue we have exactly twelve more days before Christmas. In other words-"12 to go!" In football terminology, that "12 to go 'sounds familiar, but so much "down" usually precedes the well-known phrase. How many "downs" do we have?

In football, after that certain number of downs, the ball goes to the otherside, consequently, as much gain as possible is made in the allotted numher of gains. In this game of "before Christmas," we have "twelve to go"! Let's make good that time in our number of downs—we must make that gain that means success for us. Work to be done, preparation for examinations, papers, reports and reviers to be written are our gain, if we accomplish what is set before us to do. Just as in football, every minutes counts.

This-just as in football, let's make that gain in good time, on our "twelve to go!"

CAPTAIN OF MY SOUL

Do you feel that you hold the situations that come along in your life entirely in your own hands, or do you some times feel that if it were not for someone who stood behind you that you would have little or no idea of which way to turn? The purpose of education is to put tools into your hands that can be used in later life's more complex situations. Now we have come to college where we must begin to use these tools and to use them with more anre expertness. These situations where we find ourselves looking to something within for help, are going to prove, by the means in which they are met, whether we have learned to use what has been put within our reach. Let us meet our situations ourselves and cope with them with our own knowledge. It is in this way that we can say,

'I am the master of my fate: I am the captain of my soul."

The general education board announced on Nov. 30 the presentation of \$50,000 to Randolph Macon College for construction of a science building on campus. As yet the location of the building has not been determined, but plans for its construction will be begun soon.

This will be the fourth building added to the R. M. W. C. campus this session. Presser Hall the music school

building, the new library and the new power house are the three other buildings completed or nearing completion.

#### NEW TEACHERS PENSION PLAN

A new plan placing the teachers pension system on a firmer basis was voted on by the Virginia Education Association at the final session Nov. 30, of the twenty-third annual convention held in Richmond.

The plan provides for deducting five percent annually instead of the present one percent from the 16,000 public school teachers for the teachers pension. This will go through provided the state match the fund.

The association also expressed the opinion that "Inequalities in educational offerings and opportunities must continue unless the State provided the means of correction."
