THE NIDA SCIENCE READERS

THEY ARE EAGER FOR SCIENCE

Children are eager for scientific information. Their reading has been overloaded with fairy tale and fiction. The idea that they are not interested in scientific facts is itself disproven by facts and the endless questions of children about matters of fact. Respect their honest curiosity and give them easy, interesting scientific reading.

Book III—The Baby Animal Zoo. Book IV—Animal Life. Book V—Makers of Progress. Book VI—Early Men of Science. List price, 88 cents each.
