folk has all of these.  

Note: Newport News and Hampton can be studied in comparison with Norfolk.

PART TWO

Introducing the Educational Unit

Since the approach to a unit gives trouble to so many teachers the method we used is outlined below.

The main method used was a first hand investigation of Harrisonburg's trade conditions. The class was led to take the following steps in order to have them sense the meaning of a break in transportation that they could set up problems concerning Harrisonburg, and then concerning other Virginia cities.

A. Make a list of:
   1. Products from Rockingham county sold in Harrisonburg.
   2. Products of Rockingham county and Harrisonburg sold outside of the Valley.

B. Find out:
   1. How products are shipped in and out of Harrisonburg. Be able to sketch the highways and railroads on a map of the Valley.
   2. What products are unloaded, stored, or reshipped in Harrisonburg.

By this time the class saw that Harrisonburg meets a real need as a distributing center for its district; this led to inquiries concerning the other Virginia cities.

MODERN FOREIGN LANGUAGE STUDY PROBLEMS UNDER INVESTIGATION

The Committee on Direction and Control of the Modern Foreign Language Study assumes provisionally as the four immediate objectives of instruction in the modern foreign languages a progressive development—

1. Of the power to read the foreign language.
2. Of the power to understand the language when spoken.
3. Of the power to speak the language.
4. Of the power to write the language.

The Committee posits further the following as ultimate objectives which may possibly be attained through the study of the modern foreign languages—

1. *Ability to read the foreign language with ease and enjoyment.
2. Ability to communicate orally with natives of the country whose language has been studied.
3. Ability to communicate in writing with natives of the country whose language has been studied.
4. Increased ability to pronounce and understand foreign words and phrases occurring in English.
5. Increased ability in the accurate and intelligent use of English.
6. Increased power to learn other languages.
7. A more effective realization of the importance of habits of correct articulation and clear enunciation.
8. Increased knowledge of the history and institutions of the foreign country and a better understanding of its contribution to modern civilization.
9. Increased ability to understand ideals, standards, and traditions of foreign peoples and Americans of foreign birth.

*In arranging the objectives, the question of relative importance has not been considered.
