<b>Age:</b>	<b>Gender:</b> Male
<b>Status:</b> deminer	<b>Fit for work:</b> presumed
<b>Compensation:</b> Not recorded	<b>Time to hospital:</b> Not recorded
<b>Protection issued:</b> Not recorded	<b>Protection used:</b> Not recorded

**Summary of injuries:**

COMMENT: Minor injuries. No medical report made available.

### Analysis

The primary cause of this accident as "Other" because the circumstances of the accident are not yet known. The classification presumes that Victim No.1 stood on a mine that was in the Control point - a mined area that had either been missed during survey or during clearance and site preparation.
