Campus Perspectives

"It makes me feel good that JMU is such a competitive university--I feel like I'm getting the best education I can get. The curriculum they drive you toward makes you such a well-rounded person, and prepares you for life after college."

Dave Rivers, Senior

Dennis
"I'm at JMU because Uncle Ron's at JMU. He's the greatest!"
Andy Raines, Senior
"This is the only school I wanted to go to. The setting is beautiful, the academics are challenging and competitive, and there's a good girl to boy ratio." Chris Collingwood, Junior
"The campus night lights can be really breathtaking, especially on the quad. With the bluestone buildings and all the columns lit up, JMU is the very epitome of the word 'university.'" Dave Alevy, Junior
"JMU becomes electrified at night. My room looks out over Newman Lake and the sunsets at night are just incredible." Terry Rush, Senior
Personalities
"The diversity of the people is JMU's greatest asset. Meeting people from so many different backgrounds is an education in itself." Karen Williamson, Senior
"Everybody here really gets along well. I think it's the neatest thing that you can walk around campus and not see anyone you know and people still say hi to you." Pete Sutcliffe, Senior
Encounter
"The campus really comes alive in the fall with all the different colors -- it's great!" Maura Hanrahan, Junior
"When the leaves are off the trees, you take out your snuggly clothes and want to curl up by the fireplace --only there's no fireplace!"

"Jammin' at J.M.U."
"Music at J.M.U. is like the British rock invasion of the 60's. Never have so many great bands, so many mediocre bands, and so many bogus bands emerged from one place in the history of music."

Kevin Green, Third Wave

DIRECTIONS
Did you know that... Long Field was completed in '73 and was named for a former JMU Physical Education professor and coach. Mauck Stadium was completed in '79 and was named for J. Leonard Mauck, a ten year member of JMU's Board of Visitors. 1985 was the first year of operation of the electronic scoreboard at Long Field. The pressbox and batting cage are permanent fixtures at Long Field. Mauck Stadium has permanent seating for 900 spectators. Godwin Hall is the center of JMU's athletic program. It was named for former Virginia Governor and Mrs. Mills E. Godwin, Jr. and opened in 1972.
Godwin’s facilities include: a 5,000 seat gym, an Olympic size swimming pool with spectator seating for 800, training rooms, two weight rooms, a gymnastics practice room, and a practice area with an indoor batting cage and archery and golf range. The Convocation Center, better known as the Convo, has 7,612 seats and an indoor jogging track as well as the basketball court. There are 23 tennis courts on campus, 15 of which have lights.
"We have a new distance coach this year and it is the second year for our head coach. Last year was a big transition for us but this year should be even better."

"As catcher, I just concentrate on where the ball's going to be. You have to be ready for everything. I don't even think about it when the batter swings. I'm just there with the pitcher, working with him."

Robert Trumbo, Senior

"We definitely had our moments! When everybody pulled together, we were a good team." Anthony Evans, Senior

Dawn Kiss, Junior

"...the professors are here at J.M.U. because they want to use their professional knowledge since there's not that much emphasis on research. J.M.U. is not a publish or perish institution." Dr. Harold J. McGee, Vice President for Administrative Affairs
"J.M.U.'s quality of students is better than most schools and this is a motivating factor to the faculty. Professors want the work to be challenging enough for students." Dr. Robert E. Holmes, Dean of School of Business
"I would be hard pressed to name another primarily undergraduate state-supported school that does a better job with its undergraduate programs than J.M.U."

Dr. Carl L. Harter, Associate Dean of College of Letters and Sciences
"... as quality of student body continues to improve, we must constantly seek to enhance the programs for all students. Such efforts will continue to promote growth of students and faculty." Dr. Charles W. Blair, Elementary/Early Childhood/Special Education Department Head
"Concern for students is important and the school should try to hold on to that. J.M.U. has the advantages of a large school in diversified program, with advantages of small school-concern for the students."

Reflection
U.S. News and World Report listed J.M.U. second in academic quality among 158 colleges and universities in southern and border states in the November 25, 1985 issue. This public recognition for its academic quality is just one example that J.M.U. is finally receiving the support and notoriety that it deserves. More and more people are becoming aware of J.M.U. across the nation. We're finally making our mark in the university "Hall of Fame." Here are some highlights from the past year which have put James Madison University in the minds of people all over America and the world.

**SPORTS**

Universities are traditionally known for their successful (or not so successful) sports teams. J.M.U. has come to be well-known for quite a few.

Once again, members of J.M.U.'s archery team shot their way into a national title. They placed 2nd in the U.S. Intercollegiate Archery Championships. J.M.U.'s volleyball team also gained recognition by going to the NCAA Division II Tournament for the 2nd year in a row. The women's swim team won the CAA Conference Championship this year. The women's basketball team received recognition for their winning efforts and were ranked 19th in the Associated Press' national top-20 poll. Even J.M.U.'s cheerleaders got in on the act. In January, the cheerleading squad flew to San Diego to compete in the Universal Cheerleading Association/Ford College Cheerleading National Championships, where they placed 3rd.

Football fans were thrilled each weekend to watch Gary Clark play football for the Washington Redskins. Clark, a former J.M.U. football player, caught and ran his way into the hearts of Redskins fans and put the name James Madison University into the mouths of sports announcers across the nation.

**PUBLICATIONS**

A lot of information about J.M.U. is conveyed through the many publications put out by the university, and a lot of these publications have received honors and awards which have put J.M.U. in the spotlight. J.M.U.'s campus newspaper, The Breeze, was voted the best paper in the state in 1985 by the Virginia Collegiate Press Association. The Bluestone was chosen last year to be
Taylor Publishing Company's sample book. Many extra copies were printed and distributed throughout the U.S. The division of university relations had four publications cited for awards by the Council for the Advancement of Education this year. These publications included the women's basketball media guide, the football media guide, the football schedule poster, and a promotional series on the J.M.U. Dance Theatre program. All these publications have reached many people and have spread the good word about J.M.U.

**FACULTY**

The faculty at J.M.U. is proud of the institution and each member makes his or her contribution to further publicize it. In addition to sharing their knowledge with students, our professors are constantly striving to gain further knowledge, and experience new things themselves. Frequently, teachers from J.M.U. have articles and books published. Members of our faculty also travel to speak and learn at other colleges.

This year, J.M.U. had an especially exciting form of publicity through Dr. Paul Cline, a political science professor here. Dr. Cline ran for the office of 27th District Representative to the Virginia House of Delegates and won! J.M.U. Democrats and Republicans alike were thrilled to have a member of the university become involved in politics.

**J.M.U. AID**

In the year of Band-Aid, Live-Aid, and Farm-Aid, J.M.U. did its part to help the needy. Heavy rains last fall caused major floods all over the Shenandoah Valley and in West Virginia. J.M.U. organizations quickly took action to help those whose houses had been washed away in the flood. Many people donated both time and money to aid flood victims. The S.G.A. started a program called "Adopt-a-Family" where organizations could sponsor a particular family to provide them with supplies they specifically needed.

**AROUND THE WORLD**

The scope of J.M.U. has far exceeded the boundaries of the North American
continent. The university expanded its semester abroad program this year to include Paris, France. Each semester, approximately 60 J.M.U. students have the opportunity to visit London and Paris and tell people all about James Madison University.

**FINE ARTS**

Through the fine arts and communication programs here, J.M.U. has become very well known. Various music ensembles like the Jazz Band and the Madisonians provide entertainment for a variety of people, and have the opportunity to travel and show people what J.M.U. is like. And of course, there's "Virginia's Finest" — The Marching Royal Dukes — one of the best marching bands in the U.S. They're invited to play all over the nation, and certainly contribute to the university's good image.

Students also have the chance to be in the public eye through the J.M.U. Video Network. "J.M.U. Today", and "Profiles" provide information to the public about the events and people that make up J.M.U. and the surrounding area. Each week, 20,000 people tune in to these shows to learn more about the university and community. People can hear J.M.U. through WMRA, a student-run radio station. Community affairs, music, and sports events are heard seven days a week by people all over the Shenendoah Valley.

**GROWTH**

J.M.U. is growing bigger and better each year. This year a new facility, the Phillips Center, was added to our campus. The Phillips Center contains a new, updated version of Dukes Grill, and a ballroom for various functions. A 24-hour convenience store, Mr. Chip's, was opened to offer students a close, convenient option to other stores. And the growth never stops — renovation, additions, and talks of new buildings and facilities continue. The university is changing with the times and growing into a major, influential university.
Dr. Carrier wants J.M.U. to see the number one slot in U.S. News and World Report's poll next year. We're on our way, Uncle Ron!!
The war in the Mid-East continued in 1985. A distraught Moslem man hugs his son moments after they survived a car bomb explosion outside a West Beirut restaurant in late August. They are shown being hurried away from the carnage by another man as cars burn in the rubble-strewn street.

The space program moved ahead. Space walker James von Hoften stands tall on the end of the robot arm of the Space Shuttle Discovery after successfully launching the repaired Syncom satellite in September.

President Reagan, with his wife Nancy, gives the A-Okay sign from his hospital window in July after undergoing surgery to remove a cancerous tumor from his lower intestine. The 74-year-old president was back on the job within weeks after his operation.

Ceremonies were held at various times during the year at the Vietnam Memorial in Washington to commemorate the tenth anniversary of the fall of the Saigon government in Vietnam. The Vietnam Memorial is inscribed with the names of more than 58,000 dead or missing soldiers from the Vietnam war.

A series of devastating earthquakes rumbled through Mexico City in September and the death toll was in the thousands. Few in the metropolitan area of 18 million escaped the effects of the first quake, which registered 8.1 on the Richter scale; or the second quake, which measured 7.5.

A Trans World Airlines jet with 145 passengers and eight crew members was hijacked in Athens, Greece, in June. The Sheite hijackers took the plane to Beirut, then to Algeria and then back to Beirut. Most of the hostages were released within days but the remaining 39 hostages were held for 17 days. One American hostage was killed.

Four Palestinian terrorists hijacked the Italian cruise liner Achille Lauro while on a Mediterranean cruise. One American was killed. After the ship was released the Egyptian government agreed to return the hijackers to the PLO. However, the hijackers were intercepted by American jets as they were flown out of Egypt and returned to Italy to stand trial.

Riots were an almost daily occurrence in South Africa as blacks protested Apartheid. In this photo, a white man runs from a jeering group of stone-throwing blacks in downtown Johannesburg as widespread violence continued to breakout throughout the country.

The explosion of the Space Shuttle Challenger which killed all seven crew members was the first in-flight disaster in 56 manned U.S. space missions. Christa McCuliffe, a high school teacher from Concord, New Hampshire, was among the crew on the fatal flight.
We'll Miss You, J.M.U.

JAMES MADISON UNIVERSITY — SPREAD THE WORD!!! We’re all so proud of this school and all it has to offer, and we’ve tried to convey that pride in this publication. Not only in the tradition and growth, but the creativity, the color, and the vibrancy of the institution and the people who go to school here. We think this book reflects all of these things. Hopefully, somewhere in this publication, you’ve picked up that feeling.

I’ve had the honor of serving as editor for two years now, and have watched books develop and people develop. I didn’t do it alone, though. There are several people who deserve recognition for their efforts.

First, I have to thank my family, especially my mom, for all the encouragement and support I’ve gotten ever since I can remember. I want to thank Lelia and George for taking me to dinner, having patience, letting me call at odd hours of the night (morning), and offering creative input. You’re both great!

Special thanks goes to the whole Bluestone staff — I’m very proud of the book we produced and all of the hard work that was put into it.

Jon thanks for staying up all night to help with deadlines, for lifting all the heavy stuff, and for being my best friend.

Amy thanks for being so organized and for talking and understanding.

Mandy thanks for entertaining me with “real-life” soap operas!

Stephanie thanks for always being so cheerful — even when the chips were down.

Donna thanks for filling me in on all the gossip!

Jane thanks for stepping in and doing a great job.

Skippy, Dee, Larry and all the photographers, thanks for putting up with last minute assignments and print deadlines!

To the whole staff thanks for two of the greatest years of my life — the friendships and fun times well outweigh all the problems we encountered. And Taylor’s using our book as the sample again! AWESOME! Most importantly we’ve done more than ever before to “spread the word” about JMU and to promote the university.

I wish the best of luck to all of you. You all deserve the very best! I love you all!!! Chrys Peterson, Editor
The 1986 Bluestone, volume 78, was published by Taylor Publishing Company of Dallas, Texas. Sixty-three hundred copies were printed, nine by twelve inches. 80 lb. Westvaco Sterling Litho II double coated enamel paper and Sinclair-Valentine warm black extended lithograph ink were used throughout the book. The cover is an original staff design in collaboration with George Olson of Taylor Publishing. The cover is a 4-color lithograph cover with a Mylar laminated coating. The two-design endsheets are 4-color and were designed by the editor. Process color is used on all spot color and 4-color pages. All headlines were set by Taylor Publishing using various type styles and sizes. All text entry was computerized — submitted on software from an IBM personal computer.
